

Homeland Security

Counter-IED & Risk Mitigation Training

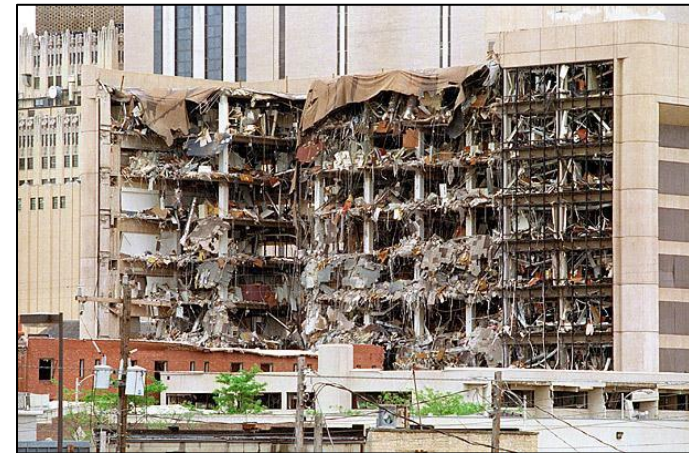

To reduce risk to the Nation's critical infrastructure, the Office for Bombing Prevention (OBP) develops and delivers a diverse curriculum of training designed to build nationwide counter-improvised explosive device (IED) core capabilities and enhance awareness of terrorist threats. Coordinated through State Homeland Security Officials and training offices, OBP courses educate Federal, State, local, tribal, and territorial (FSLTT) participants such as municipal officials, state and local law enforcement, critical infrastructure owners/operators, and security staff on strategies to prevent, protect against, respond to, and mitigate bombing incidents.

IED Awareness/Bomb Threat Management Workshop

This workshop improves the participant's ability to manage IED threats by highlighting specific safety precautions associated with explosive incidents and bomb threats. The workshop reinforces an integrated approach that combines training, planning, and risk assessment to maximize available resources for bomb threat management. This workshop is four hours long and is designed for facility owners, operators, and security staff.

IED Search Procedures Workshop

This workshop improves the participant's understanding of IED awareness, IED prevention measures, and planning protocols to detect IEDs by reviewing specific search techniques. This workshop will enable public and private sector representatives to reduce vulnerability and mitigate the effects of IED attacks. This workshop is eight hours long and is designed for public and private facility owners/operators and security staff.

Oklahoma City Bombing Source: Time

Protective Measures Course

This course provides the participant with an overview of information regarding threat analysis, terrorist planning, facility vulnerability analysis, protective measures and strategies which can be utilized to mitigate risk and reduce vulnerabilities within their unique sectors. This course is two days long and is designed for public and private facility staff.

Surveillance Detection Course for Law Enforcement & Security Professionals

This course provides the participant instruction on how to detect hostile surveillance by exploring surveillance techniques, tactics, and procedures from a hostile perspective. This course is three days long and is designed for law enforcement and public/private sector security staff.

IED Counterterrorism Workshop

This workshop enhances the participant's understanding of the IED threat, surveillance detection methods and soft target awareness. The course covers awareness and prevention measures as well as collaborative information-sharing resources to enable the participant to deter, prevent, detect, and protect against the illicit use of explosives in the United States. This workshop is eight hours long and is designed for law enforcement, facility owners/operators, and security staff.

Vehicle Borne Improvised Explosive Device Detection Course

This course improves the participant's ability to successfully inspect for, detect, identify components of and respond to a Vehicle Borne Improvised Explosive Device (VBIED). Instruction covers the VBIED threat, explosives, IED awareness, and vehicle inspections, enabling participants to detect, deter, protect against, and respond to the illicit use of explosives in the United States. This course is eight hours long and is designed for first responders and public/private security staff tasked with inspecting vehicles for contraband, explosives, or any dangerous goods.

Pier-Side Operations and Underwater Search Procedures Course

This course teaches divers how to detect, identify, and respond to IEDs located on piers, vessels, and underwater structures. Using classroom instruction and practical exercise, the course will teach public safety divers and first responders tasked with underwater searches to search for, detect, and identify underwater IEDs and take appropriate actions.

Bomb-Making Materials Awareness Program

The Bomb-Making Materials Awareness Program (BMAP) helps local law enforcement agencies engage a range of private sector establishments within their jurisdictions that manufacture, distribute, or sell products that contain HME precursor chemicals. BMAP outreach materials help employees identify relevant HME precursor chemicals and other critical IED components of concern, such as electronics, and recognize suspicious purchasing behavior that could indicate bomb-making activity. The program simultaneously encourages stronger relationships between businesses and local law enforcement, and reinforces the foundation of effective community safety and security. BMAP outreach events are eight hours long and designed for both law enforcement and businesses that manufacture, distribute, or sell HME precursor chemicals.

Schedule of Events

Start Date	End Date	Course	Location	Venue	Point of Contact
11/8/2013	11/8/2013	IED Awareness Course	Fairbanks, Alaska	Fairbanks Police Department 911 Cushman Street Fairbanks, AK AND Fire Training Center 1710 30th Ave Fairbanks, AK	Tom Burgess Protective Security Advisor 907-351-3855 Thomas.Burgess@HQ.DHS.GOV
11/7/2013	11/8/2013	Pier-Side Operations & Underwater Search Procedures Course	Albany, New York	New York State Police Academy 1220 Washington Avenue Albany, NY 12206	Alexander Pradere Investigator 518-783-3232 alexander.pradere@troopers.ny.gov
11/7/2013	11/8/2013	Pier-Side Operations & Underwater Search Procedures Course	Long Beach, California	Port of Long Beach Joint Command and Control Center (JCCC) 1249 Pier F Avenue Long Beach, CA 90802	Jeff Liberman Lieutenant, Long Beach Police Dept. 562-283-7962 jeffery.liberman@longbeach.gov
11/8/2013	11/8/2013	Bomb-making Materials Awareness Program Training	Fairbanks, Alaska	Fairbanks Police Department 911 Cushman Street Fairbanks, AK AND Fire Training Center 1710 30th Ave Fairbanks, AK	Tom Burgess Protective Security Advisor 907-351-3855 Thomas.Burgess@HQ.DHS.GOV

11/9/2013	11/9/2013	IED Search Procedures Workshop	Fairbanks, Alaska	Fairbanks Police Department 911 Cushman Street Fairbanks, AK AND Fire Training Center 1710 30th Ave Fairbanks, AK	Tom Burgess Protective Security Advisor 907-351-3855 Thomas.Burgess@HQ.DHS.GOV
11/12/2013	11/12/2013	IED Counterterrorism Workshop	Boston, Massachusetts	MASSPORT EOC – Logan International Airport 2 Service Road Boston, MA 02128	Shayleen Schutz Deputy Security Director 617-568-3158 sschutz@massport.com
11/12/2013	11/12/2013	IED Search Procedures Workshop	Shreveport, Louisiana	TBD	Jeff McKee Protective Security Advisor 225-216-6510 Jeffery.McKee@hq.dhs.gov
11/12/2013	11/13/2013	Pier-Side Operations & Underwater Search Procedures Course	Vicksburg, Mississippi	Mississippi State University Extension Service, 1100 Grove Street Vicksburg, MS 39180	James (Jim) Brinson CBRNE Response Coordinator Office: 601-933-7200 Cell: 601-720-0185 Email: jbrinson@dps.ms.gov
