DISPARITY STUDY PUBLIC MEETING NOTICE

Business owners are invited to provide comments about their experiences doing business or attempting to do business with Prince George's County (County). The primary objective is to assess, quantify, and evaluate the prevalence, magnitude, and extent of marketplace discrimination, if any, against minority, and women business enterprises (M/WBE), and County-Based business enterprises (CBBE). Your participation is critical to address potential modifications to the County's current M/W/CBBE programs. The Disparity Study will examine the procurement of construction, services, and products; the subcontracting practices of prime contractors/service providers who do business with the County and in the private sector. For more information on the disparity study's objectives and tasks visit www.princegeorgescountydisparity.com.
