

# GREEN LABS WORKSHOP

REDUCE LAB ENERGY COSTS BY UP TO 50%

GREEN LABS WORKSHOP  
MONDAY, MAY 11  
12 PM TO 4:30 PM  
MSU SECCHIA CENTER  
DOWNTOWN GRAND RAPIDS  
\$15

[WMSBF.ORG/GREENLABS](http://WMSBF.ORG/GREENLABS)

The final workshop of the Michigan Green Labs Initiative and the launch of the West Michigan Green Labs Pilot, participants will learn how green lab programs promote green practices and environmentally-friendly, sustainable technology in laboratories that have been proven to reduce energy use by 30 to 50 percent.

Learn best practices in waste reduction, energy and water efficiency, green chemistry and environmental safety that will make your laboratory operations safer, more sustainable and cost-efficient.

Case studies will feature examples from research, product testing, and health care relevant to manufacturers, municipalities, environmental consultants, chemical engineers, educators and other operators of academic or commercial labs.

### **Speakers include:**

Daniel L. Doyle, Chairman, Grumman/Butkus Associates and Director, I2SL  
Eric Saigeon, Sustainability Manager, USA & Canada, Intertek  
Sudhakar G. Reddy, Sustainable Labs Coordinator, University of Michigan  
Clinton S. Boyd, Principal, Green Chemistry & Sustainability, Steelcase Inc.

*Catered lunch and parking included. RSVP at [wmsbf.org/greenlabs](http://wmsbf.org/greenlabs).*
