

Burglaries are down this week, fortunately 7th Division detectives have a couple suspects named in almost half of them. As with most burglaries, either the side or rear door or a garage door is the primary point of forced entry. Re-enforcing these doors can go a long way. Please contact me if you have any questions.

BURGLARY 2nd	5406	HEAFER FARM LN	2/3/13	0400	2/3/13	1200	735	SUSP, friend took money, CC and shotgun from location.

BURGLARY 2nd	9928	THIXTON LN	2/7/13	0720	2/7/13	1606	712	Attempt, unk tried to open garage door.

We are at 100% on all thefts from automobiles. The “unknown method of entry” is almost always “unlocked”. Thieves do not typically use “slim-jims” or other devices to gain entry when they see a high-valued target in a locked vehicle, they simply smash and grab. Whereas most of the burglaries occurred on beat 3, most of the thefts from UNLOCKED automobiles occurred on Beat 4.

If you are unsure which beat you are on, we are going to clarify that very soon and you are going to get more one-on-one communications with our office! We are in the process of mapping your specific area; this is part of our new initiative which we will cover at the annual meeting next month.
