

# Riverside

## PTS | ATP | CSO | TMP

**TAC Meeting #2**  
**August 26, 2020**

# AGENDA

1. Welcome + Introductions
2. PACT Overview Refresher
3. PACT Progress
4. Recommendations Methodology
4. Review AT Plan Recommendations
5. Next Steps
6. Questions

# PACT Overview

## **Pedestrian Target Safeguarding**

- Ensure public areas are safe, secure, functional, and visually appealing
- Prevent vehicular attacks
- Reduce accidental collisions

## **Active Transportation**

- Improve connections for biking and walking
- Prioritize needed improvements
- Identify strategy for constructing improvements

## **Complete Streets Ordinance**

- Create design standards
- Communicate development expectations
- Allows physical improvements to be included in new projects

## **Trails Master Plan**

- Create a connected urban and rural trail system
- Enhance the quality of life through recreation and activity
- Invest and expand trails in the future

# PACT Progress

## 1. Project Start

- Identify Community Leaders who can share about the PACT
- Develop an Outreach Strategy
- SHARE!

## 3. Share Back 2 U

- Confirm challenges + opportunities for improvements
- Create real implementable recommendations
- Present Progress to the Community

## 5. Adopt the PACT!

- Present Progress to the Community
- Review the final plan
- Adopt the PACT

1

2

3

4

5

## 2. See + Listen to You

- Conduct Interactive Virtual Meetings
- Pop Up in Riverside!
- Lead Walkshops

## 4. Figure Out "Building" It

- Understand your priority areas.
- Create development standards
- Develop a funding strategy

# Recommendations Prioritization

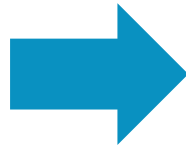

| CRITERIA                  | MEASURE                                                                                                                                                                                                                                                             | POINTS |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Connectivity              | Project connects to major destinations, close gaps in the existing bicycle network/sidewalk network, and serves demand for active transportation trips based on proximity to where people live, work, play, shop, learn, and access transit.                        | 0 – 10 |
| Health + Equity           | Project is located within a disadvantaged community, as defined by CalEnviroScreen 3.0, Riverside Unified School District Free and Reduced Meal Program, and/or household income thresholds (Department of Housing and Community Development ACS 5-year estimates). | 0 – 6  |
| Safety                    | Project is located along a high collision corridor or street with high levels of traffic stress, and thereby, addresses safety barriers.                                                                                                                            | 0 – 6  |
| Community-Identified Need | Project was identified as needing improvement by community members through one or more community engagement efforts.                                                                                                                                                | 0 – 6  |
| Regional Goals            | Project improves and builds upon the regional network identified in the Riverside County Bike Master Plan and/or WRCOG Active Transportation Plan.                                                                                                                  | 0 – 2  |
| Maximum Possible Points   |                                                                                                                                                                                                                                                                     | 30     |

# Recommendations Prioritization

## ANALYSIS

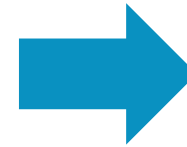

### FACTORS

- CONNECTIVITY
- HEALTH + EQUITY
- SAFETY
- COMMUNITY IDENTIFIED NEED
- REGIONAL GOALS

### SCORING

- RECOMMENDATIONS BASED ON FACTORS

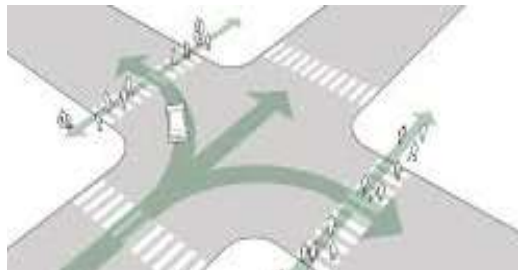

### RANKING

- RECOMMENDATIONS ORGANIZED IN THREE TIERS DEPENDING ON SCORE.
- Tier 1 – High Priority Projects
- Tier 2 – Priority Projects
- Tier 3 – Other Projects

