Data through week ending 12/26/2020

### Summary of Confirmed COVID-19 Cases, San Diego County Residents

<p><b>Cases</b></p> <p><b>145,779</b></p> <p>Median Age <b>36</b></p> <p>Range 0-107</p>	<p><b>Deaths</b></p> <p><b>1,402</b></p> <p>Median Age <b>77</b></p> <p>Range 23-103</p>	<p><b>Outbreaks</b></p> <p><b>1,297</b></p> <p>Percentage in Congregate Settings <b>28%</b></p>
--	--	---

### COVID-19 Confirmed and Probable Cases by Onset\* Week

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

\*\*Probable cases are antigen positive tests received since August 1, 2020.

December 29, 2020

Data through week ending 12/26/2020

**Table 1. Confirmed COVID-19 Cases and Deaths**

Summary of San Diego County Confirmed COVID-19 Cases and Deaths			
Confirmed cases	145,779	Deaths	1,402
Hospitalizations	5,675 (4%)	Underlying Conditions	1,344 (96%)
Illness onset date range*	2/14/2020-12/26/2020	Death date range	3/21/2020-12/24/2020
Median age	36 years	Median age	77 years
Age range	0-107 years	Age range	23-103 years
Male	70,598 (49%)	Male	806 (58%)
Female	74,437 (51%)	Female	596 (42%)
Healthcare workers	7,868 (5%)	Case Fatality Ratio	1.0%
Summary of Non-County Resident COVID-19 Cases			
Confirmed cases	11,182	Hospitalizations	666 (6%)

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

Note: percentage hospitalized and healthcare workers are calculated based on the total number of cases; information may be unknown in some cases.

### Demographic Summary of Confirmed COVID-19 Cases

**Figure 2. Confirmed COVID-19 Cases by Age Group  
San Diego County Residents, N=145,779**

December 29, 2020

Data through week ending 12/26/2020

### Demographic Summary of Confirmed COVID-19 Cases (continued)

### Confirmed COVID-19 Cases by Age and Week

**Figure 8. COVID-19 Confirmed Cases by Age Group and Week of Illness Onset\*, San Diego County Residents, N=145,779**

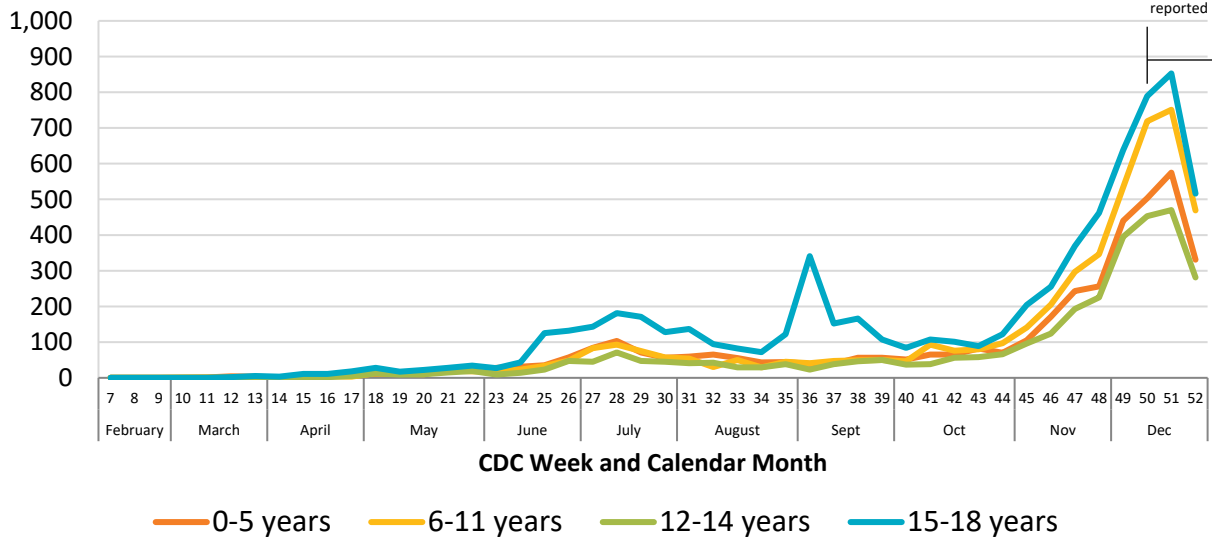

Illnesses that began during this time may not yet be reported

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

**Figure 9. COVID-19 Confirmed Cases for Ages 0-18 Years by Week of Illness Onset\*, San Diego County Residents, N=18,932**

