Colorado Employment Situation – July 2024

4,800 Nonfarm Payroll Jobs Added in July;
Unemployment Rate Rises to 3.9 Percent

Household survey data

- According to the survey of households, Colorado’s seasonally adjusted **unemployment rate** increased one-tenth of a percentage point in July to 3.9 percent. The **number of unemployed individuals** grew by 1,800 over the same time period to 126,300. The national unemployment rate increased two-tenths of a percentage point to 4.3 percent from June to July.
- Colorado’s **labor force** increased by 5,500 in July to 3,242,900. The share of Coloradans participating in the labor force was 67.9 percent in July, unchanged from the month prior. The U.S. labor force participation rate was 62.7 percent in July, rising one-tenth of a percentage point from the month prior.
- The **number of individuals employed** in Colorado grew by 3,600 in July to 3,116,600, which represents 65.3 percent of the state’s 16+ population. Colorado’s employment-population ratio of 65.3 in July was equal to the month prior. The national employment-population ratio decreased one-tenth of a percentage point from June to July to 60.0 percent.

Establishment survey data

- Employers in Colorado added 4,800 **nonfarm payroll jobs** from June to July for a total of 2,994,000 jobs, according to the survey of business establishments. Private sector payroll jobs grew by 2,500, while government added 2,300 jobs.
- **June estimates** were revised up to 2,989,200, and the over the month change from May to June was a gain of 1,500 rather than the originally estimated increase of 1,400 (monthly revisions are based on additional responses from businesses and government agencies since the last published estimates).
- **The private industry sector with significant job gains** in July was: trade, transportation, and utilities ($\approx 4,100$). Significant over the month private sector **job loss** occurred in manufacturing ($\approx 1,000$).
- **Since July 2023**, nonfarm payroll jobs have increased 43,200, with the private sector growing by 24,800 and government adding 18,400 jobs. The largest **private sector job gains** were in educational and health services ($\approx 11,600$), professional and business services ($\approx 7,400$), and leisure and hospitality ($\approx 6,100$). During that same period, **payroll jobs declined** in construction ($\approx 4,200$), and information ($\approx 2,800$). Colorado's **rate of job growth** over the past year is 1.5 percent, slightly below the U.S. rate of 1.6 percent.
- Over the year, the **average workweek** for all Colorado employees on private nonfarm payrolls increased from 33.4 to 33.5 hours, while **average hourly earnings** grew from \$36.26 to \$37.76, two dollars and sixty-nine cents more than the national average hourly earnings of \$35.07.

###

Informational Section

All Colorado estimates from the establishment and household surveys, including greater geographic detail, are available at [Colorado LMI Gateway](#). Estimates for all states and the nation are available at the [Bureau of Labor Statistics](#).

For data visualizations, visit [CDLE's Labor Market Information on Tableau](#).

The **August 2024 Colorado Employment Situation** will be released at 8:00 AM on Friday, September 20, 2024. The full schedule of release dates for calendar year 2024 estimates is available at [Labor Market Information](#).

Technical Notes

This release provides information on industry employment and labor force statistics for July 2024, the most current estimates available from the Colorado Department of Labor and Employment. The reference period for the establishment and household surveys was the pay period or week that includes the 12th of the month.

The unemployment rate, labor force, labor force participation, total employment, and the number of unemployed are based on a survey of households. The total employment estimate derived from this survey is intended to measure the number of people employed.

Nonfarm payroll jobs estimates are based on a survey of business establishments and government agencies, and are intended to measure the number of jobs, not the number of people employed. Other series based on this survey include private sector average weekly hours, average hourly earnings, and average weekly earnings.

The business establishment survey covers about seven times the number of households surveyed and is therefore considered a more reliable indicator of economic conditions. Because the estimates are based on two separate surveys, one measuring jobs by worksite and the other measuring persons employed and unemployed by household, estimates based on these surveys may provide seemingly conflicting results.

Supplemental Charts & Tables

Supplemental charts and tables are available on the remaining pages.