# Pedestrian Improvements

## Pedestrian Refuge Island

## Lead Pedestrian Interval

## Protected Intersection

## Pedestrian Scramble

## Pedestrian Signal

## Midblock Crossing

## Crosswalk & Curb Ramp

## Pedestrian Lighting

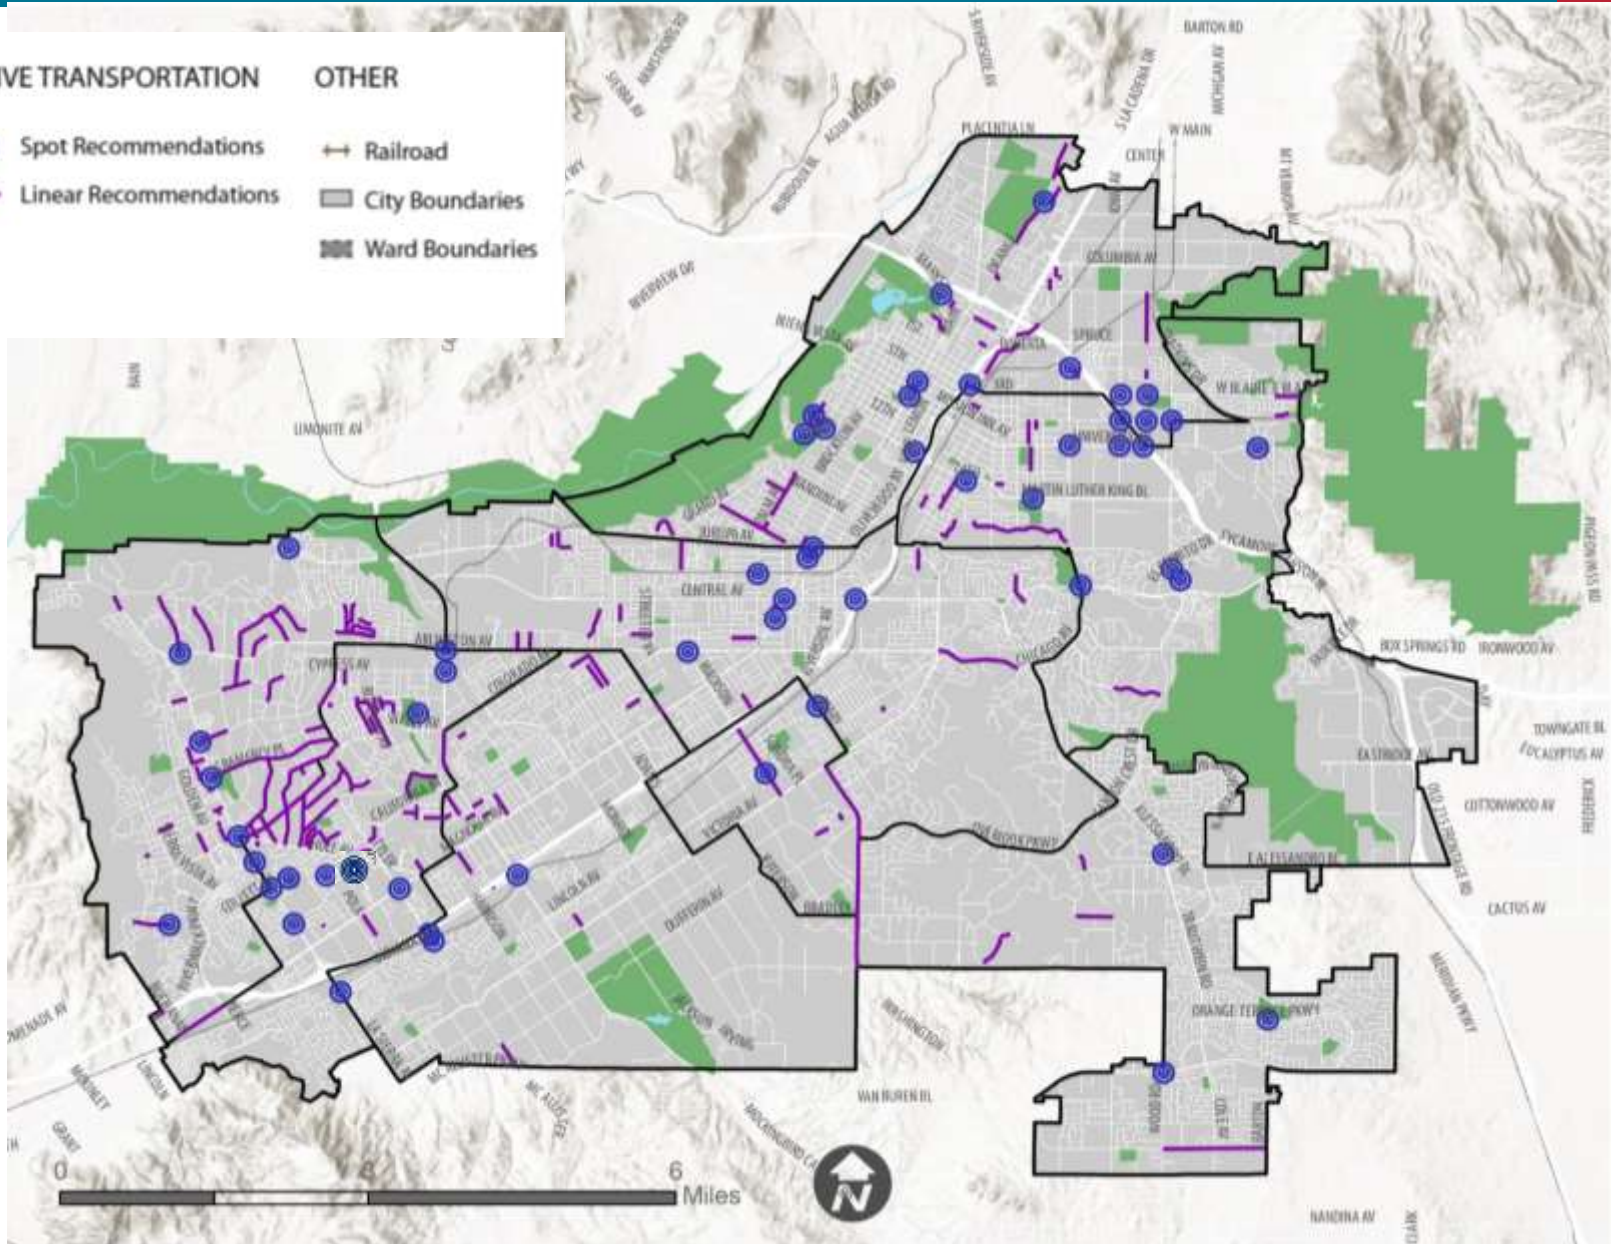