Illnesses that began during this time may not yet be reported

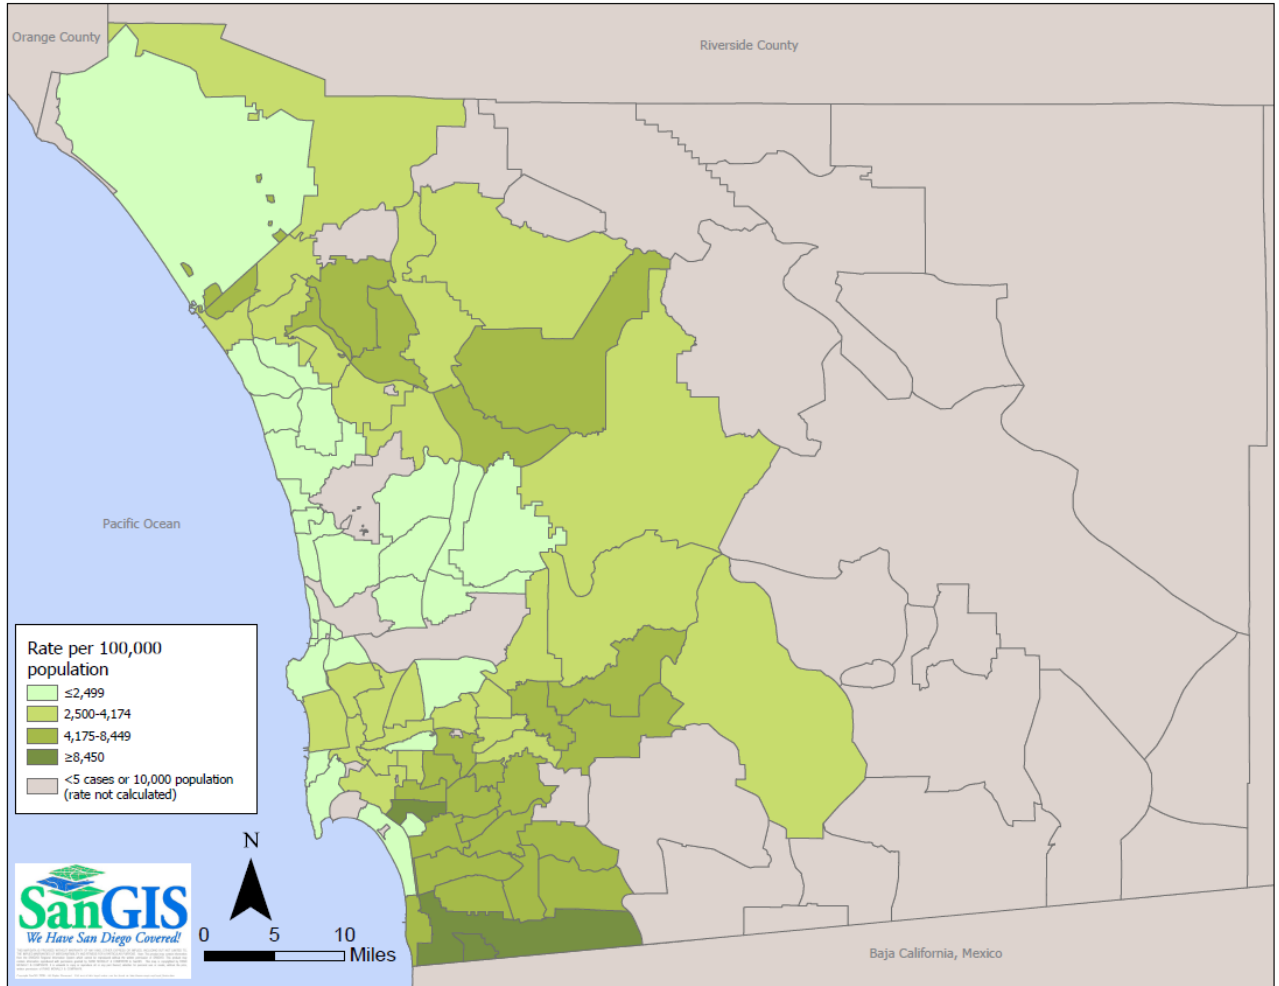

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

December 29, 2020

Data through week ending 12/26/2020

### Confirmed COVID-19 Cases by Geography

**Figure 10. Cumulative COVID-19 Rates by Zip Code of Residence, San Diego County (Countywide Rate = 4,349 per 100,000 Population)**

