

CENSUS REPORTER

Free Webinar

Learn How to Access U.S. Census Bureau Statistics Using this Online Tool

The U.S. Census and the Knight Labs will be conducting a free webinar on how to access to the most up-to-date demographic, socioeconomic, and housing statistics from the American Community Survey using the free web application Census Reporter at censusreporter.org

What is Census Reporter?

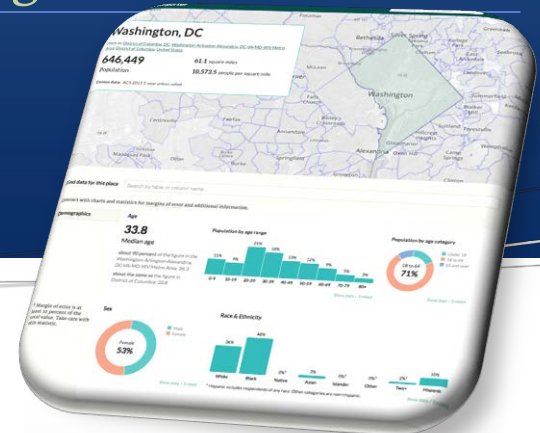

Census Reporter is a Knight News Challenge-funded project to make it easier for journalists and other data users to write stories and grants using statistics from the U.S. Census Bureau. Place profiles and comparison pages provide a friendly interface for navigating data, including visualizations for a more useful first look. Census Reporter also offers handy tools for data comparison and makes it easy to create exports for further analysis in tabular or GIS formats.