## Curb Extension

# Draft Pedestrian Recommendations

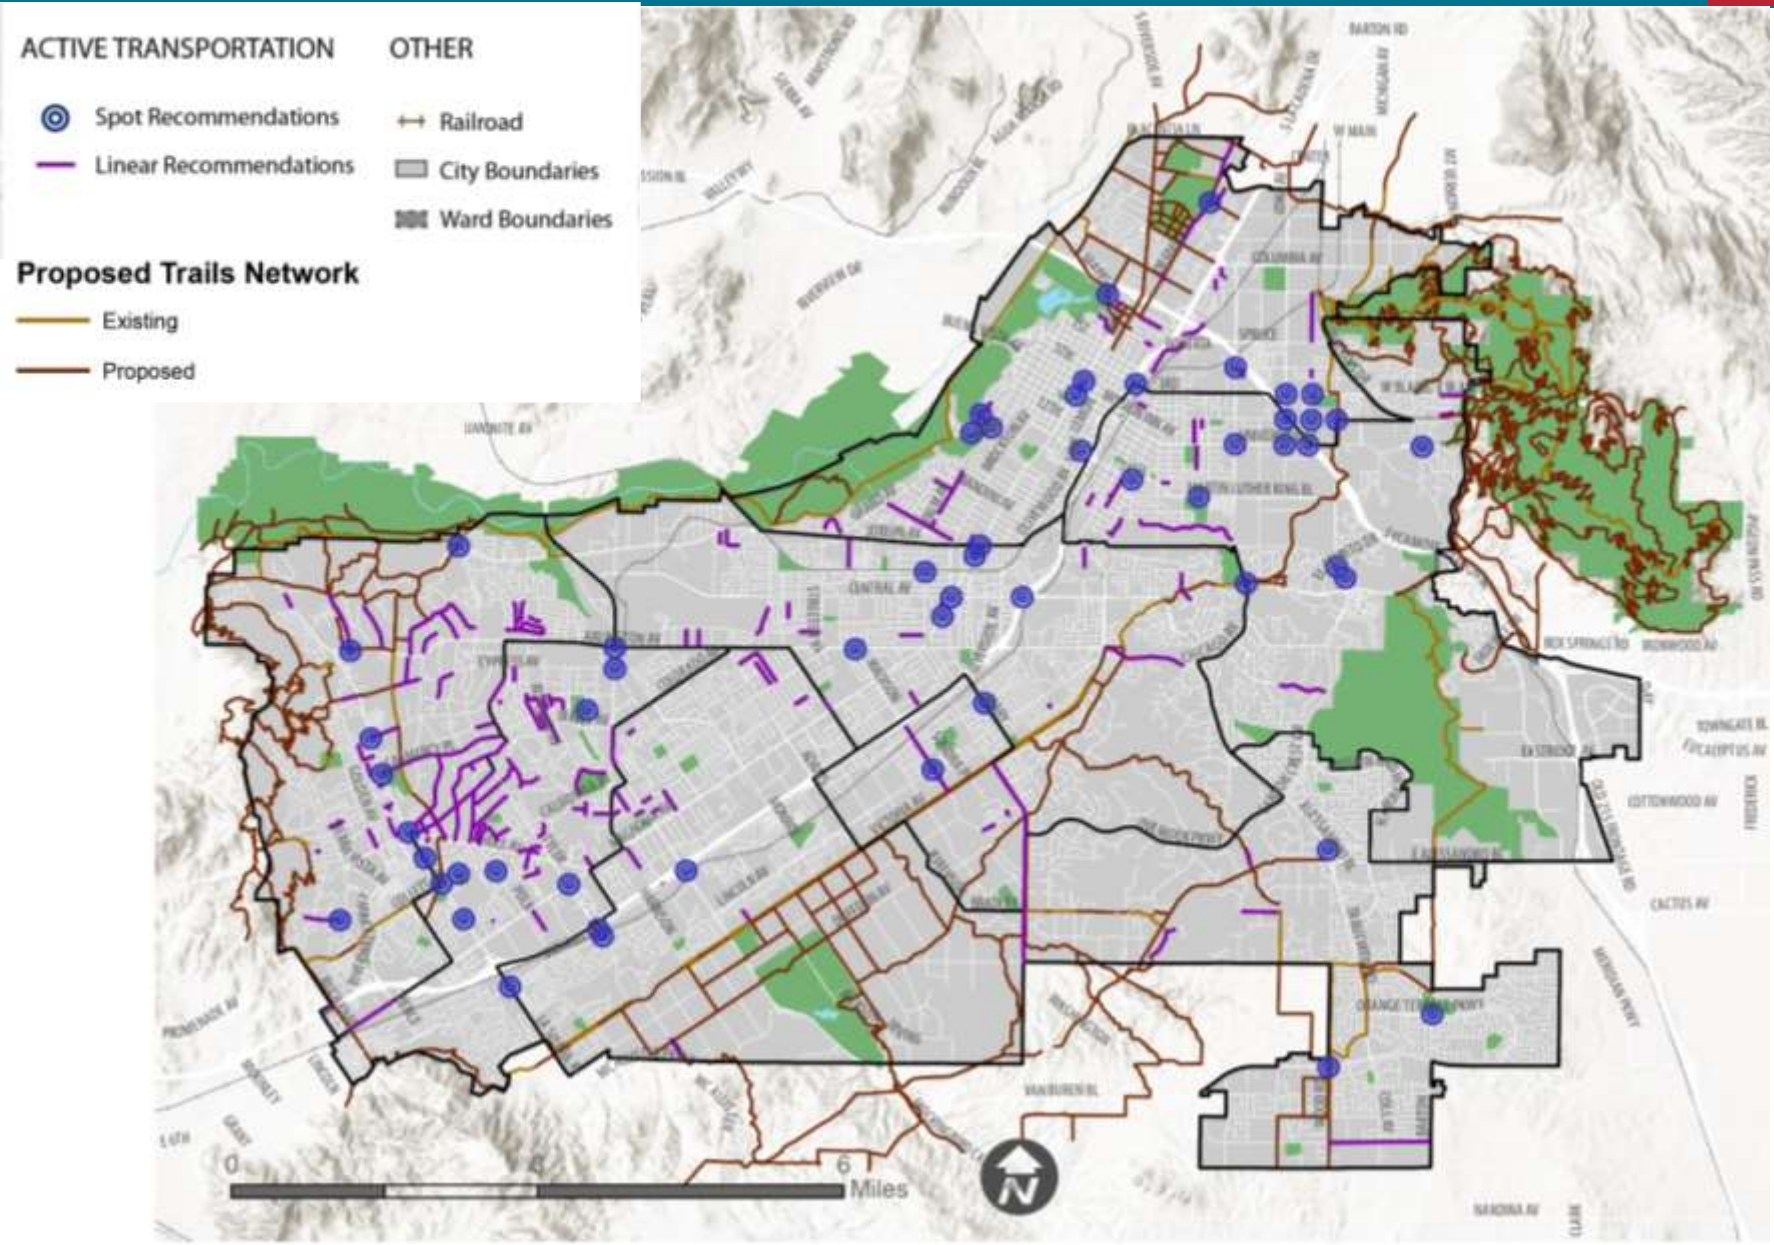

## ACTIVE TRANSPORTATION

## OTHER

-  Spot Recommendations
-  Linear Recommendations
-  Railroad
-  City Boundaries
-  Ward Boundaries