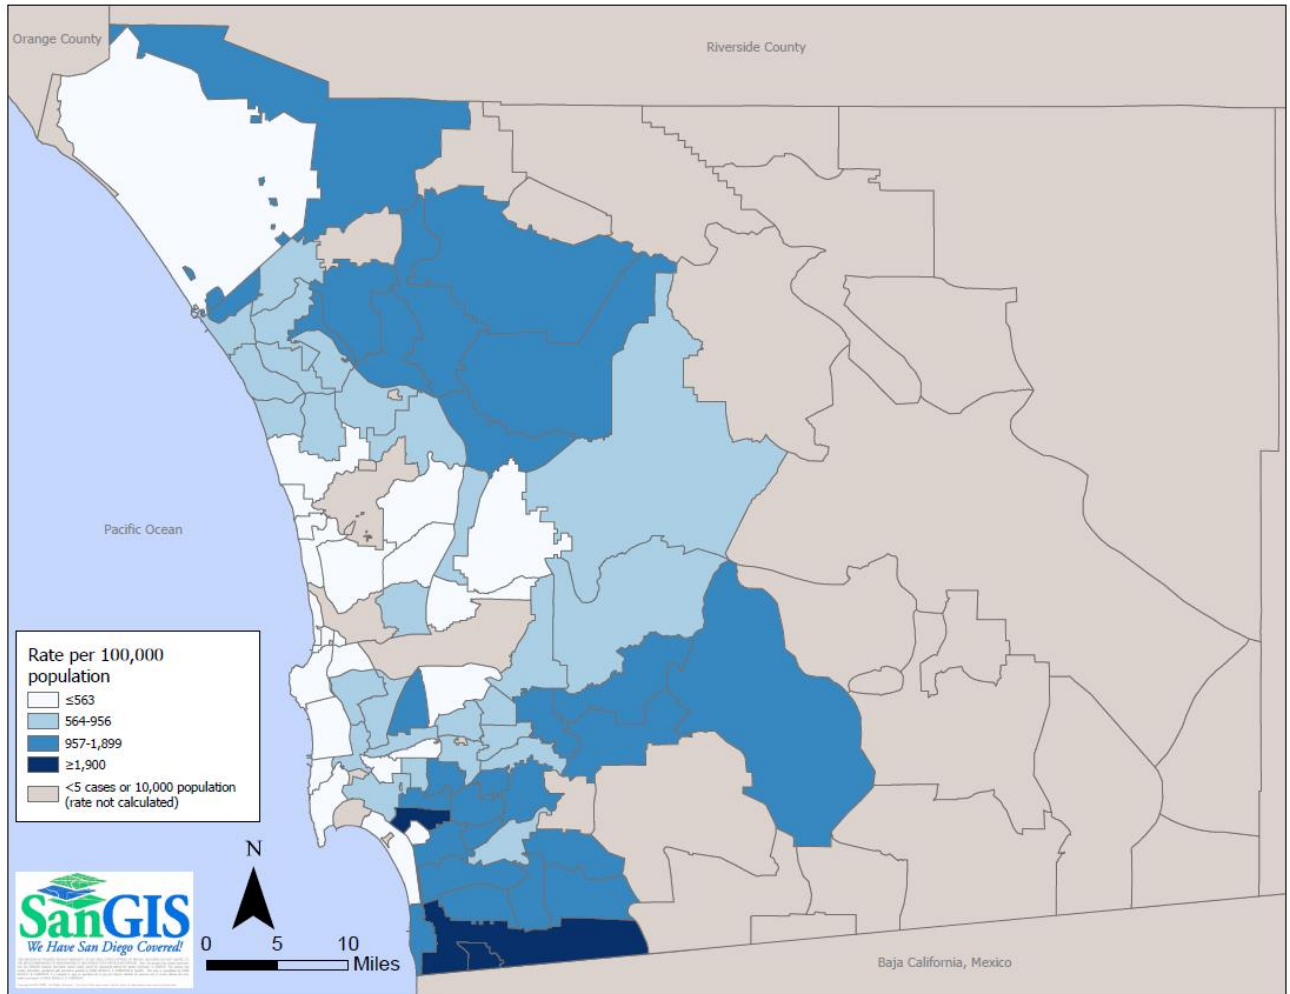

Rates calculated using 2019 population estimates from the San Diego Association of Governments. Rates not calculated for counts under 5 cases or populations less than 10,000. Zip code is zip code of residence, which may not be location of exposure. Case [counts and rates](#) for each zip code are updated routinely on the County of San Diego COVID-19 website.

