## Advance Report on Durable Goods Manufacturers' Shipments, Inventories and Orders November 2015

**New Orders.** New orders for manufactured durable goods in November increased \$0.1 billion or virtually unchanged to \$238.8 billion, the U.S. Census Bureau announced today. This increase, up two consecutive months, followed a 2.9 percent October increase. Excluding transportation, new orders decreased 0.1 percent. Excluding defense, new orders decreased 1.5 percent. Transportation equipment, also up two consecutive months, drove the increase, \$0.3 billion or 0.4 percent to \$82.2 billion.

**Shipments.** Shipments of manufactured durable goods in November, up two of the last three months, increased \$2.1 billion, or 0.9 percent, to \$241.8 billion. This followed a 1.2 percent October decrease. Transportation equipment, also up two of the last three months, drove the increase, \$2.3 billion or 2.9 percent to \$80.8 billion.

**Unfilled Orders.** Unfilled orders for manufactured durable goods in November, up two consecutive months, increased \$1.9 billion or 0.2 percent to \$1,194.0 billion. This followed a 0.3 percent October increase. Transportation equipment, also up two consecutive months, led the increase, \$1.3 billion or 0.2 percent to \$799.5 billion.

**Inventories.** Inventories of manufactured durable goods in November, down six of the last seven months, decreased \$1.1 billion, or 0.3 percent, to \$395.7 billion. This followed a 0.3 percent October decrease. Transportation, down four of the last five months, led the decrease, \$0.8 billion or 0.6 percent to \$129.8 billion.

**Capital Goods.** Nondefense new orders for capital goods in November decreased \$5.2 billion or 6.3 percent to \$77.2 billion. Shipments increased \$1.8 billion or 2.3 percent to \$80.2 billion. Unfilled orders decreased \$3.1 billion or 0.4 percent to \$754.3 billion. Inventories decreased \$0.7 billion or 0.4 percent to \$174.3 billion. Defense new orders for capital goods in November increased \$4.3 billion or 44.4 percent to \$14.1 billion. Shipments decreased \$0.8 billion or 7.5 percent to \$9.8 billion. Unfilled orders increased \$4.3 billion or 2.9 percent to \$151.3 billion. Inventories decreased \$0.4 billion or 1.9 percent to \$21.4 billion.

**Revised October Data.** Revised seasonally adjusted October figures for all manufacturing industries were: new orders, \$473.6 billion (revised from \$473.9 billion); shipments, \$474.6 billion (revised from \$475.2 billion); unfilled orders, \$1,192.1 billion (revised from \$1,191.8 billion); and total inventories, \$643.1 billion (revised from \$643.6 billion).

Figures in text are adjusted for seasonality, but not for inflation. Figures on new and unfilled orders exclude data for semiconductor manufacturing. For data, call (301) 763-4673 or go to <<http://www.census.gov/m3>>.

Revised and more detailed estimates, plus nondurable goods data, will be published on January 6, 2016, at 10:00 a.m. EST. The Advance Report on durable goods for December is scheduled for release on January 28, 2016 at 8:30 a.m. EST. See back page for survey description. To receive the latest updates on the Nation's key economic indicators, download the America's Economy app for Apple and Android smartphones and tablets. To learn more about this release and the other indicators the U.S. Census Bureau publishes, join us for the Investigating Economic Indicators Webinar Series. For more information, visit [www.census.gov/econ/webinar](http://www.census.gov/econ/webinar).

“Virtually unchanged” indicates that the change is less than 0.05 percent for a percent increase or decrease.