# Draft Pedestrian + Trails Recommendations

# Bikeway Improvements

## Class I – Bike Path

*Santa Ana River Trail*

## Class II – Bike Lane

*California Avenue*

## Class III – Bike Route

*Mission Inn Avenue*

## Class IV – Cycle Track

*University Avenue*

# Draft Bikeway Recommendations

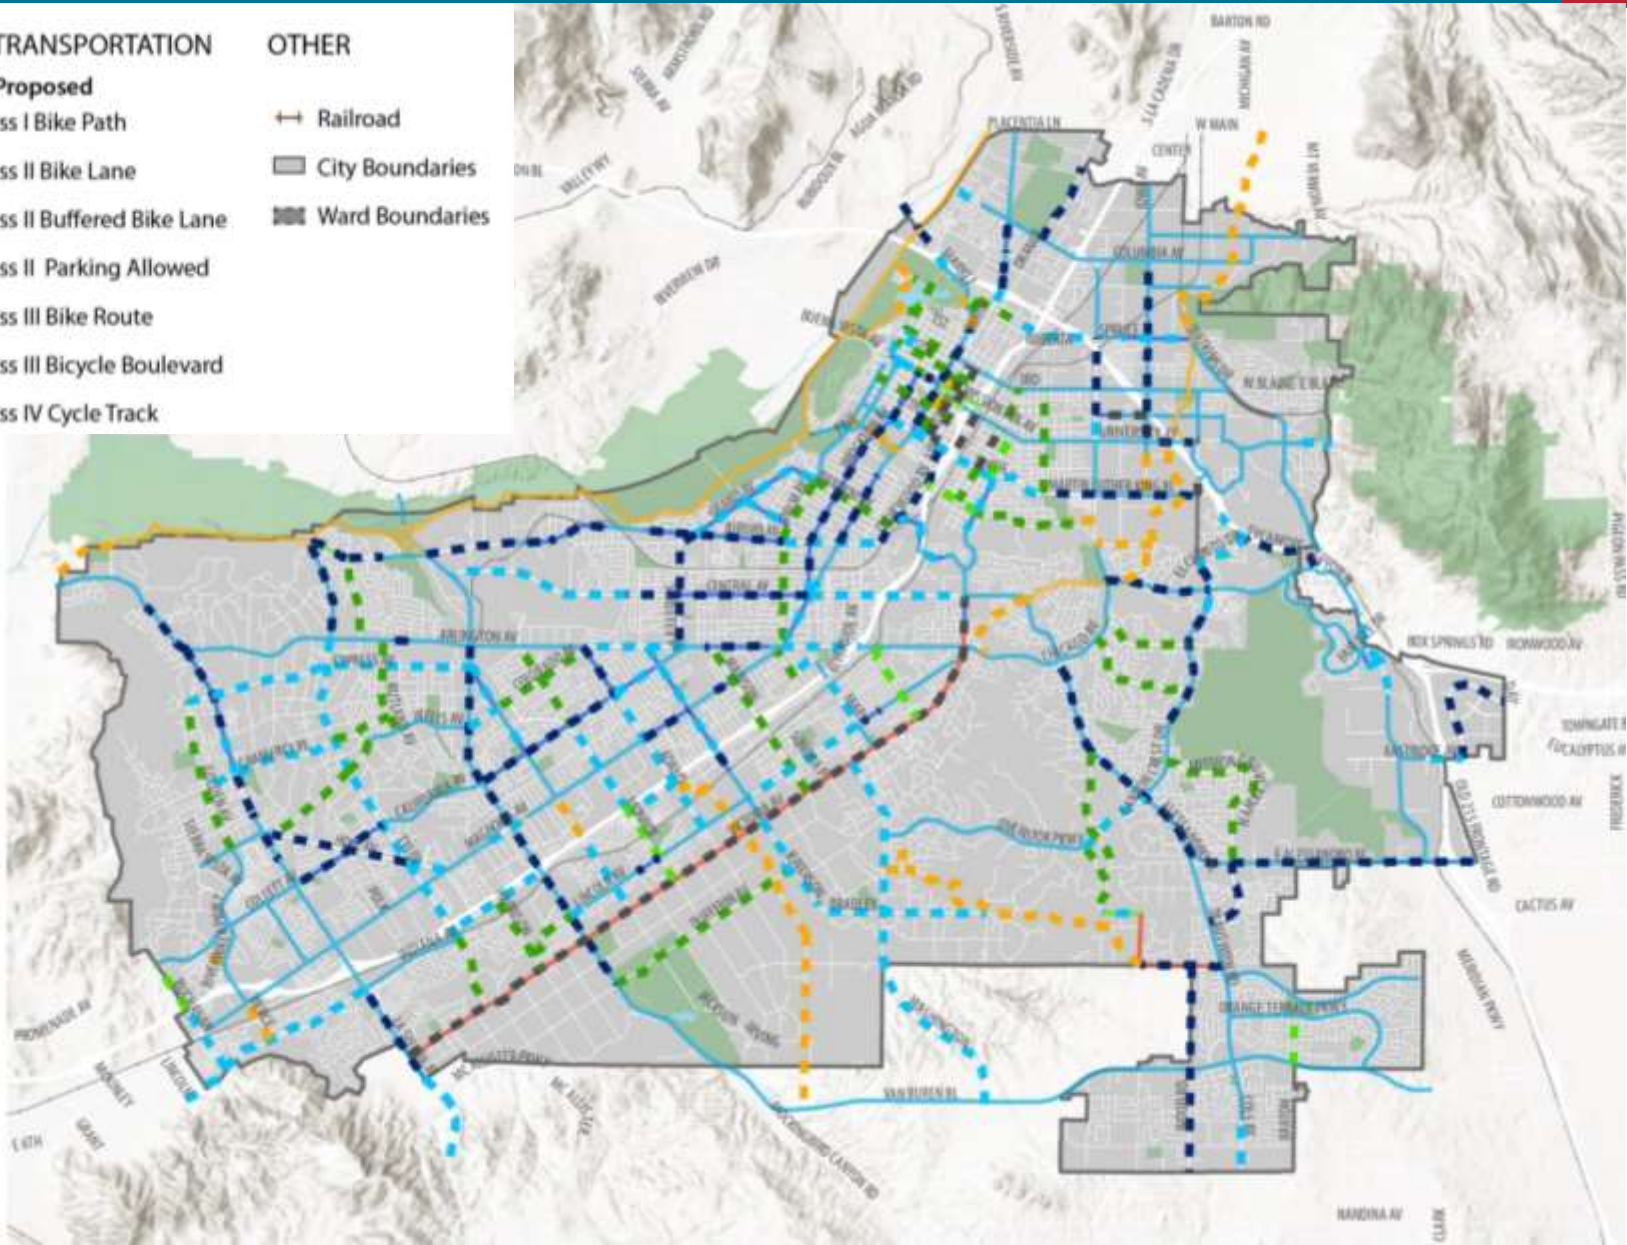

