<b>PERSONS EXPERIENCING HOMELESSNESS</b>	<p><b>The Office of Emergency Management</b> has designated <b>LAHSA</b> as the lead agency for work relating to people experiencing homelessness. OEM did this to ensure that LAHSA’s expertise is captured in the day-to-day work and allows</p>																					

LAHSA to play the central coordinating role across City and County agencies.

**Medical Sheltering:**

LAHSA's goal is to provide 2,000 shelter beds where persons exhibiting COVID-19 symptoms can isolate safely. These include RVs provided by the state and hotels provided by the County. Social Distancing in shelters continues to be a priority. LAHSA has requested resources that include food, personnel, test kits, and a warehouse to store acquired items. This order is currently being addressed by both the State and the County

**Interim Sheltering:**

The State has allocated \$50 million in State funding for the leasing of hotels/motels for three months for persons experiencing homelessness statewide. These rooms are not for medical sheltering. They are instead deemed interim sheltering for vulnerable persons experiencing homelessness including those over 65 years of age and those with compromised immunity or chronic disease. The State will take the lead on negotiating leases with hotels/motels on behalf of the County. This partnership between the County and State allows agreements to be reached quickly. LAHSA is currently standing up staffing and operations for interim sheltering.

**Current Interim Sheltering Locations:**
