

Introducing: Pearson’s Perspective Quick Guide for Educators

What is Perspective™?

Perspective™ is a supplemental online instructional resource site that provides thousands of enrichment learning resources to help teachers and families improve their students’ performance. All of the supplemental resources are aligned to the Indiana Academic Standards to ensure students have access to materials that support their curriculum. Educators can use simple navigation in Perspective to create assignments and personalize instruction and remediation to each student’s specific needs. Families can use the Learning Locator to access personalized learning for students based on their individual state test scores.

How can I access Perspective™?

Step 1: Have your Indiana Pass Phrase Ready

The pass Phrase for Indiana is **Indiana_edu**.

You will need this Indiana Pass Phrase to create an account. The Perspective website can be accessed at indiana.pearsonperspective.com through a standard desktop, laptop, tablet, or smart phone browser. From the home page, you will first create an account by selecting the **[Sign Up]** button on the right-hand side.
