## BEST PRACTICES

### **Public Assistance**

- Held coordination/training meeting with Oklahoma Department of Transportation (ODOT) FEMA and OEM field staff to ensure common understanding of Oklahoma road standards, issues, and challenges. Additionally, talking points were prepared for damaged Private Roads and options for compensation.
- Local Hire program initiative: outreach to ODOT and the Oklahoma Association of Electric Cooperatives (OAEC) to identify candidates interested in a 120 day assignment

### **Disaster Survivor Assistance (DSA)**

- A state counterpart DSA coordinator in the JFO was critical maintaining coordination between state field Area Coordinators, Local Emergency Mangers, and DSA.

### **Individual Assistance**

- Positioned Voluntary Agency Liaisons (VALs) into multiple counties to assess and develop Long Term Recovery Committees (LTRC)
- Over 200 households initially deemed “ineligible” for housing assistance were made “eligible” through proactive IA case management at the JFO. This reversal may result in a change to HQ/IA policy.