## ACTIVE TRANSPORTATION

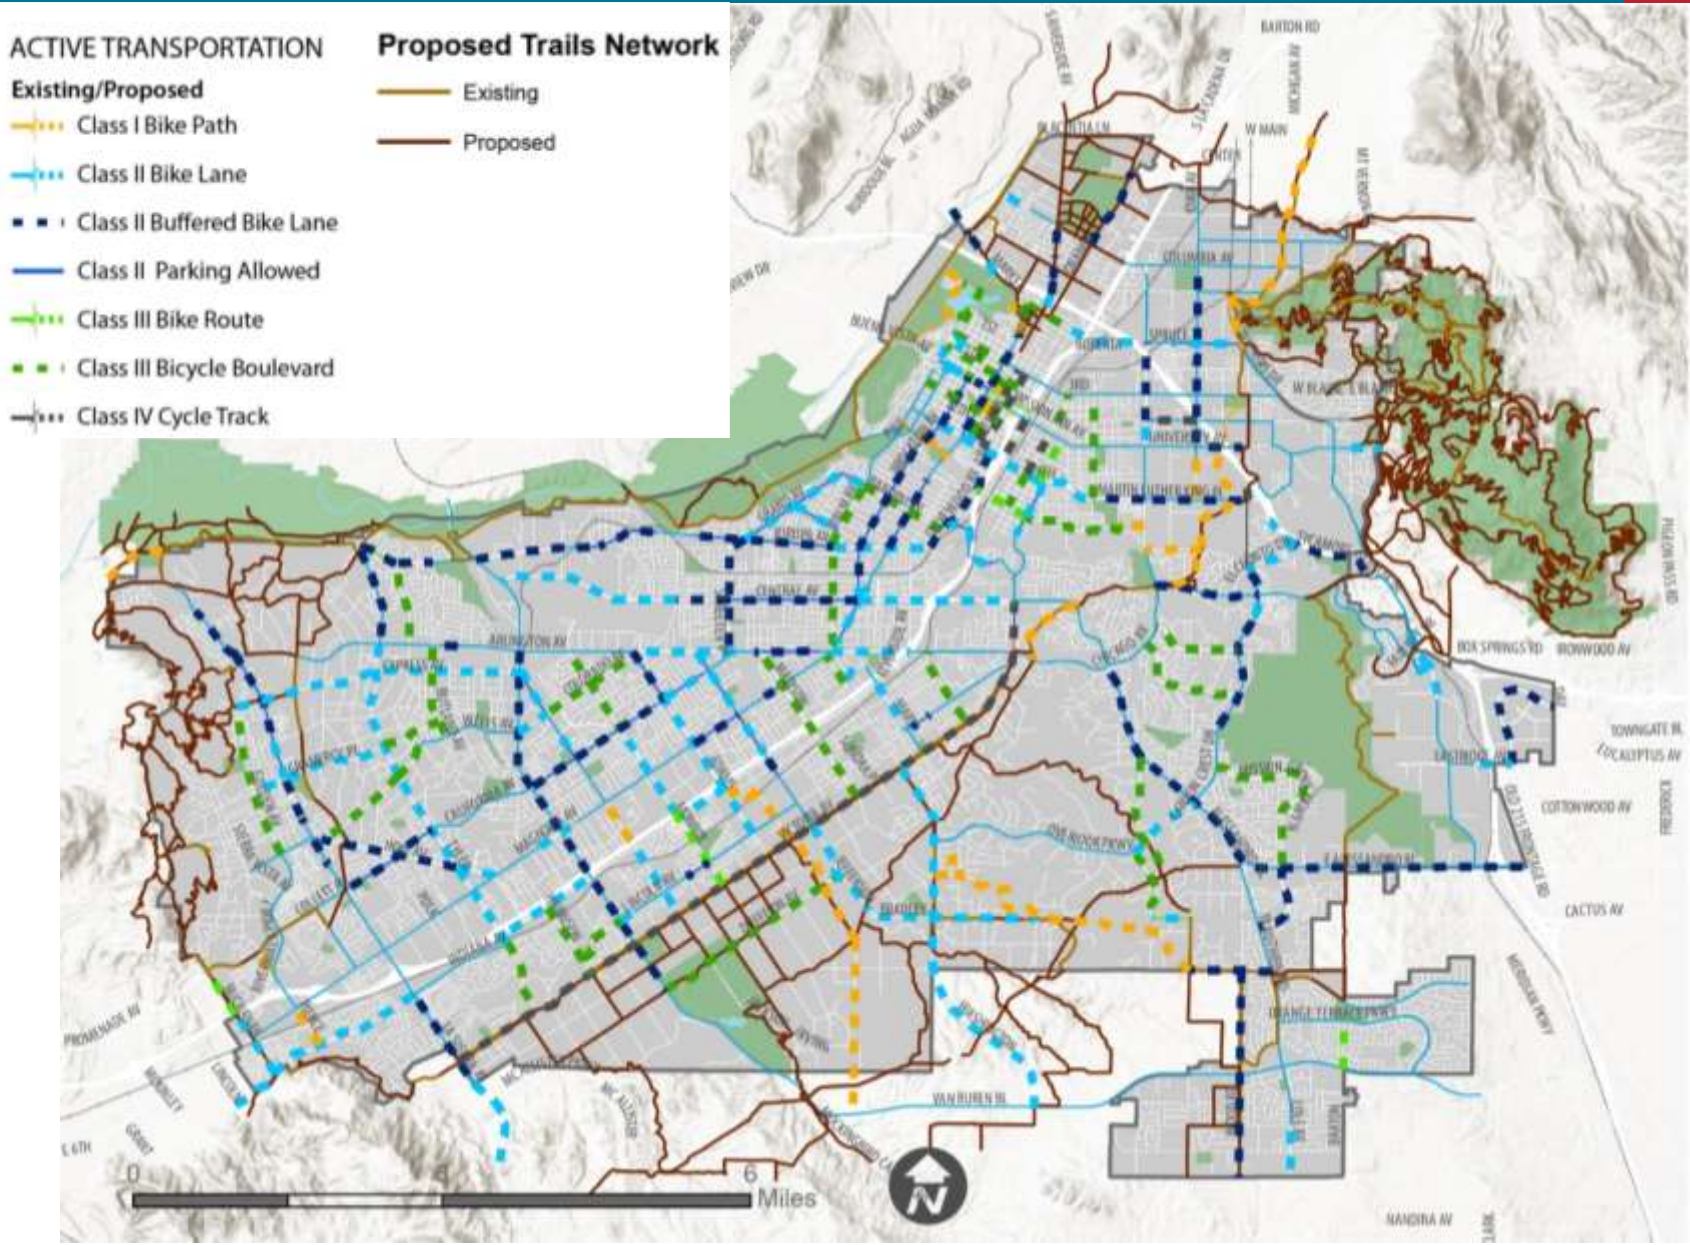

### Existing/Proposed

- Class I Bike Path
- Class II Bike Lane
- Class II Buffered Bike Lane
- Class II Parking Allowed
- Class III Bike Route
- Class III Bicycle Boulevard
- Class IV Cycle Track

