

## **Illustrated Guide to Soil Taxonomy**

***Tuesday, September 30<sup>th</sup>, 2014, 1:00 – 2:30 PM Central Time***

### **Presenters:**

**Shawn McVey,**  
Soil Scientist,  
NRCS-NSSC  
Lincoln, NE

This webinar highlights the newest online resource for teaching non-soil scientists about Soil Taxonomy. The webinar is ideal for soil scientists who provide training to multiple disciplines, entry-level soil scientists, and college students.

The “Illustrated Guide to Soil Taxonomy” was developed for use by multiple audiences to gain initial understanding and insight into soil classification. The Guide is a highly illustrated derivative product of the 12<sup>th</sup> Keys to Soil Taxonomy presenting soil classification to the great group level. The Illustrated Guide is useful to natural resource management and engineering professionals who use soil survey information in their work as it presents the broad concepts and diagnostic features significant to soil classification. Definitions of the diagnostic horizons and features are accompanied by photos and background information, including common horizon nomenclature used. The Guide is available online at

[http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/survey/class/?cid=nrcs142p2\\_053580](http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/survey/class/?cid=nrcs142p2_053580)
