The only trend that sticks out is at the bottom; theft of license plates! There are any number of reasons someone may steal a license plate (or the little registration decal). The very last entry involves someone stealing a purse left unattended. PLEASE DO NOT EVER LEAVE YOUR PURSE IN A SHOPPING CART. There are professional thieves who spend hours in shopping centers looking for potential (easy) targets. You also see a broken window and a purse taken as well as a GPS stolen. A piece of glass will not stop a thief from a potential "HIGH VALUE" target.