Colorado and U.S. Unemployment Rates, Over Past Year

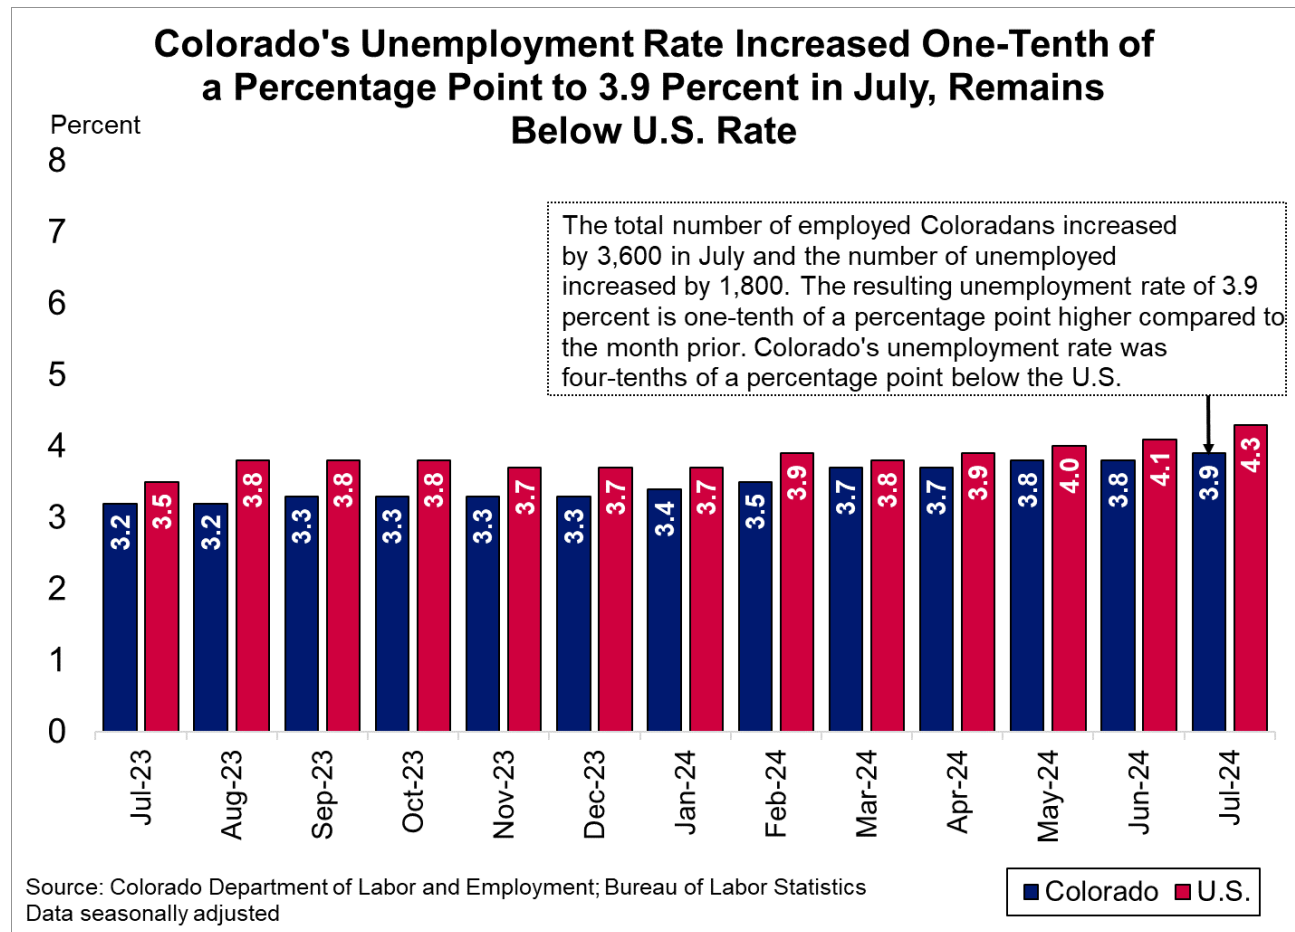

Chart information:

- Colorado's July 2024 unemployment rate was 3.9 percent, while the U.S. rate was 4.3 percent.
- Prior month rates were 3.8 percent and 4.1 percent, respectively.
- The total number of employed Coloradans increased by 3,600 in July and the number of unemployed increased by 1,800, resulting in an unemployment rate of 3.9 percent, one-tenth of a percentage point higher than a month prior.
- Number of unemployed Coloradans grew by 1,800 to 126,300.
- Unemployment rate for Colorado has ranged between 3.2 and 3.9 percent over the past year, while the U.S. range has been 3.5 and 4.3 percent.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Labor Force Participation Rate, Over Past Year

Chart information:

- Colorado's July 2024 labor force participation rate (LFPR) was 67.9 percent, unchanged from the May and June 2024 rates of 67.9 percent.
- A year prior, Colorado's labor force participation rate was 68.5 percent.
- The labor force participation rate for Colorado has ranged between 67.9 percent and 68.5 percent over the past year.
- The July 2024 rate of 67.9 percent is below the February 2020 pre-pandemic rate of 68.7 percent.
- The labor force participation rate estimates the share of Colorado's 16+ population that is in the labor force in a given month.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Employment-Population Ratio, Over Past Year

Chart information:

- Colorado's July 2024 employment-population ratio (EPOP) was 65.3 percent, unchanged from the May and June 2024 rates of 65.3 percent.
- A year prior, Colorado's employment-population ratio was 66.3 percent.
- The employment-population ratio for Colorado has ranged between 65.3 percent and 66.3 percent over the past year.
- The July 2024 ratio of 65.3 percent is below the February 2020 pre-pandemic rate of 66.6 percent.
- The employment-population ratio estimates the share of Colorado's 16+ population that is employed in a given month.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Monthly Change in the Number of Total Nonfarm Payroll Jobs, Over Past Year

