

## Senior Accountant

The ideal candidate will be a strongly detail-oriented self-starter who demonstrates excellent follow-up and can make recommendations, take ownership of the role, and lead the process through to completion. Experience must include cash flow, income statements, balance sheet reconciliations, financial statement preparation, budgeting and planning, and financial analysis. Experience in a manufacturing environment preferred.

### Essential Duties & Responsibilities

- Assist in monthly, quarterly and year-end close process (journal entries, account reconciliations, variance analysis, etc.)
- Recording and reconciling of intercompany transactions
- Assist in preparation of financial statements (including consolidations)
- Assist in preparation of budgets and forecasts
- Preparation of monthly financial reporting package
- Regulatory reporting/filings
- Assisting with audit preparation
- Identify and implement opportunities to streamline processes

### Requirements

- The candidate should possess a broad knowledge of accounting and reporting, preferably in a manufacturing environment, including consolidated reporting.
- Bachelor's degree in an Accounting or Finance discipline and minimum 7 years of experience required
- CMA, CPA, or public accounting experience preferred
- Strong knowledge of US GAAP
- Excellent attention to detail and accuracy as well as good organizational and prioritization skills
- Demonstrated experience in identifying and implementing process improvements
- Must be a self-starter who can work independently and prioritize effectively
- Excel skills- intermediate to advanced
