35th Annual Duncan Seminar

Home from the NICU

Preparing for the Early Years

Friday, March 21, 2014
Wright Auditorium
Seattle Children's Hospital
4800 Sand Point Way NE
Seattle, WA 98105

Course Description

At this one-day conference, participants will gain an understanding of the current research, trends and outcomes in the care of infants who have been in the Neonatal Intensive Care Unit. Participants will identify developmental challenges and useful interventions during these early years.

Course Objectives

At the completion of this seminar, participants will be able to:

- Name two concepts learned from Neonatal Intensive Care Unit parents that will help change your practice.
- Describe how clinical trials investigating treatments for hypoxic ischemic encephalopathy have changed Neonatal Intensive Care Unit care.
- List three ways in which the field of neonatology has changed in the last decade.
- Identify three factors which impact developmental skills in the Neonatal Intensive Care Unit graduate.
- List three concepts to consider when identifying the nutritional needs of the Neonatal Intensive Care Unit graduate.
- Identify three concepts on very early language development in the care of preterm infants.
- Describe how auditory deficits for children born prematurely impact learning and school readiness.

Who Will Benefit Most from Attending This Event

Physicians, nurses, SLPs, OTs, PTs, nutritionists, educators, parents, social workers and other healthcare professionals caring for children with neurodevelopmental disabilities and their families.

Information

- Detailed directions to Seattle Children's Wright Auditorium and parking information will be included in your confirmation letter or can be accessed at seattlechildrens.org/outreach.
- For questions or to request any special dietary or other accommodations necessary for your participation in this conference, contact Marianne Gonterman at 206-987-5318 or e-mail marianne.gonterman@seattlechildrens.org.

About the Duncan Seminar

The **Duncan Seminar** is an annual interdisciplinary conference focused on the care of persons with physical disabilities. It recognizes the major contributions of Dr. William Duncan, orthopedic surgeon, to comprehensive interdisciplinary approaches to cerebral palsy in the Pacific Northwest.

The **Duncan Award** is presented to one or more individuals whose career exemplifies Dr. Duncan's dedication and innovation on behalf of children with disabilities.

Dr. Duncan's family and friends established the **Duncan Gift Fund** in his honor to provide funds for an honorarium for the Duncan Award winner and to support the Duncan Seminar. Additional donations are welcome and should be specifically labeled for the "Duncan Seminar Gift Fund" and sent to Seattle Children's Foundation, P.O. Box 5371/MS S-200, Seattle, WA 98145-5005.

This program was partially supported by the Children with Special Health Care Needs Program, Department of Health, State of Washington; the Center on Human Development and Disability, University of Washington, and the Leadership Education in Neurodevelopmental Disabilities (LEND) training program, funded by the Health Resources and Services Administration, Maternal and Child Health Bureau through grant # T73MC00041.
