You can see how your government is spending your money. Use the city's search engine to search for "transparency." The first page returned lets you see how the city spends its money, where it gets its money, search city expenditures & vendors, see employee salaries, put in an open records request and much more.

Want to attend a city planning or council meeting but don't know when they happen? The fastest way to find a board of zoning or planning meeting is to use the website's search engine and enter search terms such as planning meetings or BOZA. **In fact, the search engine is the fastest way to find much of what you are looking for.** And of course, the Metro Council website has a number of resources for you to look up existing local laws, speak at a meeting, see agendas, find popular ordinances, find events in your district and follow all of the work of the council.

Stay Informed – The city's site has a new digital subscription service called GovDelivery that allows you to subscribe to over 100 different e-news topics via email or text. Just look for the red envelope on the city's homepage.

And just below that, the CodeRED logo allows you to sign up for emergency alerts from the city, including severe weather alerts.
