

September 2015

*Caller reported problem with speed limit sign on 22.5.15 after previous complaint H2625796. He has called to say thank you to **Alan Jones** for getting the sign rectified*

*Our appreciation to Devon Highways for arranging response to our recent e-mails and flood reporting due to flooding in lane at **PL21 0LR**. The clearing of the buddle hole has allowed the water to drain away during this morning's heavy downpour. We drove out of our property this morning without having to encounter deep water in our lane. Thank you.*

In view of the continued stormy weather keeping this buddle hole clear is essential.

*Just wanted to pass on a compliment for **Ian Andrews** who I spoke to this morning about a community venture. He was very knowledgeable about his area and signposted me when I needed to look elsewhere. He also explained DCC's relevant policies clearly so I could see where they were relevant. He is looking into some other avenues for us to explore and getting back to us so we know what we can do. He was great at active listening, asking questions and clarifying to see what I was asking and saying. So thanks for a pleasant and helpful conversation (even though he was essentially saying no, which is quite a skill).*

*Good afternoon **Simon (Phillips)***

Thank you for including me in your reply to xxxxxxx. I do appreciate that the cost of repairing roads is far greater than the sums of money allocated by Central Government and am also aware of the situation whereby it is inevitable that things will get worse. This is not just my belief but a statement of fact. Managing tax-payers highway expectations will become evermore difficult.

Thank you for the repair work at the Square in Shebbear. Hopefully this will prevent any further rapid deterioration until a more permanent resurfacing can be done sometime in the future.

*Dear **Simon (Phillips)***

Looks like another thank you is due.

Very pleased to find that you have been able to redo the road markings on the A3072 from the Cornwall border to Holsworthy which will make this a much safer road come the winter

*I just wanted to say thank you, thank you, thank you, the work done in **Applegarth Avenue, Elmwood Avenue, Newton Abbot** and elsewhere is absolutely excellent. The boys that were working were all so polite so efficient and hardworking, they really did their job well, and I wanted to say thank you a job well done and I am not shaking every time I go up and down into town, or going into Castle Drogo. Thank you all, right from the top man that holds the strings to the chap that does the scooper or something. Thank you, thank you, and thank you*
