

Best Practices for using Face Shields when interacting with individuals with hearing loss or disabilities

Face coverings should be worn by employees who are interacting with the public at businesses.

When interacting with a person who may need access to important facial cues, properly place the face shield on your face after washing or sanitizing your hands.

Remove your facial covering and continue to maintain physical distancing during your interaction.

After the interaction, place your facial covering back on your face.

Once you have put on your facial covering, remove the face shield and wash or sanitize your hands.