## OTHER

- Railroad
- City Boundaries
- Ward Boundaries

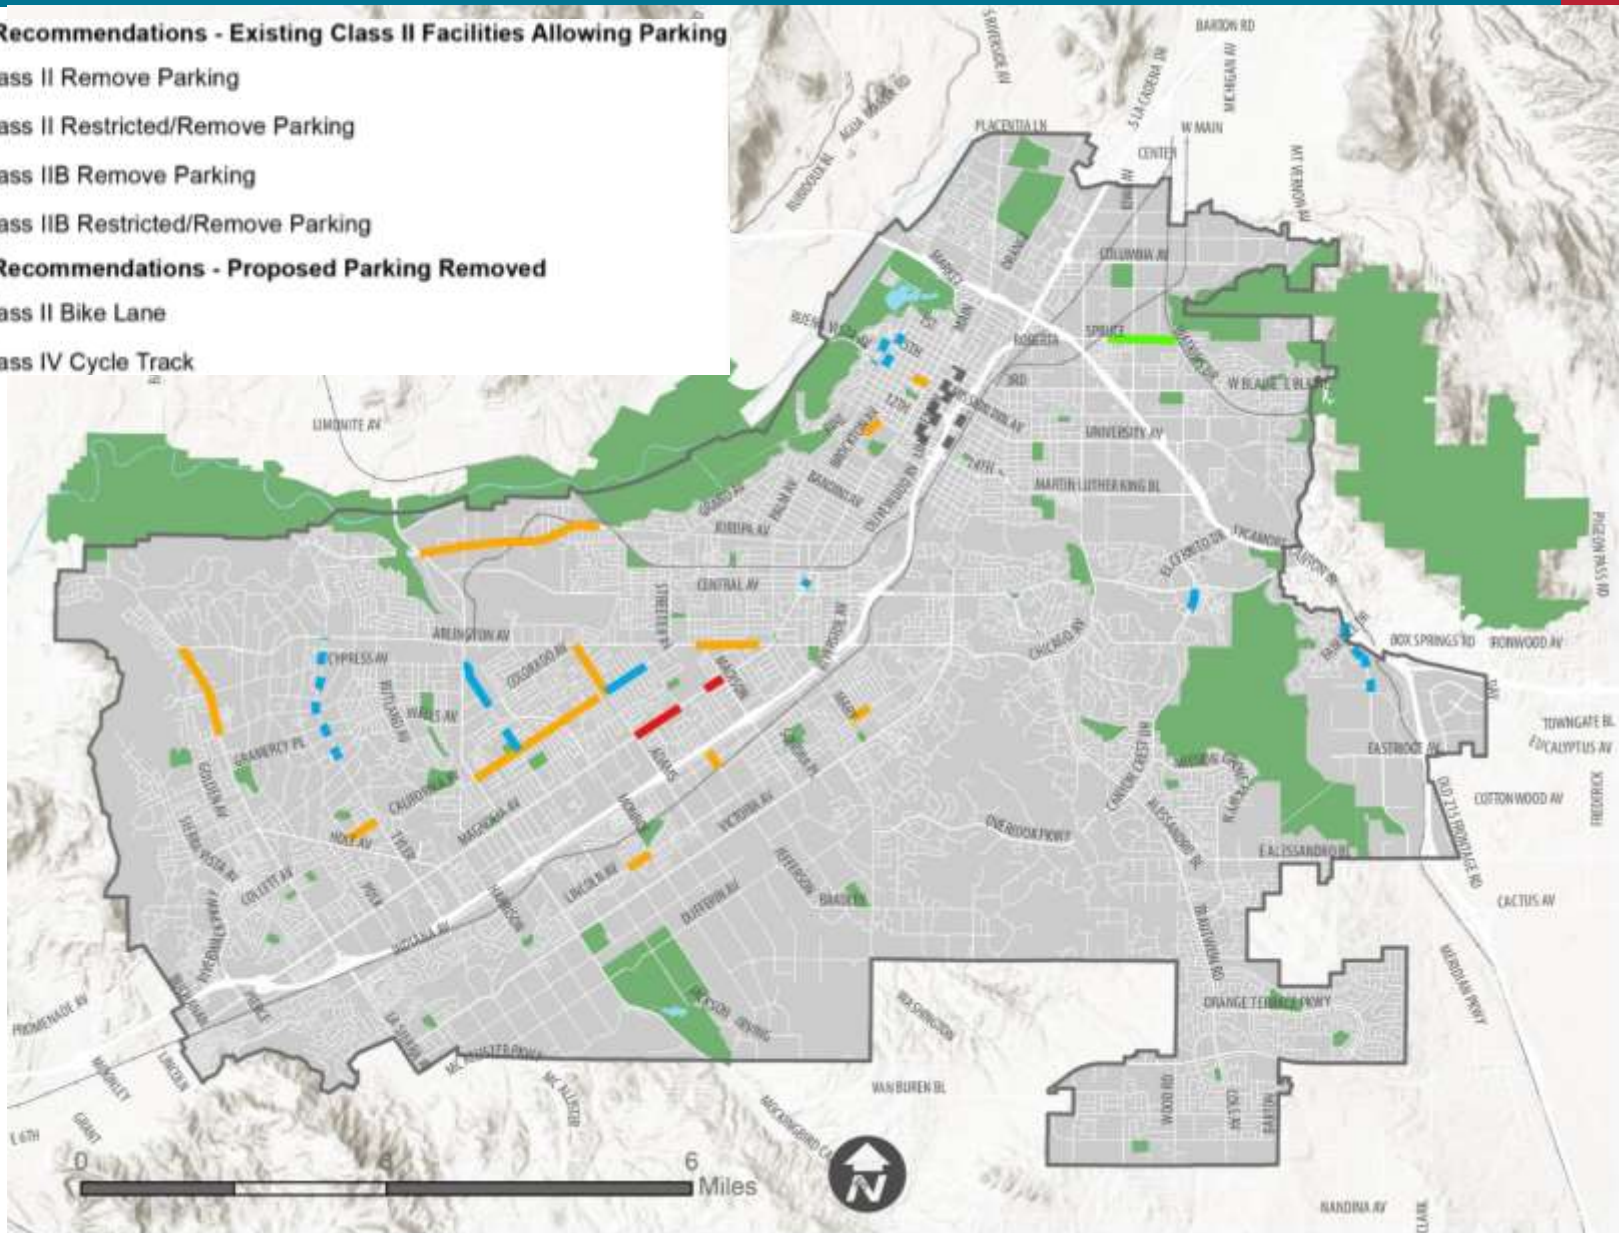

# Parking Removed (Planned/Existing Bikeways)

## Bikeway Recommendations - Existing Class II Facilities Allowing Parking

- Class II Remove Parking
- Class II Restricted/Remove Parking
- Class IIB Remove Parking
- Class IIB Restricted/Remove Parking

## Bikeway Recommendations - Proposed Parking Removed

- - - Class II Bike Lane
- - - Class IV Cycle Track

# Parking Removed due to Planned Bikeways

**Vine St - University Ave to 14<sup>th</sup> St  
(Cycle Track)**

**Sycamore Canyon Blvd – Box Springs  
Blvd to Jameson Ct (Bike Lane)**

**Tyler St – Well Ave to Arlington  
Ave (Bike Lane)**

**Pine St – 3<sup>rd</sup> St to University  
Ave (Bike Lane)**

**Redwood Dr - 3<sup>rd</sup> St to  
University Ave (Bike Lane)**

**Lemon St – 14<sup>th</sup> St to 3<sup>RD</sup> St  
(Cycle Track)**

# Parking Removed due to Planned Bikeways

Orange St – 14<sup>th</sup> St to 3<sup>RD</sup> St (Cycle Track)