<sup>1</sup> Revised data due to late receipts and concurrent seasonal adjustment.<sup>2</sup> Estimates of shipments and new orders are for the duration of the period, while estimates of unfilled orders and total inventories are for the end of the period. Not seasonally adjusted estimates of shipments and new orders include adjusted data for non-calendar reporters. Seasonally adjusted estimates include concurrent adjustments for holiday and trading-day differences, where appropriate, as well as seasonal variation, based on the results of the latest annual review of the model parameters. Estimates are not adjusted for price changes.<sup>3</sup> Based on advance sample. Estimates of manufacturers' shipments, inventories, and orders are subject to survey error and revision. One major component of survey error is nonsampling error, which includes errors of coverage, response and nonreporting. Since the survey panel is not a probability sample, estimates of sampling error cannot be calculated. For further details on survey design, methodology, and data limitations, see <http://www.census.gov/manufacturing/m3>.<sup>4</sup> The Capital Goods Industries include Nondefense: small arms and ordnance; farm machinery and equipment; construction machinery; mining, oil, and gas field machinery; industrial machinery; vending, laundry, and other machinery; photographic equipment; metalworking machinery; turbines and generators; other power transmission equipment; pumps and compressors; material handling equipment; all other machinery; electronic computers; computer storage devices; other computer peripheral equipment; communications equipment; search and navigation equipment; electromedical, measuring, and control instruments; electrical equipment, appliances, and components; heavy duty trucks; aircraft; railroad rolling stock; ships and boats; office and institutional furniture; and medical equipment and supplies.

Defense Capital Goods include: small arms and ordnance, communications equipment, aircraft, missiles, space vehicles, and parts, ships and boats, and search and navigation equipment.

<sup>5</sup> Estimates and percent changes of shipments and inventories for the semiconductor industry are included in computers and electronic products, and all other applicable aggregate totals. Estimates and percent changes for new orders and unfilled orders exclude semiconductor industry data.

## Survey Description

This report is compiled from results of the U.S. Census Bureau's Manufacturers' Shipments, Inventories, and Orders (M3) survey, which is a voluntary survey authorized by Title 13 of the United States Code. This survey provides statistics on a calendar-month basis for manufacturers' value of shipments, new orders (net of cancellations), end-of-month order backlog (unfilled orders), end-of-month total inventory (at current cost or market value), and inventories by stage of fabrication (materials and supplies, work-in-process, and finished goods). Data published from the M3 survey are based on a panel of approximately 4,800 reporting units that represent approximately 3,000 companies and provide an indication of month-to-month change for the Manufacturing Sector. These reporting units may be divisions of diversified large companies, large homogenous companies, or single-unit manufacturers in 92 industry categories, which are combined into 65 publication levels due to the small monthly panel size. The survey methodology assumes that the month-to-month changes of the total operations of the reporting units in the M3 panel effectively represent the month-to-month movements of all establishments that make up the category.

The companies for which shipments data are currently reported or imputed in the M3 survey represent approximately 61 percent of the total value of shipments for manufacturing establishments in the 2012 Economic Census, and these companies include almost two-thirds of the manufacturing companies with \$500 million or more in shipments in the 2012 Economic Census. The companies for which shipments data are currently reported in the M3 survey represent approximately 54 percent of the total value of shipments for manufacturing establishments in the 2012 Economic Census. Statistics based on the M3 panel differ from the results that would be obtained from a complete enumeration of all manufacturing companies. The M3 panel is not based on a probability sample; therefore, the sampling errors that are normally provided with sample surveys cannot be measured. Nonsampling errors are attributable to many sources. The use of company or divisional reports to estimate the monthly change for establishments is one source of nonsampling error. The use of primarily large companies to represent the month-to-month movement of all companies is another potential source. Any corrections will be published in the full report. Corrections received after the full report will be released in the next month's advance report. Any revisions made later than two months will be reflected in the annual benchmark publication.

Additional survey documentation can be found on our web site: <http://www.census.gov/m3>.

### Release Dates for the M3 Survey

Survey month	Advance Report (8:30 a.m. release time)	Full Report (10:00 a.m. release time)
October 2015	November 25, 2015	December 3, 2015
November 2015	December 23, 2015	January 6, 2016
December 2015	January 28, 2016	February 4, 2016
January 2016	February 25, 2016	March 3, 2016
February 2016	March 24, 2016	April 4, 2016
March 2016	April 26, 2016	May 4, 2016
April 2016	May 26, 2016	June 3, 2016
May 2016	June 24, 2016	July 5, 2016
June 2016	July 27, 2016	August 4, 2016
July 2016	August 25, 2016	September 2, 2016
August 2016	September 28, 2016	October 5, 2016
September 2016	October 27, 2016	November 3, 2016
October 2016	November 23, 2016	December 6, 2016
November 2016	December 22, 2016	Not available at this time
