Vaccine Marketplace Reminder

With bivalent products and monovalent products in demand, this is a reminder that the Vaccine Marketplace is a great space for all providers to share excess doses of all vaccine types. For those who may need a refresher on what the marketplace is [link here](#) or how to post, there is an interactive provider guide CDPH has released [link here](#)

General Updates

- Janssen/J&J vaccine product sunset postponed until the end of May
- Novavax expires at the end of February and McKesson will stop shipments at the end of January
 - Novavax ordering ends January 31, 2023, at 6:00AM, PDT; we expect Novavax will be available commercially once the program transitions away from all vaccine being provided by the US Government
 - No shelf-life extension anticipated
- Supply of Pfizer's bivalent infant/toddler vaccine for 6 months-4 years remains limited
- Moderna monovalent vaccines begin to expire February/March
- Pfizer monovalent 12+, only the Comirnaty label will be available after January. Comirnaty has a different National Drug Code (NDC):
 - Carton: 0069-2025-10
 - Vial: 0069-2025-01