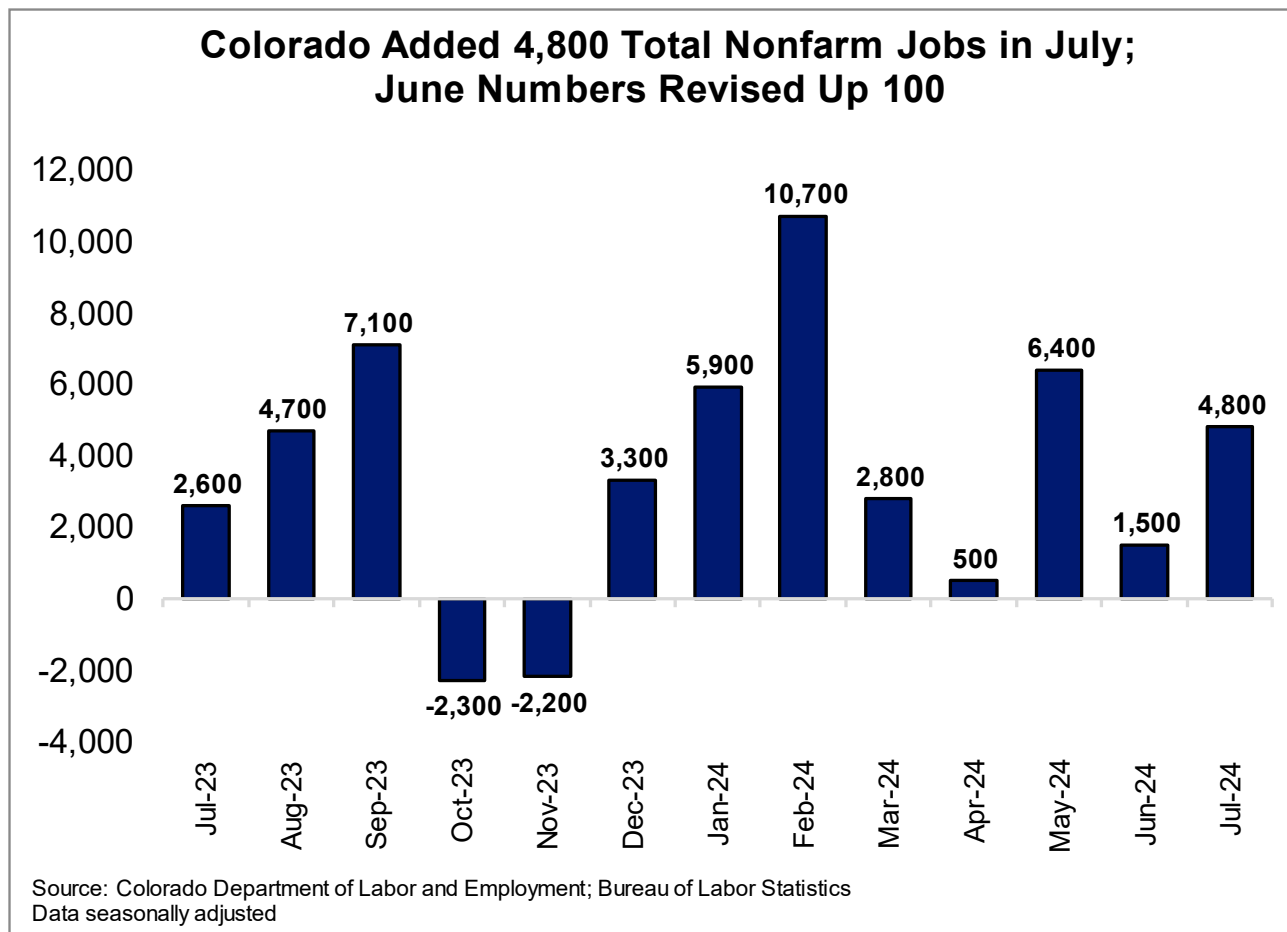

Chart information:

- Colorado added 4,800 total nonfarm jobs in July 2024, while June numbers were revised up by 100. The June revision shows an increase of 1,500 rather than the previously reported increase of 1,400 jobs.
- Since July 2023, the monthly change in Colorado's total nonfarm jobs has ranged between -2,300 (October 2023) and +10,700 (February 2024).
- Out of the 13 months displayed, two have experienced over the month decreases, while over the month increases have occurred in eleven months.
- The average monthly change in Colorado's total nonfarm jobs over the past year is +3,500.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Monthly Change in the Number of Private Sector Payroll Jobs, Over Past Year

Chart information:

- Colorado private sector jobs increased by 2,500 in July 2024, while June numbers were unchanged by the June revision.
- Since July 2023, the monthly change in Colorado’s private sector jobs has ranged between -4,400 (November 2023) and +8,500 (February 2024).
- Out of the 13 months displayed, four have experienced over the month decreases, while over the month increases have occurred in nine months.
- The average monthly change in Colorado’s private sector jobs over the past year is +1,700.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado and U.S. Over the Year Growth Rates for Total Nonfarm Employment, Over Past Year

Chart information:

- Colorado’s over the year growth rate for total nonfarm employment was 1.5 percent in July 2024, lower than the U.S. rate of 1.6 percent.
- Total nonfarm employment growth rates for Colorado and the U.S. a year prior were 2.8 percent and 2.1 percent, respectively.
- Colorado has lagged the U.S. growth rate in two of the past 13 months, has exceeded it in nine months, and was the same in two months. The difference ranged between three-tenths of a percentage point lower (June 2024) and seven-tenths of a percentage point higher (July and September 2023).
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Most Recent Monthly Change in Payroll Jobs at the Industry Supersector Level

Chart information:

- Four Colorado industry supersectors gained jobs in July 2024, six industry supersectors experienced decreases in employment levels, and one industry supersector was unchanged.
- Notable over the month increases occurred in trade, transportation, and utilities (+4,100) and government (+2,300).
- A notable decline occurred in manufacturing (-1,000).
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Change in Payroll Jobs for Most Recent Month, by Industry Sector

