Governance Policy and Compliance Statement

The Devon Investment and Pension Fund Committee considered a revised Governance Policy and Compliance Statement at the meeting held on 13 September.

The policy sets out the governance arrangements for the Devon Fund, including the committee make-up and delegation arrangements. The Compliance Statement shows how the policy complies with DCLG guidance.

The policy had not been revised since 2006, so a review was overdue. The new policy will be in place until revised governance arrangements are brought in by the Government in line with the Public Service Pensions Act. A copy of the revised Governance Policy and Compliance Statement can be found [here](#).

If you have any comments on the revised policy please e-mail [Mark Gayler](#).
