Michigan Department of Community Health
ANNOUNCES
ICD-10 B2B TESTING
For ALL Michigan Medicaid Providers

The Michigan Department of Community Health (MDCH) announces availability of the ICD-10 compliant CHAMPS B2B Test system as part of Michigan's preparation for national implementation of ICD-10 Code Set usage on October 1, 2014. This testing enables the Michigan Medicaid provider community to pursue CMS' Level II Compliance, to ensure: "an entity covered by HIPAA has completed end-to-end testing with each of its external trading partners and is prepared to move into production mode with the new versions of the standards by the end of that period" (CMS ICD-10 Implementation Guide).

All Providers are encouraged to test, in the same manner currently used to submit production CHAMPS transactions. Please review the following information with your transaction submission team, ensure HIPAA test transactions are appropriately identified as "Test", and verify you are working in the test environment when submitting ICD-10 coded claims or encounters.

CHAMPS ICD-10 B2B Testing

Providers are asked to test claim adjudication using the *CHAMPS ICD-10 B2B Test* environment (an ICD-10 compliant version of CHAMPS). Providers may test as follows:

1) Providers who submit Medicaid claims through a clearinghouse or Billing Agent should coordinate their ICD-10 testing with that organization. Additional information for the clearinghouse or Billing Agent is available in the MDCH Electronic Submissions Manual, available on the MDCH website under Providers (www.michigan.gov/Trading Partners/ >> HIPAA - Companion Guides >> Electronic Submissions Manual).

2) Providers who currently submit claims using Michigan's SSO logon may also use SSO to access the *CHAMPS - ICD10 Parallel/B2B Test* system, retrieve a portion of their historical transactions, insert ICD-10 codes with new service dates, and re-submit them as test ICD-10 transactions within the B2B Test system:

a) Providers may access the B2B Test system from their regular SSO login by requesting a new *CHAMPS - ICD10 Parallel/B2B Test* application. Once the automatic approval is received, claims and inquiry transactions may be entered into the B2B Test system in the same manner as in the production CHAMPS system.

b) Test transactions only process in the B2B Test system and will not post as regular patient claims. A banner will be displayed as a caution that you are using the test system.

c) Please refer to the "CHAMPS ICD10 B2B SSO Portal - Test Claim Adjustment Instructions - ICD9 to ICD10" document, available on the MDCH ICD-10 webpage (www.michigan.gov/Trading Partners/ >> HIPAA - ICD-10 >> Testing >> within the Business-to-Business (B2B) Testing section).

Test System Is Available Now

Please visit: www.michigan.gov/Trading Partners/ >> HIPAA - ICD-10 for further information about ICD-10 and test techniques available from MDCH.

If you receive this message and are not the ICD-10 contact in your organization please forward to the appropriate person, and reply to us with that person's name and email address.

We look forward to working with you to implement the ICD-10 Code Set on October 1st, 2014!