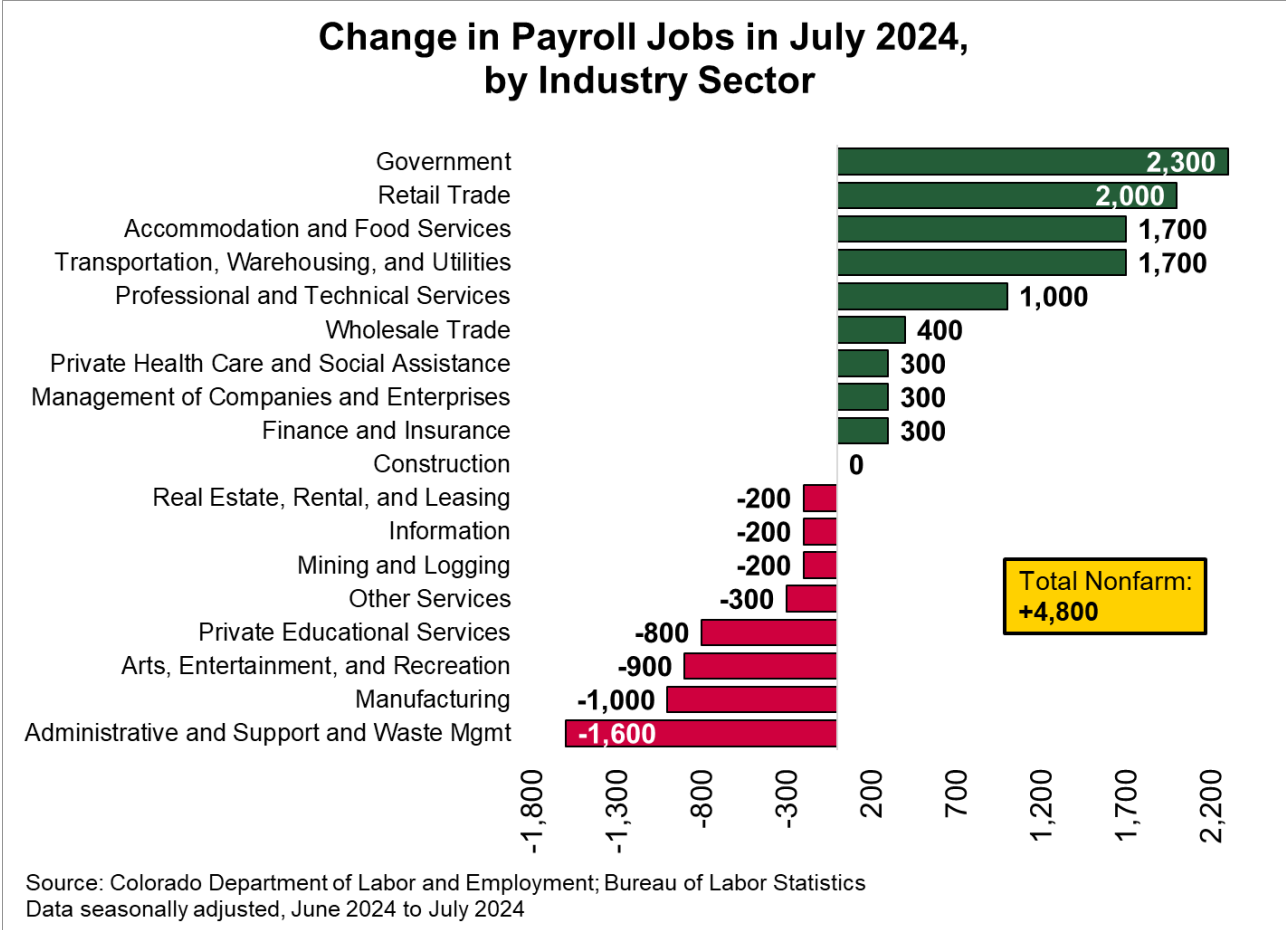

Chart information:

- From June 2024 to July 2024, Colorado added 4,800 nonfarm payroll jobs.
- Government added the most jobs at 2,300.
- Retail trade added the second most jobs over that period at 2,000.
- Accommodation and food services and transportation, warehousing, and utilities added the third most jobs, at 1,700 each.
- The industry sectors with the largest declines were administrative and support and waste management (-1,600) and manufacturing (-1,000).
- Out of Colorado’s 18 industry sectors, nine added jobs in July 2024, eight experienced job loss, and one was unchanged.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Change in Payroll Jobs Over Past 12 Months, by Industry Sector

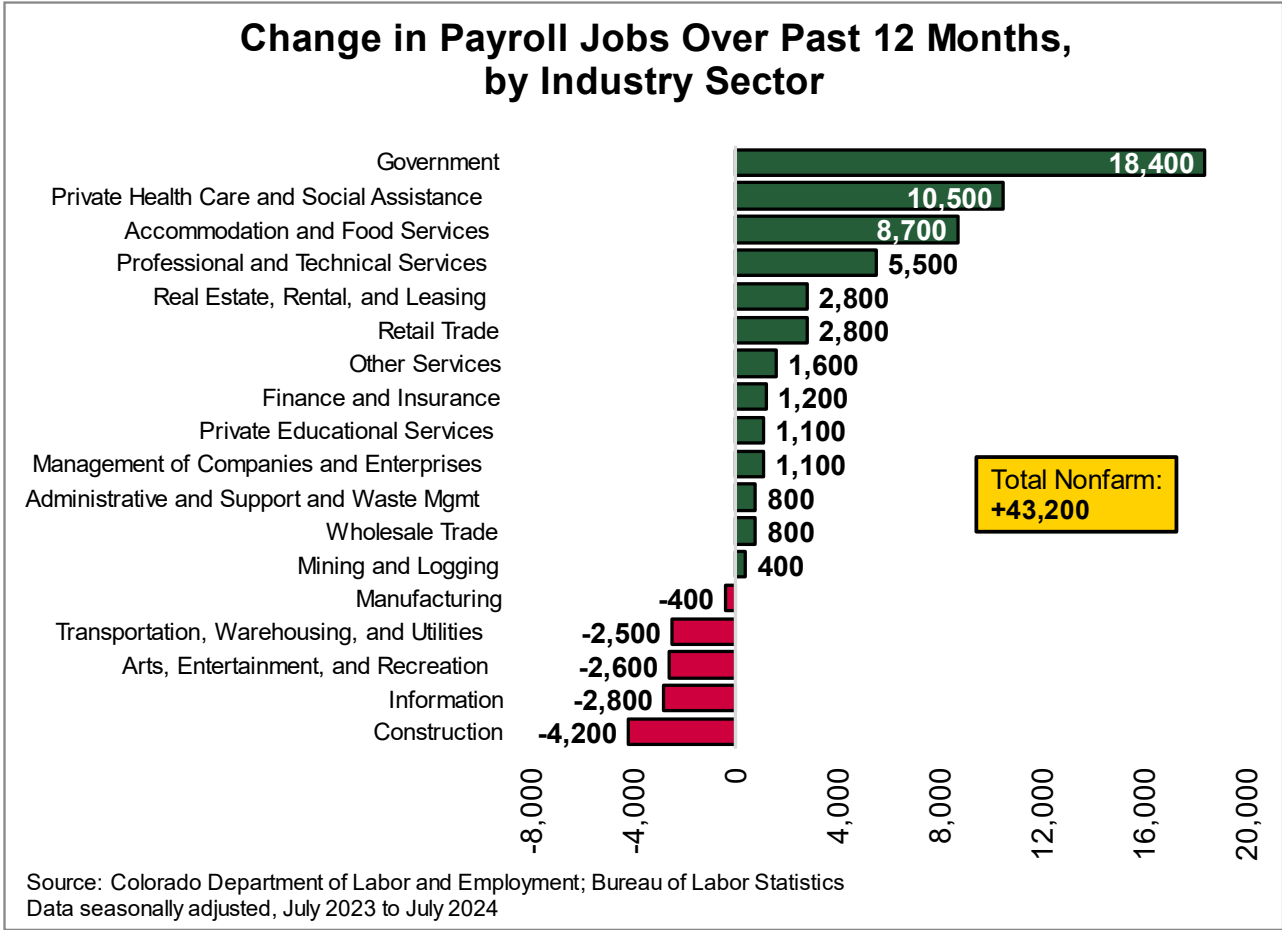

Chart information:

