

# COVID-19 WATCH

## Weekly Coronavirus Disease 2019 (COVID-19) Surveillance Report

January 12, 2021

Data through week ending 1/9/2021

### Summary of Confirmed COVID-19 Cases, San Diego County Residents

#### Cases

**191,888**

Median Age

**36**

Range 0-108

#### Deaths

**1,857**

Median Age

**78**

Range 21-103

#### Outbreaks

**1,444**

Percentage in  
Congregate  
Settings

**29%**

### COVID-19 Confirmed and Probable Cases by Onset\* Week

**Figure 1. COVID-19 Confirmed and Probable Cases by Week of Illness Onset\*, San Diego County Residents, N=198,442**

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

\*\*Probable cases are antigen positive tests received since August 1, 2020.

## Weekly Coronavirus Disease 2019 (COVID-19) Surveillance Report

January 12, 2021

Data through week ending 1/9/2021

**Table 1. Confirmed COVID-19 Cases and Deaths**

Summary of San Diego County Confirmed COVID-19 Cases and Deaths			
Confirmed cases	191,888	Deaths	1,857
Hospitalizations	6,238 (3%)	Underlying Conditions	1,752 (94%)
Illness onset date range*	2/14/2020-1/9/2021	Death date range	3/21/2020-1/8/2021
Median age	36 years	Median age	78 years
Age range	0-108 years	Age range	21-103 years
Male	92,169 (48%)	Male	1,073 (58%)
Female	98,608 (52%)	Female	784 (42%)
Healthcare workers	9,006 (5%)	Case Fatality Ratio	1.0%
Summary of Non-County Resident COVID-19 Cases			
Confirmed cases	14,186	Hospitalizations	707 (5%)

\*When onset date is unavailable, specimen collection date, date of death, or date reported is used instead.

Note: percentage hospitalized and healthcare workers are calculated based on the total number of cases; information may be unknown in some cases. Hospitalization counts are likely underreported and may increase as additional information is obtained.

### Demographic Summary of Confirmed COVID-19 Cases

**Figure 15. Common Underlying Conditions, COVID-associated Deaths**

Persons may have more than one underlying condition. These data are abstracted from death certificates and available medical records and may not reflect a complete list of underlying conditions for each person.

January 12, 2021

Data through week ending 1/9/2021

### COVID-19 Potential Exposure Settings

**Table 2. COVID-19 Potential Exposure Settings, San Diego County Residents**

<ul style="list-style-type: none"> <li>The number of persons reporting potential exposures in community settings is an indication of movement of persons during the 2-14 days prior to their onset of symptoms (or specimen collection if asymptomatic).</li> <li>Persons may be exposed in multiple settings, including in community exposure settings, in the household, in educational settings, and during travel.</li> <li>Persons may have potential exposures in more than one community, household, or other setting.</li> <li>Potential exposure in any of these settings does not indicate a confirmed source of infection.</li> </ul>				
Confirmed COVID-19 Case Summary	Last 2 Weeks (12/27 – 1/9)		Cumulative (6/5 – 1/9)	
<b>Total Positive Cases</b>	46,220		183,643	
<b>Number Interviewed</b>	9,961		85,658	
Selected Exposures among those with Completed Interviews	Count	%	Count	%
<b>Potential Community Exposure Settings<sup>a</sup></b>				
At least one potential community exposure setting <sup>b</sup>	4,227	42.4%	39,051	45.6%
Bars and Restaurants	349	3.5%	6,754	7.9%
Casinos	72	0.7%	748	0.9%
Group Gatherings	470	4.7%	3,731	4.4%
Gyms	14	0.1%	311	0.4%
Hair Salons or Barbers	64	0.6%	1,761	2.1%
Places of Worship	196	2.0%	1,728	2.0%
Protests	0	0.0%	47	0.1%
Retail locations	1,285	12.9%	8,383	9.8%
Workplaces <sup>c</sup>	3,085	31.0%	28,069	32.8%
No potential community exposure setting reported	5,734	57.6%	46,607	54.4%
<b>Average number of community settings visited</b>	1.4		1.5	
<b>Range of community settings visited</b>	1-13		1-24	
<b>Household Exposures<sup>d</sup></b>	3,843	38.6%	30,520	35.6%
<b>Any On-site Education-related Exposures</b>	255	2.6%	3,187	3.7%
Childcare/Preschools	79	0.8%	733	0.9%
K-12 schools	129	1.3%	1,658	1.9%
Colleges/Universities	48	0.5%	844	1.0%
<b>Any Travel-related Exposures</b>	1,139	11.4%	12,923	15.1%
Travel within the United States	779	7.8%	7,790	9.1%
Travel to Mexico	341	3.4%	4,887	5.7%
Travel to Another International Location	10	0.1%	119	0.1%

<sup>a</sup> Potential community exposure settings are defined as indoor or outdoor locations in which cases came within 6 feet of anyone who was not a household member for at least 15 minutes during the 2-14 days prior to symptom onset, even if the case wore a mask or facial covering. Potential exposure settings are places case-patients visited during their exposure period, not confirmed sources of infection. Persons may have visited more than one location.

