### Fiscal Policy and Budget - 2012-13 - Linda Vista Annex

The California Department of Education published its 2012-13 P-1 Charter School Block Grant apportionment in February. It established our-per unit of ADA funding levels for February through June 2013. Our tracking budget uses per-unit of ADA funding levels very close to the levels set at P-1, other projected revenue adjustments based upon CDE 2012-13 entitlement amounts, and the District's SPED encroachment increase. The current unfavorable variance reflects CDE deferrals, the Prop 30 offset. See the schedule below. The CDE has stated that the offsets will be allocated in June. The deferrals should be paid in full in July and August.

### **SDCCS School Site Governance**

Although SDCCS is organized as a single 501c3 with a single Board of Directors, each individual SCSS school will have an School Governance Council (SGC) with decision-making authority over site-based decisions. The Council:

- acts as an initial discipline review board;
- · addresses school safety issues;
- reviews parental concerns;
- determines budget priorities; and
- administers regulations with CEO and board oversight.

The ASC consists of the principal, one certificated staff, one classified staff, two parents (one is a PSA officer and one is a parent-at-large), one ASB rep (for open sessions when there are students eligible to serve) and one community member (this is optional). The principal is responsible for communicating all SGC information to the SDCCS Board of Directors.

SGCs should be in place each school year by October and are to be run in accordance with the Brown Act. Appointment to the Council is through nominations with the exception of the principal, who is a standing member of the committee. The SGC sits at the discretion of the board.

### **Vacation Leave**

While the School recognizes the importance of vacation time as a period of rest and rejuvenation away from the job, vacations must be scheduled with due consideration for "peak traffic periods" in the school.

Vacation is offered to employees as follows:

- Full-time certificated staff shall earn five (5) days of paid vacation each year;
- Full-time classified staff working on a ten (10) month calendar shall accrue five (5) days of paid vacation each year;
- Full-time classified staff working on a twelve (12) month calendar shall accrue (6) days of paid vacation each year; and
- Part-time staff shall accrue a prorated portion of no more than five (5) days of paid vacation each year based upon the cumulative hours they work in that year.

Any vacation time taken during the school year or otherwise should be coordinated and cleared in writing by the site Principal.

For clerical employees, vacation days should be taken when school is not in session, preferably between July 1 to August 15. No vacation time may be taken by clerical staff during the last two weeks of August unless specifically authorized by the Principal.

Vacation time may not be utilized before it is earned. An employee whose employment terminates will be paid for accrued unused vacation days.

For all employees, any vacation pay earned during a fiscal year and not used in that fiscal year will be paid to the employee no later than first payday after the close of the fiscal year. The current year's vacation time must be used before any previously earned vacation time is used. Vacation time earned after June 30, 2013 will not carry forward.

An employee who does not work his or her scheduled hours and who does not have earned vacation hours on the books will not be paid for the hours not worked.

#### Sick Leave

Sick leave is a form of insurance that employees accumulate in order to provide a cushion for incapacitation due to illness or injury. It is intended to be used only when actually required to recover from illness or injury; sick leave is not for "personal" absences. Time off for medical and dental appointments will be treated as sick leave. The School will not tolerate abuse or misuse of sick leave privileges.

Sick leave is offered to employees as follows:

• Full-time certificated staff shall accrue five (5) days of paid sick leave each year;

- Full-time classified staff working on a ten (10) month calendar shall accrue five (5) days of paid sick leave each year;
- Full-time classified staff working on a twelve (12) month calendar shall accrue (6) days of paid sick leave each year; and
- Part-time staff shall accrue a prorated portion of no more than five (5) days of paid sick leave each year based upon the cumulative hours they work in that year.

Accrued sick leave does not carry over from year-to-year and the School does not pay employees whose employment terminates for accrued unused sick leave.

If an employee is absent longer than three (3) consecutive days due to illness, medical evidence of illness and/or medical certification of fitness to return to work satisfactory to the School will be required before the School honors any sick pay requests. The School may withhold sick pay if it suspects that sick leave has been misused.

Available sick leave may be used to care for an ill family member subject to the same requirements as listed above.

Once an employee has exhausted sick leave, the employee may continue on an unpaid medical leave depending upon the facts and circumstances of the employee's basis for leave beyond accrued sick leave. Employee requests for unpaid medical leave must be approved in advance by the School.

If all public schools served by the LEA to which a student may transfer are identified for program improvement, the LEA shall, to the extent practicable, establish a cooperative agreement with other local educational agencies in the area for transfer.

c) Notify the SEA that the LEA -- (1) has met the criteria in paragraph a; and (2) intends to spend the remainder of its 20 percent obligation on other allowable activities, specifying the amount of that remainder.

