Summary:

Thefts from automobiles involve individuals having their person stolen. It is important to remember that not only a purse, pocket book or wallet is taken, but your IDENTITY may also be taken and used and this could cost you thousands of dollars to recover from. Please do not EVER, even for a brief moment, leave items with personal information unattended in a car, in a shopping cart or anywhere else.

Burglaries involve the same "M.O.", going through the backdoor by force. This is one are you can reinforce with some basic crime prevention steps. Contact us if you have any questions.
