

MEASURE H / HOMELESS SERVICES FUNDING COMMUNITY LISTENING SESSIONS

The **Los Angeles County Homeless Initiative** and the **Los Angeles Homeless Services Authority** are **seeking your input** on how we should be using your local Measure H tax dollars and additional State funding to **combat and prevent homelessness**. We are holding **eight community input sessions** across Los Angeles County, one session in each of the County's eight Service Planning Areas. Each session is an **opportunity for you to weigh in** on what is working well, what gaps exist, and the most effective ways to use this funding. **Everyone is welcome and encouraged to share their insights and recommendations** on how we should be investing this funding to **solve our homelessness crisis**.

All of the below Community Input Sessions are **open to the public**. RSVPs are not required. We look forward to seeing you!