December 29, 2020

Data through week ending 12/26/2020

### Confirmed COVID-19 Cases by Geography (continued)

**Figure 11. COVID-19 Rates by Zip Code of Residence, 12/13/2020-12/26/2020, San Diego County (Countywide Rate = 1,147 per 100,000 Population)**

Rates calculated using 2019 population estimates from the San Diego Association of Governments. Rates not calculated for counts under 5 cases or populations less than 10,000. Zip code is zip code of residence, which may not be location of exposure. Case [counts and rates](#) for each zip code are updated routinely on the County of San Diego COVID-19 website.

December 29, 2020

Data through week ending 12/26/2020

### Confirmed COVID-19 Hospitalizations by Age and Week

**Figure 12. COVID-19 Hospitalizations by Age Group and Week of Hospital Admission, San Diego County Residents, N=5,675\***

\*Admit date and age are unknown for some hospitalizations.

### Summary of COVID-19-associated Deaths

**Figure 13. COVID-19 Deaths by Week of Death San Diego County Residents, N=1,402**

December 29, 2020

Data through week ending 12/26/2020

### Summary of COVID-19-associated Deaths (continued)

**Figure 14. Confirmed COVID-19 Cases and Case Fatality Rate  
San Diego County Residents  
(All Age Case Fatality Rate=1.0%)**

**Figure 15. Common Underlying Conditions, COVID-associated Deaths**

Persons may have more than one underlying condition. These data are abstracted from death certificates and available medical records and may not reflect a complete list of underlying conditions for each person.

Data through week ending 12/26/2020

### COVID-19 Potential Exposure Settings

**Table 2. COVID-19 Potential Exposure Settings, San Diego County Residents**

Confirmed COVID-19 Case Summary	Last 2 Weeks (12/13 – 12/26)		Cumulative (6/5 – 12/26)	
<b>Total Positive Cases</b>	38,442		137,532	
<b>Number Interviewed</b>	9,677		74,194	
<b>Selected Exposures among those with Completed Interviews</b>	<b>Count</b>	<b>%</b>	<b>Count</b>	<b>%</b>
<b>Potential Community Exposure Settings<sup>a</sup></b>				
At least one potential community exposure setting <sup>b</sup>	4,198	43.4%	34,179	46.1%
Bars and Restaurants	423	4.4%	6,352	8.6%
Casinos	64	0.7%	665	0.9%
Group Gatherings	261	2.7%	3,226	4.3%
Gyms	29	0.3%	292	0.4%
Hair Salons or Barbers	130	1.3%	1,680	2.3%
Places of Worship	165	1.7%	1,513	2.0%
Protests	0	0.0%	47	0.1%
Retail locations	1,065	11.0%	6,936	9.3%
Workplaces <sup>c</sup>	3,376	34.9%	24,520	33.0%
No potential community exposure setting reported	5,479	56.6%	40,015	53.9%
<b>Average number of community settings visited</b>	1.4		1.5	
<b>Range of community settings visited</b>	1-10		1-24	
<b>Household Exposures<sup>d</sup></b>	3,593	37.1%	26,091	35.2%
<b>Any On-site Education-related Exposures</b>	420	4.3%	2,865	3.9%
Childcare/Preschools	104	1.1%	638	0.9%
K-12 schools	272	2.8%	1,491	2.0%
Colleges/Universities	53	0.5%	782	1.1%
<b>Any Travel-related Exposures</b>	893	9.2%	11,657	15.7%
Travel within the United States	504	5.2%	6,926	9.3%
Travel to Mexico	365	3.8%	4,504	6.1%
Travel to Another International Location	8	0.1%	109	0.1%

<sup>a</sup> Potential community exposure settings are defined as indoor or outdoor locations in which cases came within 6 feet of anyone who was not a household member for at least 15 minutes during the 2-14 days prior to symptom onset, even if the case wore a mask or facial covering. Potential exposure settings are places case-patients visited during their exposure period, not confirmed sources of infection. Persons may have visited more than one location.

<sup>b</sup> Effective 11/24/2020, travel exposures are excluded from community exposure settings.

<sup>c</sup> Workplaces may include other community settings (e.g., bar/restaurant, hair salon, retail).

