

**Attachment 3: Other Codes for Reimbursement
Provider Agreement for Trauma Informed Care**

Miscellaneous Code

The purpose of this code is to allow providers to serve clients under this Provider Agreement that have private insurance, but have co-pays or a deductible that they are unable to pay. Providers must first bill a client's private insurance, and could then bill the Provider Agreement for the remaining portion due the provider. For example, if the provider bills the client's private insurance for an hour of psychotherapy at \$100 and the insurance pays the provider \$80, the provider could then use the miscellaneous code to bill the Provider Agreement for the remaining \$20.00.
