Job Description: Oversees, monitors and coordinates manufacturing team activities, giving importance to individuals members' and overall team achievement in achieving policy deployment objectives. Ensures teams' goals are aligned with and represent the company's objectives. Works proactively in addressing potential issues and applies real-time problem solving skills when working towards resolution.

Supervision and Employee Development

Responsible for maintaining the "people capability" to meet established goals. This involves hiring, training, communication, goal setting, and reinforcement through recognition and discipline.

Customer Satisfaction (Quality and Delivery)

Ensures the highest attainment of customer delivery performance. Ensures capacity and materials availability to guarantee on-time hardware delivery.

Technical

Ensure that production operators have the work instructions, processes, equipment, tooling, and tools to meet unit goals. This requires process and product knowledge, communication, and problem solving.

Plant Safety

The supervisor is responsible for knowledge of plant safety to ensure a safe work environment.

Materials Management

Responsible for meeting service level goals for the department. This requires shop floor scheduling, capacity management, and purchasing/materials availability.

Financials

Responsible for establishing and managing the work unit budget and providing input to capital budgets.

Experience/Qualifications Minimum of 2 years experience in manufacturing/operations supervising
