### From Coverage to Care – Using Health Care Benefits

Many people have signed up for health care coverage as a result of the Affordable Care Act.

Some of these individuals may come to your offices with little to no experience using health insurance with a primary care provider, or getting regular preventive care. As a result, the newly insured may have trouble navigating the health care system and getting routine care and preventive services - and they may need your help.

**From Coverage to Care** is a CMS initiative designed to help the newly insured understand what it means

to have health insurance, how to find a provider, and when and where to get health services.

There are a number of useful resources for you to use as you help people use their health care benefits, including posters, flyers, and series of short videos. Visit the [Coverage to Care web page](#) for more information.
