

# COMMUNITY CARES PROGRAM

The Food Bank currently hosts more than 130 food distributions countywide, in partnership with nonprofit agencies who host the food distributions at their locations, serving more than 400,000 people every month.

Do you provide services to help support the basic needs of our neighbors? Many who face food insecurity are also in need of support with **housing, education, healthcare, workforce development, and family support.** Our outreach partners are invited to attend our food distributions and conduct community outreach to individuals and families receiving food assistance from the Food Bank.

Interested in sharing resources to better the lives of individuals and families impacted by food insecurity?
