Type of Boat/Name of the Boat:

Vulcan 9 20 lb. Fixed Shank Scoop Anchor

Description of item for sale:

Galvanized Vulcan Fixed Shank Scoop Anchor. Unique shank and fluke geometry combine with an innovative roll-palm™ to self-right the anchor on the seabed. The V-bulb™ extends fluke ballast downward to gain maximum leverage and efficiency. A larger fluke surface area and higher weight-on-tip than competing designs directly equates to more holding power and security. The omission of a roll-bar, along with a carefully designed shank profile, ensures compatibility on bow rollers. These anchors self-deploy from the majority of bow rollers, ensuring ease of use. High-tensile steel and a unique I+V profile™ shank design provides resistance to bending.

Price:

500.00

Other Details:

Like new - excellent condition. WIth rope.