<sup>d</sup> Persons with household exposures reported having close contact with someone in their household with laboratory-confirmed COVID-19, though this was not independently verified. Household exposures may have occurred outside the 2-14 days prior to symptom onset.

December 29, 2020

Data through week ending 12/26/2020

### Emergency Department Data

**Figure 16. Percent of Emergency Department Visit Chief Complaints for ILI, Respiratory Symptoms, Fever, or COVID-like Illness\* by Week, San Diego County**

Categories are not mutually exclusive. \*COVID-like Illness includes fever and cough, shortness of breath, or difficulty breathing OR coronavirus diagnostic codes.

**Figure 17. Percent of Emergency Department Visit Chief Complaints for ILI, Respiratory Symptoms, Fever, or COVID-like Illness\* by Week, San Diego County Among Patients Age 60 Years or Older**

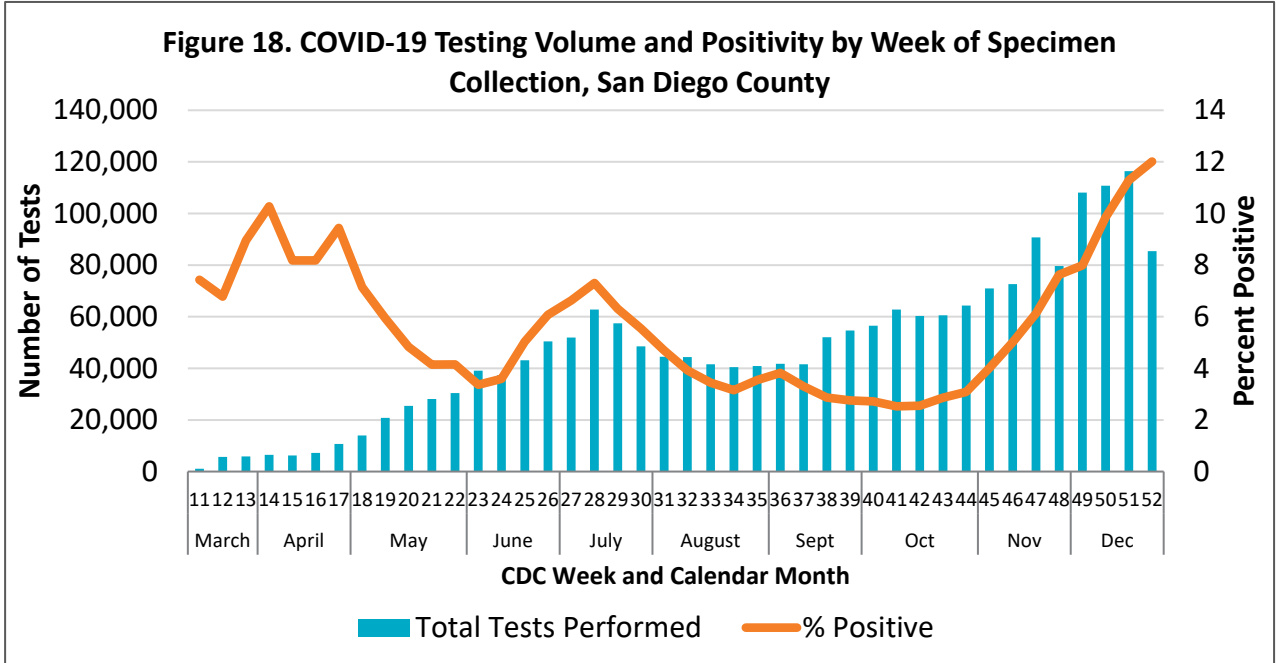

Categories are not mutually exclusive. \*COVID-like Illness includes fever and cough, shortness of breath, or difficulty breathing OR coronavirus diagnostic codes.