# Parking Removed due to Existing Bikeways

**La Sierra Ave – Campbell Ave to  
Arlington Ave (Buffered Bike Lane)**

**Jurupa Ave – Florence St to Van  
Buren Blvd (Buffered Bike Lane)**

**Canyon Crest Dr – Central Ave  
to Via Zapata (Bike Lane)**

**Adams St – Arlington Ave to  
California Ave (Buffered Bike Lane)**

**Brockton Ave – 14<sup>th</sup> St to Tequesquite  
Ave (Buffered Bike Lane)**

**California Ave – Van Buren Blvd to  
Mescale Rd (Buffered Bike Lane)**

# Parking Removed due to Existing Bikeways

**California Ave – Mobley Ave to Tyler St (Buffered Bike Lane)**

**California Ave – Adams to Via San Luis (Bike Lane)**

**Jackson St – Van Buren Blvd to Colorado Ave (Bike Lane)**

**Jackson St – Delano Dr to California Ave (Bike Lane)**

**Jefferson St – Indiana Ave to Evans St (Buffered Bike Lane)**

**Spruce St – Watkins Dr to Atlanta Ave (Bike Lane)**

# Parking Removed due to Existing Bikeways

**Lincoln Ave – Monroe St to Irving St (Buffered Bike Lane)**

**Lincoln Ave – Bautista St to Jane St (Buffered Bike