US 101/Willow Road Interchange Project

MENLO PARK, CA - The California Department of Transportation (Caltrans), in partnership with the San Mateo County Transportation Authority and the cities of East Palo Alto and Menlo Park, is proposing to reconstruct the Interchange of US 101 and Willow Road. The project will address deficiencies impacting motorists, bicyclists, and pedestrians by eliminating traffic weaves and providing adequate space for vehicles to stack on freeway off-ramps.

Caltrans is beginning the environmental phase of the project and is holding a Public Scoping Meeting at the Menlo Park Senior Center, 100 Terminal Avenue, on October 17th from 6 p.m. to 8 p.m. Caltrans staff will also be presenting information on the project at the next Council meeting on October 9th 7pm in the City Council Chambers at 701 Laurel Street.

Another Public Scoping Meeting is scheduled in East Palo Alto at the East Palo Alto City Hall, Community Center on October 24th. Residents are encouraged to attend either Public Scoping meeting and to provide their input to the project.

If you have questions regarding this project, please contact Yolanda Rivas, District Branch Chief, Office of Environmental Analysis, California Department of Transportation at 510-622-1705 or by E-mail: Yolanda_Rivas@dot.ca.gov