- Over the past 12 months, Colorado has added 43,200 nonfarm payroll jobs.
- Government has added the most jobs at 18,400.
- Private health care and social assistance (+10,500) and accommodation and food services (+8,700) added the second and third most jobs, respectively, over that period.
- The industry sectors with the largest declines over the past year are: construction (-4,200), information (-2,800), and arts, entertainment, and recreation (-2,600).
- Out of Colorado’s 18 industry sectors, thirteen have added jobs over the past 12 months, while five have experienced job loss.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Over the Year Growth Rates, by Industry Sector, for Most Recent Month

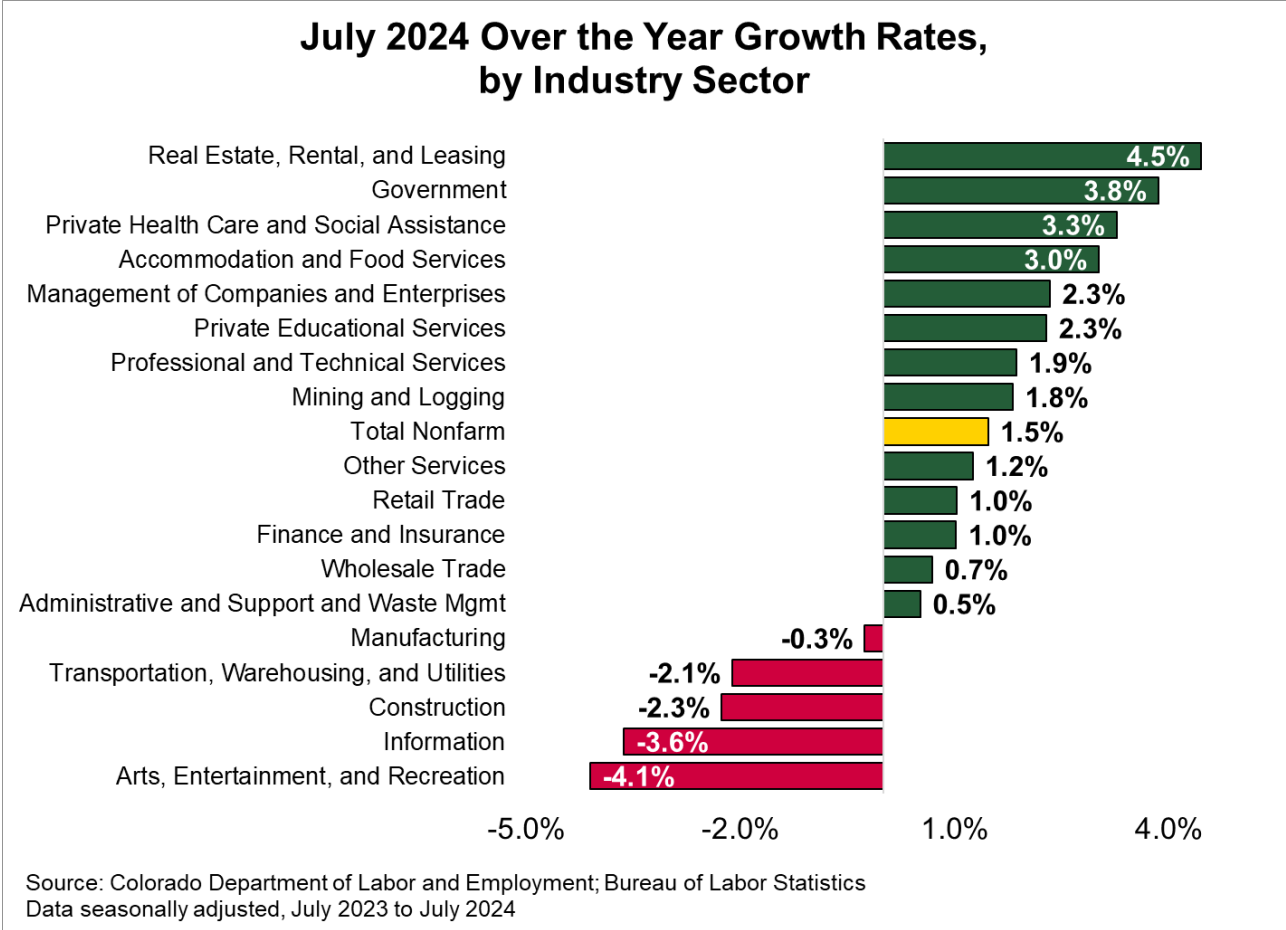

Chart information:

- Colorado’s over the year growth rate for total nonfarm employment was 1.5 percent in July 2024.
- Out of Colorado’s 18 industry sectors, eight had over the year growth rates that exceeded 1.5 percent, while ten fell short of 1.5 percent.
- The industry sectors with the fastest growth rates over the past year are: real estate, rental, and leasing (4.5%), government (3.8%), and private health care and social assistance (3.3%).
- The industry sectors with the slowest growth rates over the past year are: arts, entertainment, and recreation (-4.1%), information (-3.6%), and construction (-2.3%).
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Change in Payroll Jobs Over Past 12 Months, by Colorado Substate Area

