Attention:

With the holiday season coming the 6th division would like to offer you some crime prevention tips for Auto Thefts and Thefts from Auto's. In an effort to assist us in combating these crimes of opportunity, we ask that you review the listed crime prevention tips. Although these tips cannot guarantee that you will not become a victim of a crime, they may greatly decrease your chances dramatically.

- Make sure that all vehicle windows and doors are properly secured.*
- Do not leave your vehicle running unattended. Not only does this invite thieves, but it is a violation of the law and you may be cited or fined.*
- Look out for your neighbor's vehicles.*
- Invest in and use an anti-theft device or audible car alarm.*
- Park in your garage if possible or in a well lit area.*
- Keep valuables and packages out of plain view. Purses, wallets, cell phones, guns, and GPS systems are a prime target and should not be kept in your vehicle. If you must keep items in your vehicle remember to "put your junk in your trunk".*
- Do not hide a key in your car or under the hood*
- If you have a detachable face plate stereo, please remove it when you exit your vehicle.*
- Keep serial/model numbers of any aftermarket audio equipment that you purchase*
- Notify the police if you notice suspicious activity. Especially subjects whom may be loitering near vehicles.*

Attention:

Your home is a place of comfort and sanctuary. When your home is violated by a criminal, it can be a very traumatic experience. Here are a few simple tips that may help you prevent becoming a victim.

Things to remember:

- *When leaving home, make sure that all doors and windows are locked – including the garage door.*
- *Do not keep items of value easily visible through your windows.*
- *Do not keep garage door openers in unoccupied cars outside of your residence.*
- *If you see suspicious cars or people, take down their description and license plate numbers. If a crime has been committed this can help the police solve the crime. You are the best person to know if something is out of place.*
- *There is safety in numbers. Get to know your neighbors. Watch out for them and have them do the same for you.*
- *Check the locks on your doors and windows. If possible, install a deadbolt lock on your doors. Make it as difficult as possible for the criminal to get inside.*
- *If you are outside of your home, even when doing yard work keep your home secure. Burglars are often in and out of a home in a few minutes.*
- *Check and install adequate lighting around your home. This will improve both your home's security as well as your personal safety.*
- *Trim bushes and trees away from windows. Burglars may use these as a hiding spot while they break into your home.*
- *Be cautious of allowing strangers into your home. If they say they are with an organization, ask for identification from their employer.*
- *Do not keep hidden keys around the outside of your home. Many of these hiding spaces are common and criminals know where to look.*
- *Do not carry valuable items into your home in plain view. Do not leave boxes or packaging outside. You never know who might be watching.*
- *If you are going on vacation, be cautious who you tell your plans to. Do not leave a message on your answering machine advertising your absence to criminals. If you are going to be gone overnight leave a light on. Timers work well to turn lights on and off. Have a trusted neighbor watch your home for you.*
- *Keep photographs of valuable property such as jewelry for later identification and to aid you in your inventory.*
- *Mark your property with a personalized identification number unique to you. This can aid in the recovery of your property.*

Notations: For additional information concerning Neighborhood Watch, personal safety and crime prevention, contact District Resource Officer _____ at _____

Or 574-LMPD

(This survey is for your own private use only)

CRIME PREVENTION TIPS

- House Numbers: House numbers should be visible day or night from the front and back. In rural areas, name and number should be displayed on the mailbox. This is important for the police officer or EMS unit responding to a complaint at your home. Be conscious of **Louisville Metro Ordinance § 156.053**.
- Property Identification: Engrave all valuable property with a readily identifiable name or number of your choosing, starting with KY. Take recorded pictures of all valuables in your home and record all serial numbers. Keep this information in a safe place (other than at home), such as in a safe deposit box, or with a friend or relative.
- Neighborhood Watch Program: If your neighborhood does not currently have a neighborhood watch program, please contact your local police division and ask for a District Resource Officer. They would be eager to assist you.
- Locks and Keys: An unlocked lock is not a lock! Habitually locking your home, closing and locking Garage doors when away or at night is something everyone needs to do, even When working in the yard. You should re-key door locks whenever you move into an apartment or house. Re-keying locks is relatively inexpensive. Hiding a key outside your house is NOT a good idea and should always be avoided.
- Shrubbery: Are the doors and windows of you house hidden by shrubbery? If so, trim the shrubs so the burglar is denied the opportunity to hide behind them.
- Lighting: External security lighting is important, as well as interior lights. Exclusive use of Lighting when the home is unoccupied might actually tip off the burglar. It is smart to use interior lights on a timer whenever you are going to be away from home at night. Motion detectors or dusk-to-dawn lights may be considered. Leaving a radio or TV on my give the appearance someone is home.
- Admitting Strangers: Do NOT let a stranger into your home until you are satisfied that you know who they are and what the purpose of their visit is. Identification of salespeople, public utilities workers, repairmen, plainclothes police officers, and stranded strangers should always be required before opening the door. A wide-angle view (190 degrees) door viewer is an absolute must if visibility of callers is not possible. Partially opening the door with a door chain should be discouraged.
- Vacation Plans: Make planning your security a part of you vacation plans.
Secure your home and leave some lights on a timer.
Leave a key with a trusted neighbor.
Make arrangements to have your lawn mowed.
Stop mail and newspaper delivery.
Contact the police department and ask for a house watch.
Ask a neighbor to park their car in your drive while you are gone.
- Smoke Detector: Make sure that your smoke detector is working properly. Check the batteries regularly.
- Burglar Alarms: Alarms are an excellent tool for protecting your home, but they need to be serviced and tested periodically. Learn about the LMPD Alarm Program. Be conscious of **Louisville metro False Alarm Ordinance § 127.14**
- Firearms: If you keep a firearm in your home, please store and handle it properly. Never leave a loaded firearm where a child can find it. Use a trigger lock to prevent a tragedy.
