

## City-Level Food Recovery Group

StopWaste facilitates a monthly Technical Advisory Council (TAC) made up of representatives from our cities and unincorporated areas of the county to talk about waste reduction and recycling issues. Their work and discussions have been focused lately on [SB1383](#) which is focused on understanding how to collaborate across municipalities to reduce organic waste like edible recovered food. Members of ALL IN Eats have started to collaborate with TAC to think about how to liberate recovered food to get it into the hands of more food insecure people and prevent waste.

If you're a city-level waste manager within Alameda County and would like more information, please get in touch with Maryruth: [maryruthbelsey.priebe@acgov.org](mailto:maryruthbelsey.priebe@acgov.org)