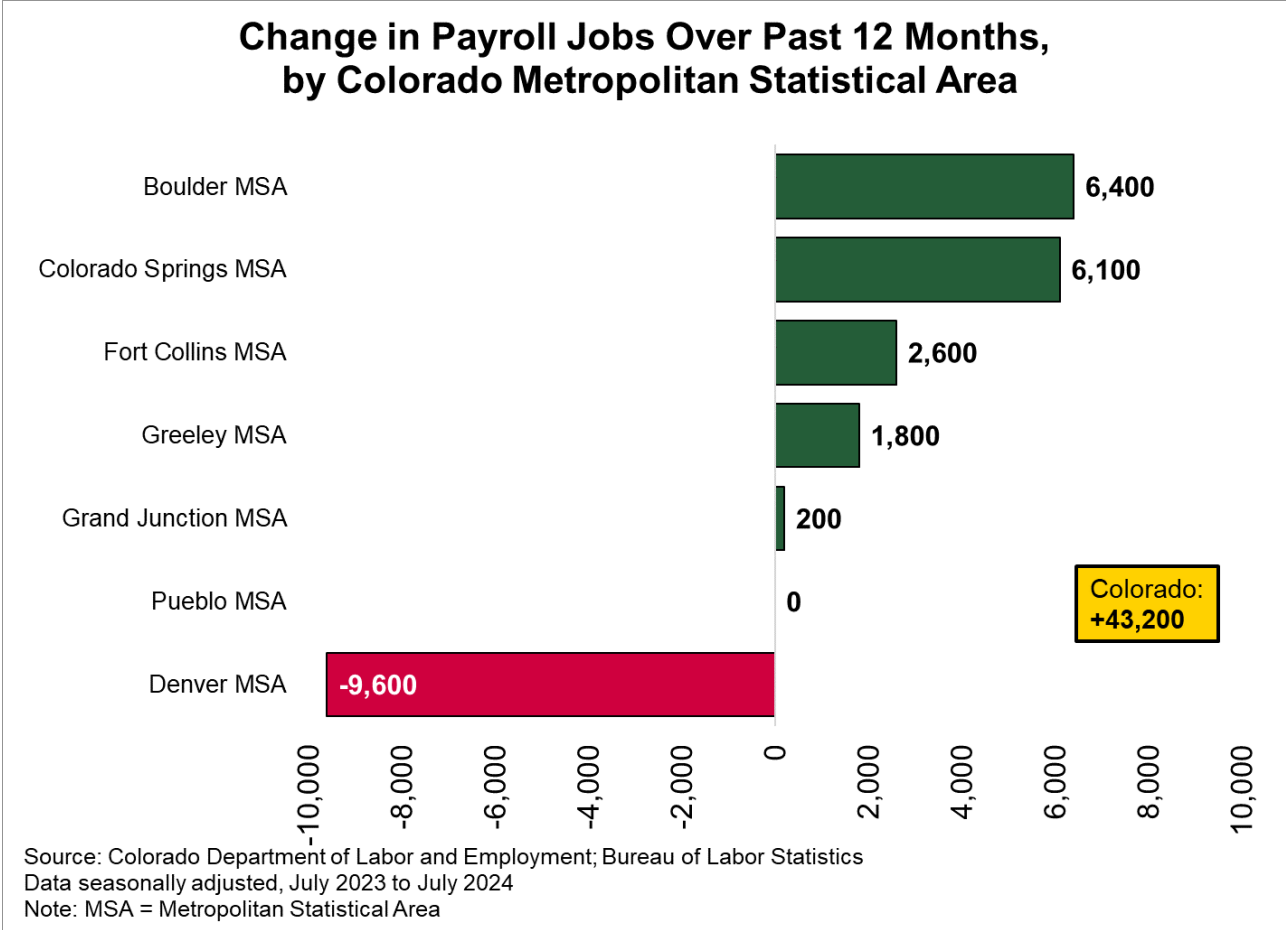

Chart information:

- Over the past 12 months, Colorado has added 43,200 nonfarm payroll jobs.
- Among Colorado’s seven metropolitan statistical areas (MSA), the Boulder MSA added the most jobs (+6,400). Colorado Springs and Fort Collins added the second and third most jobs at 6,100 and 2,600, respectively.
- Greeley (+1,800) and Grand Junction (+200) also added jobs over the past year.
- Pueblo’s number of jobs was unchanged over the year.
- Denver MSA has declined by 9,600 jobs over the past year.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Job Growth for Colorado Low Wage Industries, Over Past Two Years