December 29, 2020

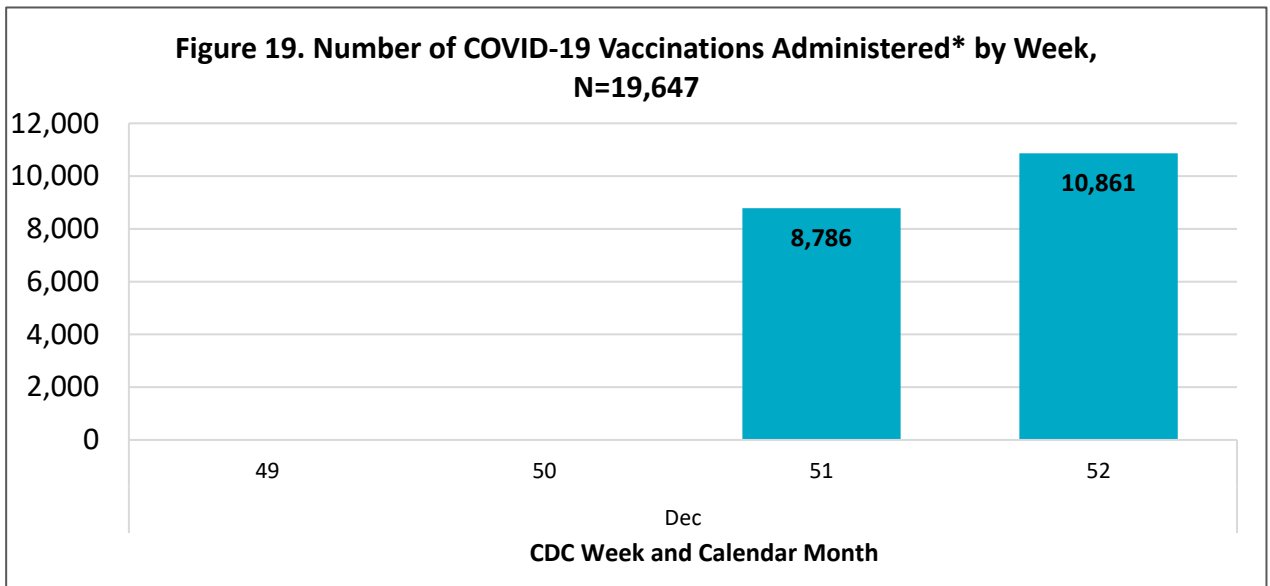

Data through week ending 12/26/2020

### COVID-19 Laboratory Test Positivity Rate

Includes PCR tests performed by COSD Public Health, hospital, and reference laboratories and reported via Electronic Laboratory Reporting (ELR) and line lists. Excludes invalid, indeterminate, and unsatisfactory results.

### COVID-19 Vaccinations

\*Totals only include vaccines that have been recorded in the San Diego Immunization Registry (SDIR). Some healthcare providers, including Veteran's Affairs, the Department of Defense, some tribal entities, and prisons do not report to SDIR.

December 29, 2020

Data through week ending 12/26/2020

### COVID-19 Watch Data Sources

The following sources of data are used to produce this report:

- **COVID-19 case reports:** Medical providers and laboratories report individual cases of PCR-confirmed COVID-19 via fax or electronic laboratory reporting (ELR) to the County of San Diego Epidemiology Unit.
- **COVID-19 deaths:** The County of San Diego requests that all deaths related to COVID-19 be reported for surveillance purposes. Medical facilities may report these deaths directly to the Epidemiology Unit or they may be identified by the Office of Vital Records through death certificate registration. The Epidemiology Unit compiles the data, and only reports deaths that can be verified by a death certificate.
- **Emergency Department Chief Complaint Data:** Electronic emergency department data are reported to the Epidemiology Unit daily. The number of respiratory chief complaints and the number of total emergency department visits are used to calculate percentages for all respiratory-related visits and visits specific to influenza-like illness, fever, and COVID.
- **COVID-19 outbreaks:**
  - Skilled Nursing Facilities: at least one case of laboratory-confirmed COVID-19 in a resident.
  - Non-SNF Institution/Congregate Settings: at least one case of laboratory-confirmed COVID-19 in the setting of  $\geq 2$  cases of acute illness compatible with COVID-19 in residents or staff members of residential congregate settings with onset within a 14-day period.
  - Community settings: three or more laboratory-confirmed COVID-19 cases in different households in a cluster of 2 or more acute illnesses compatible with COVID-19\*\* with onset within a 14-day period.
- **COVID-19 vaccinations:** Number of vaccinations registered in the San Diego Immunization Registry (SDIR) by participating providers. Some providers, including the VA, DoD, other military, some tribal, and prisons do not report to SDIR.
- **SANDAG population estimates, vintage 2019:** Rates are calculated using 2019 population estimates from the San Diego Association of Governments. Rates are not calculated for counts under five cases.

The purpose of the weekly **COVID-19 Watch** is to summarize current COVID-19 surveillance in San Diego County.

**Data are preliminary and may change due to delayed reporting and additional information obtained during investigations.**