<sup>b</sup> Effective 11/24/2020, travel exposures are excluded from community exposure settings.

<sup>c</sup> Workplaces may include other community settings (e.g., bar/restaurant, hair salon, retail).

<sup>d</sup> Persons with household exposures reported having close contact with someone in their household with laboratory-confirmed COVID-19, though this was not independently verified. Household exposures may have occurred outside the 2-14 days prior to symptom onset.

January 12, 2021

Data through week ending 1/9/2021

### Emergency Department Data

**Figure 16. Percent of Emergency Department Visit Chief Complaints for ILI, Respiratory Symptoms, Fever, or COVID-like Illness\* by Week, San Diego County**

Categories are not mutually exclusive. \*COVID-like Illness includes fever and cough, shortness of breath, or difficulty breathing OR coronavirus diagnostic codes.

**Figure 17. Percent of Emergency Department Visit Chief Complaints for ILI, Respiratory Symptoms, Fever, or COVID-like Illness\* by Week, San Diego County  
Among Patients Age 60 Years or Older**

Categories are not mutually exclusive. \*COVID-like Illness includes fever and cough, shortness of breath, or difficulty breathing OR coronavirus diagnostic codes.

# COVID-19 WATCH

## Weekly Coronavirus Disease 2019 (COVID-19) Surveillance Report

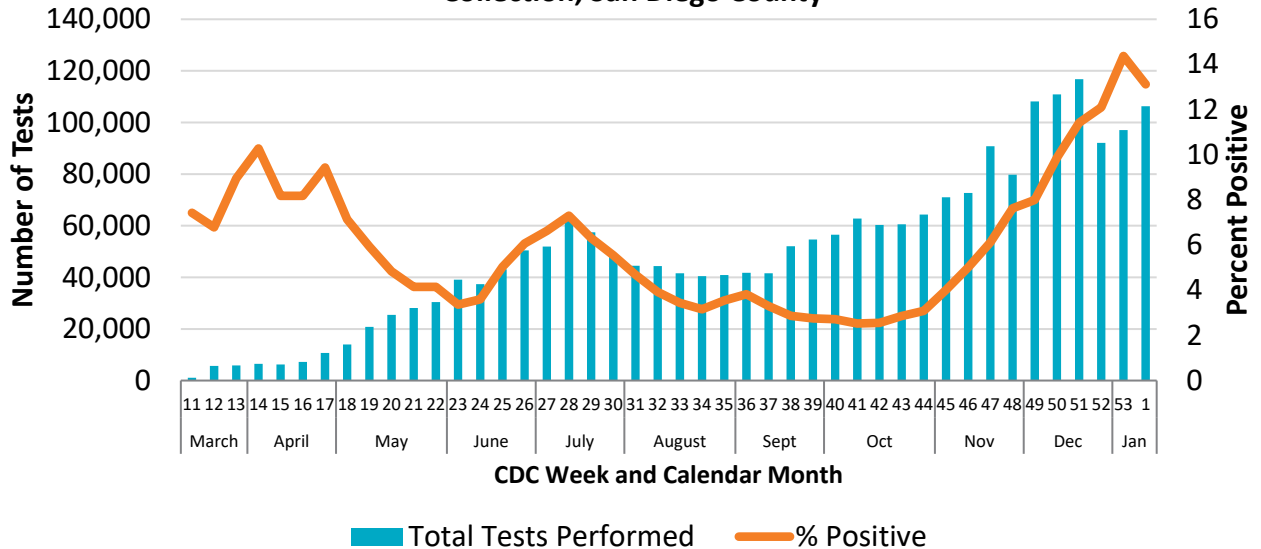

January 12, 2021

Data through week ending 1/9/2021

### COVID-19 Laboratory Test Positivity Rate

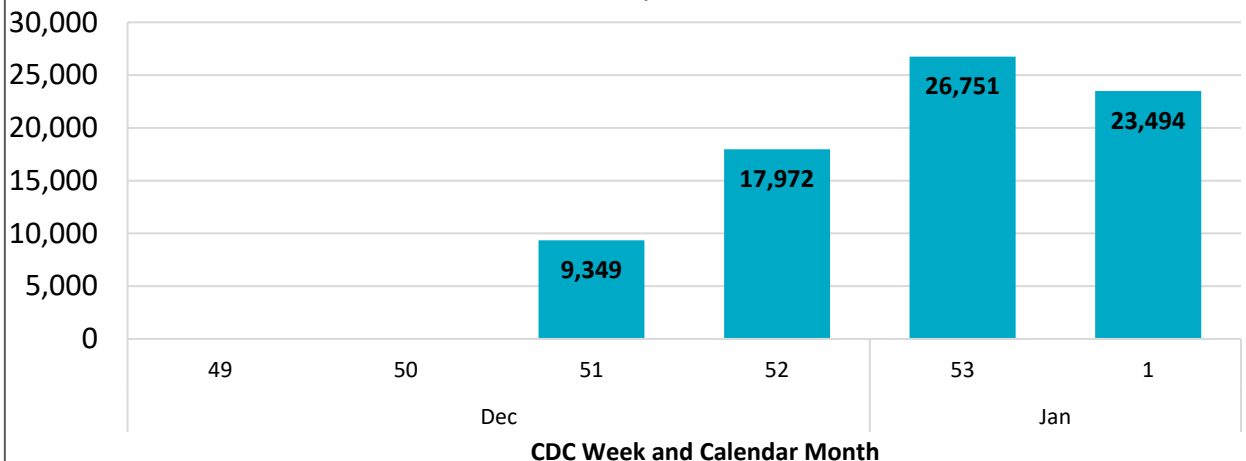

**Figure 18. COVID-19 Testing Volume and Positivity by Week of Specimen Collection, San Diego County**

Includes PCR tests performed by COSD Public Health, hospital, and reference laboratories and reported via Electronic Laboratory Reporting (ELR) and line lists. Excludes invalid, indeterminate, and unsatisfactory results.

### COVID-19 Vaccinations

**Figure 19. Number of COVID-19 Vaccinations Administered\* by Week, N=77,566**

\*Totals only include vaccines that have been recorded in the San Diego Immunization Registry (SDIR). Some healthcare providers, including Veteran's Affairs, the Department of Defense, some tribal entities, and prisons do not report to SDIR.

January 12, 2021

Data through week ending 1/9/2021

### COVID-19 Watch Data Sources

The following sources of data are used to produce this report:

- **COVID-19 case reports:** Medical providers and laboratories report individual cases of PCR-confirmed COVID-19 via fax or electronic laboratory reporting (ELR) to the County of San Diego Epidemiology Unit.
- **COVID-19 deaths:** The County of San Diego requests that all deaths related to COVID-19 be reported for surveillance purposes. Medical facilities may report these deaths directly to the Epidemiology Unit or they may be identified by the Office of Vital Records through death certificate registration. The Epidemiology Unit compiles the data, and only reports deaths that can be verified by a death certificate.
- **Emergency Department Chief Complaint Data:** Electronic emergency department data are reported to the Epidemiology Unit daily. The number of respiratory chief complaints and the number of total emergency department visits are used to calculate percentages for all respiratory-related visits and visits specific to influenza-like illness, fever, and COVID.
- **COVID-19 outbreaks:**
  - Skilled Nursing Facilities: at least one case of laboratory-confirmed COVID-19 in a resident.
  - Non-SNF Institution/Congregate Settings: at least one case of laboratory-confirmed COVID-19 in the setting of  $\geq 2$  cases of acute illness compatible with COVID-19 in residents or staff members of residential congregate settings with onset within a 14-day period.
  - Community settings: three or more laboratory-confirmed COVID-19 cases in different households in a cluster of 2 or more acute illnesses compatible with COVID-19\*\* with onset within a 14-day period.
- **COVID-19 vaccinations:** Number of vaccinations registered in the San Diego Immunization Registry (SDIR) by participating providers. Some providers, including the VA, DoD, other military, some tribal, and prisons do not report to SDIR.
- **SANDAG population estimates, vintage 2019:** Rates are calculated using 2019 population estimates from the San Diego Association of Governments. Rates are not calculated for counts under five cases.

The purpose of the weekly **COVID-19 Watch** is to summarize current COVID-19 surveillance in San Diego County.

***Data are preliminary and may change due to delayed reporting and additional information obtained during investigations.***