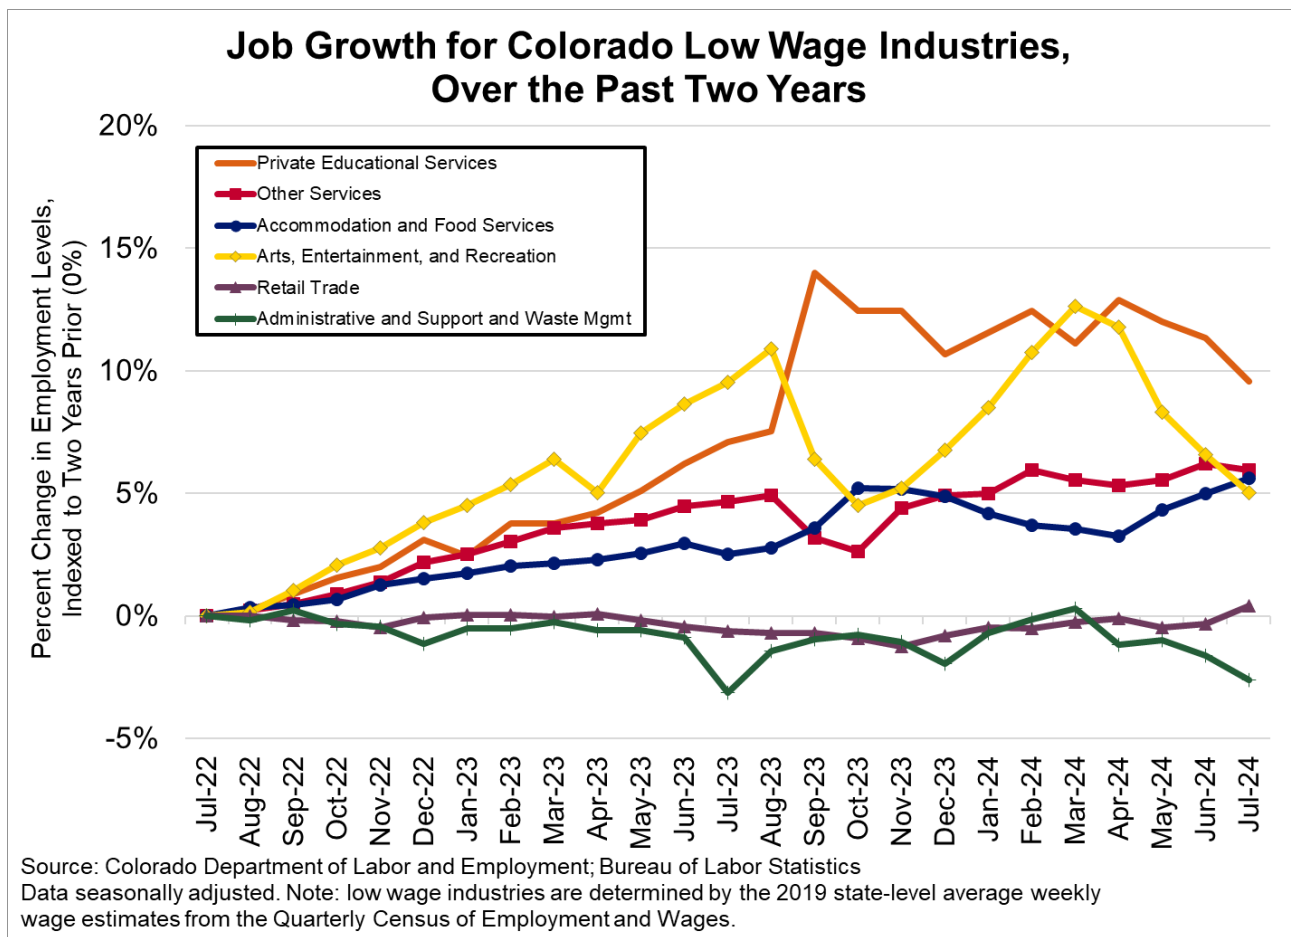

Chart information:

- This chart measures job growth for low wage industries in Colorado over the past two years. The measurement period spans from July 2022 to the most recent month available, July 2024. Values above 0 percent indicate employment levels have increased relative to July 2022, while values below 0 percent indicate employment levels have decreased.
- Low wage industries include: retail trade; administrative and support and waste management services; private education services; arts, entertainment, and recreation; accommodation and food services; and other services.
- As of July 2024, five low wage industries have an index value over 0 percent while one has an index value below 0 percent. Administrative and support and waste management and retail trade have the lowest growth rates over the past two years, at -2.6 and 0.4 percent, respectively. Private educational services has the fastest growth rate during that period, at 9.6 percent.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Job Growth for Colorado Medium Wage Industries, Over Past Two Years

Chart information:

- This chart measures job growth for medium wage industries in Colorado over the past two years. The measurement period spans from July 2022 to the most recent month available, July 2024. Values above 0 percent indicate employment levels have increased relative to July 2022, while values below 0 percent indicate employment levels have decreased.
- Medium wage industries include: construction; manufacturing; transportation, warehousing, and utilities; real estate, rental, and leasing; private health care and social assistance; state government; and local government.
- As of July 2024, five medium wage industries have an index value over 0 percent, while two have an index value below 0 percent. Manufacturing has the lowest growth rate over the past two years, at -1.6 percent. State government has the fastest growth rate during that period, at 12.7 percent.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Job Growth for Colorado High Wage Industries, Over Past Two Years

Chart information:

- This chart measures job growth for high wage industries in Colorado over the past two years. The measurement period spans from July 2022 to the most recent month available, July 2024. Values above 0 percent indicate employment levels have increased relative to July 2022, while values below 0 percent indicate employment levels have decreased.
- High wage industries include: mining and logging; wholesale trade; information; finance and insurance; professional, scientific, and technical services; management of companies and enterprises; and federal government.
- As of July 2024, five high wage industries have an index value over 0 percent, while two have an index value below 0 percent. Information has the lowest growth rate over the past two years, at -7.4 percent. Mining and logging and professional and technical services have the fastest growth rates during that period, at 7.7 percent each.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Job Growth for Colorado Substate Areas, Over Past Two Years

Chart information:

- This chart measures job growth for Colorado substate areas over the past two years. The measurement period spans from July 2022 to the most recent month available, July 2024. Values above 0 percent indicate employment levels have increased relative to July 2022, while values below 0 percent indicate employment levels have decreased.
- Areas included are Colorado's seven metropolitan statistical areas (MSA). Boulder, Colorado Springs, Denver, Fort Collins, Grand Junction, Greeley, and Pueblo are MSAs.
- As of July 2024, all seven areas have an index value of at least 0 percent. Pueblo MSA has the lowest growth rate over the past two years, at 0.9 percent. Greeley MSA has the fastest growth rate during that period, at 7.1 percent.
- These data are seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Percent Change in Average Weekly Earnings Since 2019, by Select Colorado Industry

Chart information:

- Each month on this chart represents a 12-month moving average and measures the percent change in average weekly earnings compared to the 2019 annual average for an industry. Values above 0 percent indicate that wages have grown relative to 2019, while values below 0 percent indicate wages have declined.
- The five Colorado industries displayed in this chart, along with total private sector, are: construction; manufacturing; trade, transportation, and utilities (TTU); professional and business services (PBS); and leisure and hospitality.
- Leisure and hospitality has the steepest change in earnings, at nearly 35 percent, using the most recent 12-month average data available.
- Earnings gains for PBS, total private, and construction range between 20 and just over 24 percent.
- Wage growth lags for TTU and manufacturing, at just under 15 percent and 18 percent, respectively.
- These data are not seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Nominal and Real Percent Change in Colorado's Private Average Hourly Earnings Since 2013

Chart information:

- This chart displays annualized hourly wage data for Colorado from 2013 to 2024.
- Each year contains three key data points: 1) the nominal (not inflation-adjusted) change in private hourly earnings; 2) the change in the consumer price index (CPI) for the Denver-Aurora-Lakewood area, which is used as an inflation measure; and 3) the real (inflation-adjusted) change in private hourly earnings, which simply takes the difference of the first two data points.
- 2024 nominal earnings growth is measured using data for January to July compared to the same period the year prior, while real earnings were adjusted using the over-the-year change in CPI for January, March, May, and July 2024.
- Real earnings have increased by 3.2 percent in 2024, compared to a drop of 1.0 percent in 2023, and a decrease of 0.2 percent in 2022.
- These data are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Involuntary Part-Time Workers as Share of Labor Force, Since 2008