- 6. The Individualized Education Program (IEP) team determines placement of each Special Education student, regardless of language proficiency. No provision of an IEP requires a parental exception waiver under this section.
- 7. Parents and guardians of English learners have been notified of the opportunity to apply for a parental exception waiver. (EC §305, §306, §310, §311; 5 CCR §11309(a))
- 8. The LEA has assigned an adequate number of qualified teachers to implement the required English-language development instruction and all other academic areas of the curriculum and is fully implementing specific district steps to remedy any shortage of qualified teachers. # Resolution of the Board of the Theresa Hessling Charter School Project June 18, 2013

# An Overview of Schoolwide Programs

A Schoolwide program is a comprehensive reform strategy designed to upgrade the entire educational program in a Title I school; its primary goal is to ensure that all students, particularly those who are low-achieving, demonstrate proficient and advanced levels of achievement on State academic achievement standards.

In general, a Title I school may operate as a Schoolwide program only if a minimum of 40 percent of the students in the school, or residing in the attendance area served by the school, are from low-income families. [Section 1114(a)(1) of Title I of ESEA].

Whereas Title I targeted assistance programs only provide educational services to identified individual students, Schoolwide programs allow staff in schools with high concentrations of students from low-income families to redesign their entire educational program to serve all students. The emphasis in Schoolwide program schools is on serving all students, improving all structures that support student learning, and combining all resources, as allowed, to achieve a common goal. Schoolwide programs maximize the impact of Title I. Adopting this strategy should result in an ongoing, comprehensive plan for school improvement that is owned by the entire school community and tailored to its unique needs.

\*\*\*\*\*\*

The Board of the Theresa Hessling Charter School Project, a quorum having been present, stipulated that San Diego Cooperative Charter School 2 meet the requirements for operation of a Schoolwide program for the utilization of Title I funds under NCLB and by a vote of the majority of Directors present directed San Diego Cooperative Charter School and San Diego Cooperative Charter School 2 to operate school wide programs for the utilization of Title I funds.

2150.3 · SPED Opt 2 Exp due frm District	3,123			Variance is expenses which are not reimbursable. Based upon the current requirements for SPED aides and techs, it is likely that un-reimbursable costs will reach \$70,000 for the full year. Special Education aides previously employed by the District are for the 2012-13 school year employed directly by SDCCS. The relevant provisions of the SPED MOU with the District provide for reimbursement of compensation, payroll taxes and H&W benefits to the charter school by the District. Compensation and payroll taxes are booked to expense accounts by our payroll system; invoices to the District for reimbursement reclassify the amounts as receivables.

The purpose of Title II is to increase the academic achievement of all students by helping schools and districts (1) improve teacher and principal quality through professional development and other activities and (2) ensure all teachers are highly qualified.

Proposition 20 lottery funding is restricted for the purchase of instructional materials. Non-prop 20 is unrestricted but must use exclusively for education of pupils. Both prop 20 and non prop 20 funding reported as restricted per instructions from the district charter finance office.

Title I, Part A, Basic Grant, is a federal categorical program contained in the Consolidated Application. Its purpose is to ensure that all children have a fair and equal opportunity to obtain a high-quality education and reach, at a minimum, proficiency on the state content standards and assessments. The intent of this funding is to meet the educational needs of low-achieving students enrolled in the highest poverty schools.

The funds are to be used by school sites for any one-time educational purpose including, but not limited to, instructional materials, classroom and laboratory supplies and materials, school and classroom library materials, educational technology, deferred maintenance, one-time expenditures designed to close the achievement gap, or professional development. In addition, the funds allocated to charter schools are to further the program specified in the school's charter and may not be allocated to parents, pupils, or staff of the charter school.

Formula sub grants are made available to eligible local educational agencies (LEAs) to provide supplementary programs and services to limited-English-proficient (LEP) students (known as English learners in California). The purpose of the sub grants is to assist LEP students to acquire English and achieve grade-level and graduation standards. LEA's receiving Title III funds are required under NCLB to monitor students for two years after redesignation.

To increase the number of school counselors that serve seventh- through twelfth-grade students. These new counselors will provide students with information on all educational and vocational options available to them and serve students who have failed or are at risk of failing the California High School Exit Exam (CAHSEE), as well as students who are at risk of not graduating due to insufficient credits." The authorizing statute, Education Code (EC) 52378, et seq, further specifies that the funding will be available to school districts for these purposes. It is important to note that the statute is intended first to serve all students in seventh through twelfth grades, with additional attention to those who have failed or are at risk of failing the CAHSEE, as well as students who are at risk of not graduating due to insufficient credits. Support for these school counseling professionals, such as professional development, would also be allowable through this funding.