Lane)**

**Magnolia Ave – Adams St to Jefferson St (Buffered Bike Lane)**

**Magnolia Ave – Sunnyside Dr to Beatty Dr (Bike Lane)**

**Magnolia Ave – Madison St to Cortez St (Buffered Bike Lane)**

**Mission Inn Ave – Van Buren Blvd to Brockton Ave (Buffered Bike Lane)**

# Draft Ward 1 Bike Recommendations

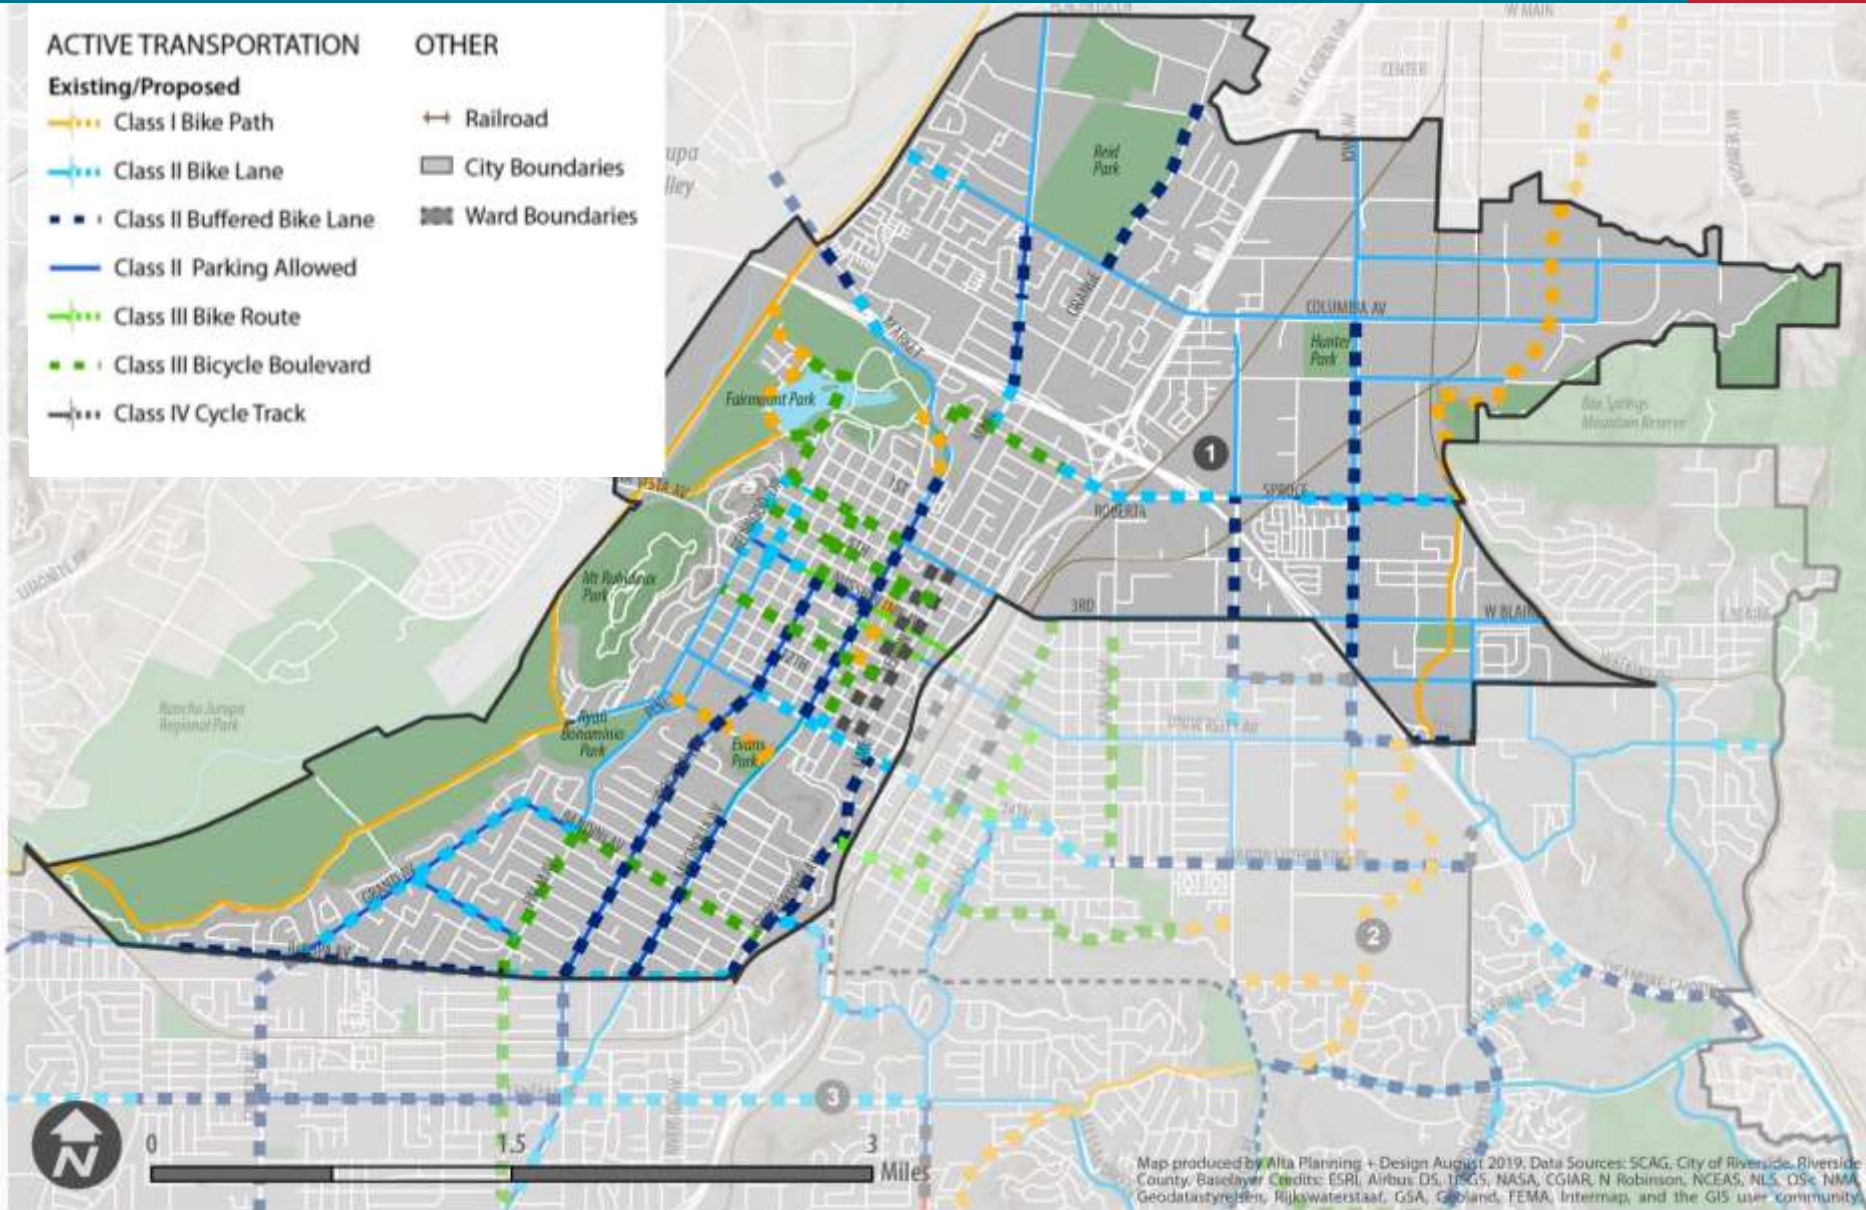

## ACTIVE TRANSPORTATION

### Existing/Proposed

-  Class I Bike Path
-  Class II Bike Lane
-  Class II Buffered Bike Lane
-  Class II Parking Allowed
-  Class III Bike Route
-  Class III Bicycle Boulevard
-  Class IV Cycle Track

## ACTIVE TRANSPORTATION

### Existing/Proposed

-  Class I Bike Path
-  Class II Bike Lane
-  Class II Buffered Bike Lane
-  Class II Parking Allowed
-  Class III Bike Route
-  Class III Bicycle Boulevard
-  Class IV Cycle Track

## Proposed Trails Network

-  Existing
-  Proposed

# NEXT STEPS

1. Review feedback from today's meeting
2. Post recording to the project website
3. Update the draft recommendations
4. Share the Active Transportation Draft Plan
