

14 and 21 October

The parish and town council conferences were held on Wednesday 14 October at Ashill Village Hall and Wednesday 21 October at Bradford & Cookbury Village Hall. The locations gave attendees the opportunity to see some rural parts of Devon which they may not have had the opportunity to see before!

Ashill Conference

Presentations were given on a wide range of subjects including our recent achievements, future service changes and community mobilisation. Also included on the agenda were break out sessions which covered the following topics;

- Safety inspection policy
- How we can work together to manage the impact of the reduction in services
- How we can improve our communication

The full agenda and all of the presentations are available on the [parish and town council webpages](#).

Bradford & Cookbury Conference

A number of issues and queries were raised and discussed, during the conferences, and these will be published on the parish and town council website shortly.

A meeting has been arranged to evaluate the events which will also provide us with the opportunity to review the feedback provided by those that attended the event.
