

MAGNOLIA AVENUE

GRADE SEPARATION PROJECT

PUBLIC NOTICE

MAGNOLIA AVENUE FULL CLOSURE

On or after January 20, 2015, Riverside County Transportation Department (RCTD) will be closing Magnolia Avenue in both directions from Lincoln Street to Buchanan Street in Riverside County.

There have been a number of recent incidents of cars stopping on the railroad tracks when the traffic signals at either Lincoln or Buchanan streets turn red during peak traffic hours. **Safety is the number one priority on all RCTD projects, therefore to ensure public safety the road will be closed.**

Business access will be maintained for ALL businesses during this closure period. Appropriate signage will be installed informing the public that all businesses will be open.

The Magnolia Grade Separation Project was designed to provide one lane of traffic each direction for the duration of the project. Recent safety concerns for motorists and pedestrians require Magnolia Avenue to be fully closed for approximately one year in order to complete the construction project.

Detour will remain in place until the new bridge opens. For more information contact: Dennis Green www.rcprojects.org/magnolia or (909) 800-0451.
