Single Family Residences Destroyed: 0	Single Family Residences Damaged: 0	Single Family Residences Threatened: 0	
Commercial Properties Destroyed: 0	Commercial Properties Damaged: 0	Commercial Properties Threatened: 0	
SITUATION			
Current Situation:	<p>Work to plug a 1930s-era oil well will continue over the weekend. During this period, crews will pump additional cement into the well to establish a plug at 1,400 feet below ground and run diagnostic tests to confirm the integrity of the plugging.</p> <p>For the current phase, the well re-abandonment contractor anticipates the use of two cement trucks. Loud pumping operations will be limited to daylight hours, with minimal noise at night.</p> <p>Air quality monitoring continues to take place every 90 minutes during the day and overnight.</p> <p>The Los Angeles County Department of Public Health, Los Angeles County Fire Department – Health Hazardous Materials Division, and the California Division of Oil, Gas, and Geothermal Resources continue to monitor the well site.</p> <p>The Community Health, Safety and Notification Plan is available on the Department of Conservation’s website at https://www.conservation.ca.gov/dog/Pages/DOW-RGC10-well.aspx. For more information on the project, call the incident information line at (310) 908-1236 or email mdrhotelshotline@gmail.com.</p>
