

THE KHIE CONNECTION

Volume 2, Issue 1

November 2014

Welcome to the Kentucky Health Information
Exchange Newsletter!

Special Points of Interest

As of November 10, 2014:

- ⇒ KHIE has 672 signed participation agreements (representing 2,542 locations)
- ⇒ A total of 1,025 provider locations, are submitting live data and exchanging information (see Page 5 for more details)
- ⇒ 80% of acute care hospitals in KY are live on KHIE
- ⇒ \$173,908,423.49 has been paid to Medicaid hospitals and providers in KY, through the KY Medicaid EHR Incentive Program
- ⇒ \$260,759,117.74 has been paid to Medicare hospitals and providers in KY through the EHR Incentive Program, June 2014
- ⇒ KHIE averages over 250,000 queries per week

Welcome to the Kentucky Health Information Exchange monthly newsletter! Here you will find valuable information about KHIE. KHIE is situated in the Cabinet for Health and Family Services and works with providers across the Commonwealth to build a state-wide health information highway where providers can access critical patient health information from various points of care. The strategic goals of KHIE are to: promote and increase the adoption and use of health information technology and health information exchange within and across state borders and the nation. KHIE also assists with and facilitates state-wide meaningful use initiatives and provides governance and oversight to the statewide health information exchange.

A MESSAGE FROM THE STATE HEALTH IT COORDINATOR **POLLY MULLINS-BENTLEY**

Greetings from the Kentucky Health Information Exchange! This month, I would like to spend some time reflecting on the HIE and its progress. Though we have come a long way since our inception, we have a ways to go toward enhancing our service lines and building out a value-based HIE ultimately to improve overall health, retain costs, and improve care for patients at the point of care. I would also like to express my thanks during the month of Thanksgiving, to our participant's across the state. Your efforts toward building out the HIE, working on Meaningful Use initiatives and enhancing statewide interoperability have not gone unnoticed—we thank you for your diligence. I also want to spend some time thanking the folks on my team that help build out the HIE. Without these individuals we would cease to operate—I thank you for your hard work and perseverance.

I encourage each of you to continue your efforts and ask that you work toward envisioning a robust health IT landscape in the state of Kentucky, with patient-centered care at the forefront. Thank you again for your concerted goals of advancing HIT initiatives across the state. Have a wonderful Thanksgiving and month of November! To view staff photos of our Halloween party, please refer to page 6!

Sincerely,

Polly

Polly Mullins-Bentley, RN, RHIT, CPHQ

ELIGIBLE HOSPITALS: MEETING MEANINGFUL USE IN 2015 WITH 2014 EDITION CERTIFIED EHR TECHNOLOGY (CEHRT)

The 2015 program year for the EHR Incentive Programs begins on October 1, 2014 for eligible hospitals. Medicare eligible hospitals beyond their first year of participation have a 365-day EHR reporting period.

All eligible hospitals are required to have 2014 Edition certified EHR technology (CEHRT) to be able to successfully participate in 2015. Some hospital objectives require that 2014 Edition CEHRT be in place for the entire reporting year, while others may only need to be in place for part of the year.

Objectives Requiring CEHRT Functionality for the Full Year

Objectives that require 2014 Edition CEHRT be in place for the entire reporting year:

1. Stage 1 Drug-Drug / Drug-Allergy Interaction Checks
2. Stage 2 Clinical Decision Support for Drug-Drug / Drug-Allergy

Please note: interruption during the reporting period is allowed for reasons such as system maintenance.

Public Health Objectives Flexibility

Some objectives require a test for the first demonstration, and then require ongoing submission. These objectives give eligible hospitals 60 days from the start of the reporting period to allow time for things like successfully registering, onboarding with the registry, and submitting a test. This inherently provides some flexibility for getting their 2014 Edition CEHRT in place later and submit ongoing from that point forward:

1. Stage 1 and Stage 2 Immunization Registries Data Submission
2. Stage 1 and Stage 2 Electronic Reportable Lab Results
3. Stage 1 and Stage 2 Syndromic Surveillance Data Submission

This flexibility is only allowed if it complies with local and state laws. Some states may require retro-active submission of the data from the beginning of the year if there is a delay in implementation.

Threshold Objectives Flexibility

For all of the threshold objectives (those with a numerator and denominator), the eligible hospital must meet the threshold to meet the measure(s) and objective. Eligible hospitals may not need to have 2014 Edition CEHRT in place for the full year to be able to meet the threshold for these objectives.

If the eligible hospital meets the threshold during the reporting period, it meets the measure whether or not the function was in place for the full year.

For More Information

To learn more about the requirements for each objective, review the Stage 1 and Stage 2 specification sheets. Visit the EHR website for more program information and resources.

KENTUCKY MEDICAID EHR INCENTIVE PROGRAM

POINTERS OF THE MONTH

DEADLINES:

Eligible Hospitals (EHs) and Critical Access Hospitals (CAHs) must submit their attestations for Program Year 2014 for the Kentucky Medicaid EHR Incentive Program by 11:59 pm on December 31, 2014.

Eligible Professionals (EPs) must have their attestations for Program Year 2014 submitted prior to 11:59 pm March 31, 2015.

The last day to submit Hardship Exception applications for 2015 Medicare Payment Adjustment is November 30, 2014.

ELIGIBLE HOSPITALS AND CRITICAL ACCESS HOSPITALS:

The 2015 program year for the EHR Incentive Programs began on October 1, 2014 for EHs and CAHs. Medicare EHs and CAHs beyond their first year of participation have a 365-day EHR reporting period.

All EHs and CAHs are required to have 2014 Edition certified EHR technology (CEHRT) to be able to successfully participate in 2015. Some hospital objectives require that 2014 Edition CEHRT be in place for the entire reporting year, while others may only need to be in place for part of the year. Find out more on [Meeting Meaningful Use in 2015 with 2014 Edition CEHRT](#).

ELIGIBLE PROVIDERS:

Any EP who is currently under review for a Program Year 2013 attestation should contact the EHR Incentive Program office at 502-564-0105 extension 2480 or Incentives@ky.gov as soon as possible to avoid possible rejection.

CONTACT:

- There are several methods to contact us. On the left-hand navigation menu on the attestation website you can select to submit an issue/concern or you can click the Send E-mail function.
- Please visit the KY Medicaid EHR Incentive Website at <http://chfs.ky.gov/dms/EHR.htm> for information and educational resources.

NEW! LIVE CONNECTIONS

STATEWIDE HEALTH INFORMATION EXCHANGE

The KHIE continues to build its robust health information exchange and currently has a total of 1,025 provider locations submitting live data and actively exchanging information. To see KHIE's footprint across the Commonwealth, please see the map below.

NEW LIVE CONNECTIONS
