Inactive Hazardous Waste Disposal Site Delist Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (Department) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (the "Registry"). The Department has determined that this site (see map on reverse side) no longer presents a threat to public health or the environment and is proposing to delist the site from the Registry for the following reason(s):

Hazardous waste disposal at this site was addressed by implementation of the selected remedy identified in the Record of Decision (ROD). The excavation activities were completed in 2001. The Remedial Action Completion Report (RACR) confirms that the remedy has been constructed consistent with the requirements in the ROD. Management of contamination remaining at the site, including any required monitoring, was completed in 2004. Institutional controls were not required to ensure the protectiveness of the site. A significant threat to public health and the environment no longer exists at the site. The site is properly remediated.

Public comments are being received before the decision to remove the site from the Registry is finalized. The public comment period will end January 20, 2014. If you would like to provide us with written comments, please send them to: Brian Jankauskas, Project Manager, NYS Department of Environmental Conservation, Division of Environmental Remediation, Remedial Bureau A, 625 Broadway, Albany, NY, 12233-7015; bfjankau@gw.dec.state.ny.us or to submit by phone, call 518-402-9626.

A summary of any comments will be assembled and made available for viewing at our Regional Office, SUNY at Stony Brook, 50 Circle Road, Stony Brook, NY 11790.

If we do not receive any new or additional information during this public comment period that changes our delist proposal, we will delist the site on or after February 19, 2014.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed above.