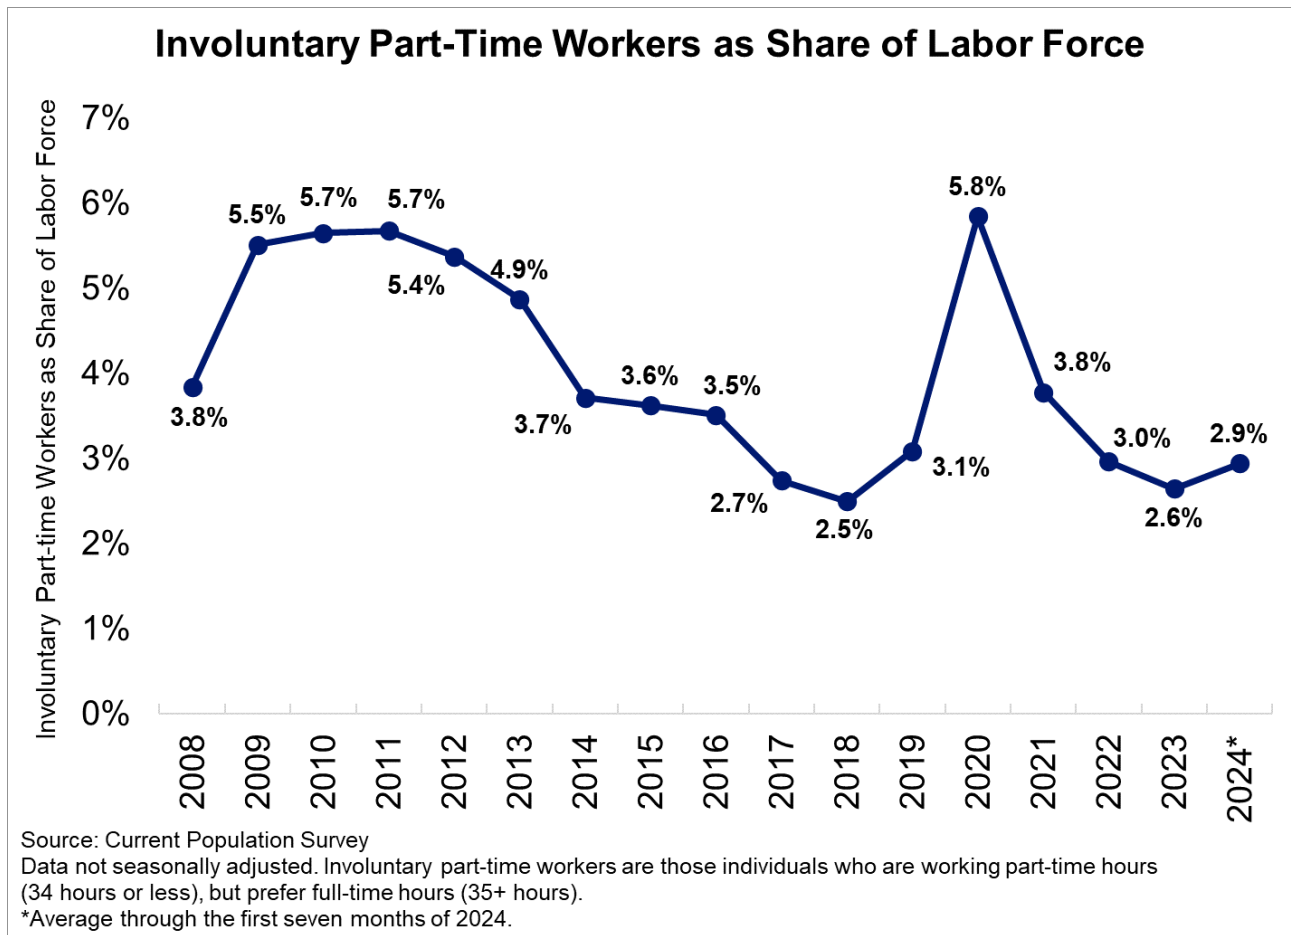

Chart information:

- This chart displays the estimated share of Colorado's labor force that works part-time hours (34 hours or less), but prefer full-time hours (35+ hours), from 2008 to 2024. This metric is known as involuntary part-time or part-time for economic reasons.
- The average involuntary part-time share in 2024 is 2.9 percent, a significant improvement from the rate of 5.8 percent in 2020.
- The 2024 rate of 2.9 percent translates to approximately 94,000 individuals in Colorado.
- For historical context, the involuntary part-time rate exceeded 5.0 percent from 2009 to 2012, during the height of the Great Recession. The rate reached a low 2.5 percent in 2018.
- These data are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.

Colorado Unemployment Rates by Gender, Most Recent 12-Month Period Available vs. Select Periods

Chart information:

- This chart compares Colorado unemployment rates by gender over four select periods. The periods are: 2010 (the height of the Great Recession); 2019 (marking the last year of a long economic expansion); the 12-month period spanning April 2020 to March 2021 (the height of the pandemic); and the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, the male unemployment rate is 4.0 percent, and the female unemployment rate is 3.5 percent. The current male unemployment rate is higher than the 2019 rate of 2.3 percent, and the current female unemployment rate is higher the 2019 rate of 2.9 percent.
- Unemployment rates by gender are vastly improved from their pandemic peaks, which ranged between 7.7 percent and 8.3 percent.
- These data are produced by the Colorado Department of Labor and Employment and come from the Current Population Survey.

Colorado Unemployment Rates by Race and Ethnicity, Most Recent 12-Month Period Available vs. Select Periods

Chart information:

- This chart compares Colorado unemployment rates by race and ethnicity over four select periods. The periods are: 2010 (the height of the Great Recession); 2019 (marking the last year of a long economic expansion); the 12-month period spanning April 2020 to March 2021 (the height of the pandemic); and the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, the Black unemployment rate is 7.6 percent, the White unemployment rate is 3.4 percent, and the Hispanic unemployment rate is 5.0 percent. The 2019 rates for those groups were 4.0 percent, 2.4 percent, and 3.4 percent, respectively.
- Unemployment rates by race and ethnicity are vastly improved from their pandemic peaks, which ranged between 7.3 percent and 12.5 percent.
- These data are produced by the Colorado Department of Labor and Employment and come from the Current Population Survey.

Colorado Unemployment Rates by Educational Attainment, Most Recent 12-Month Period Available vs. Select Periods

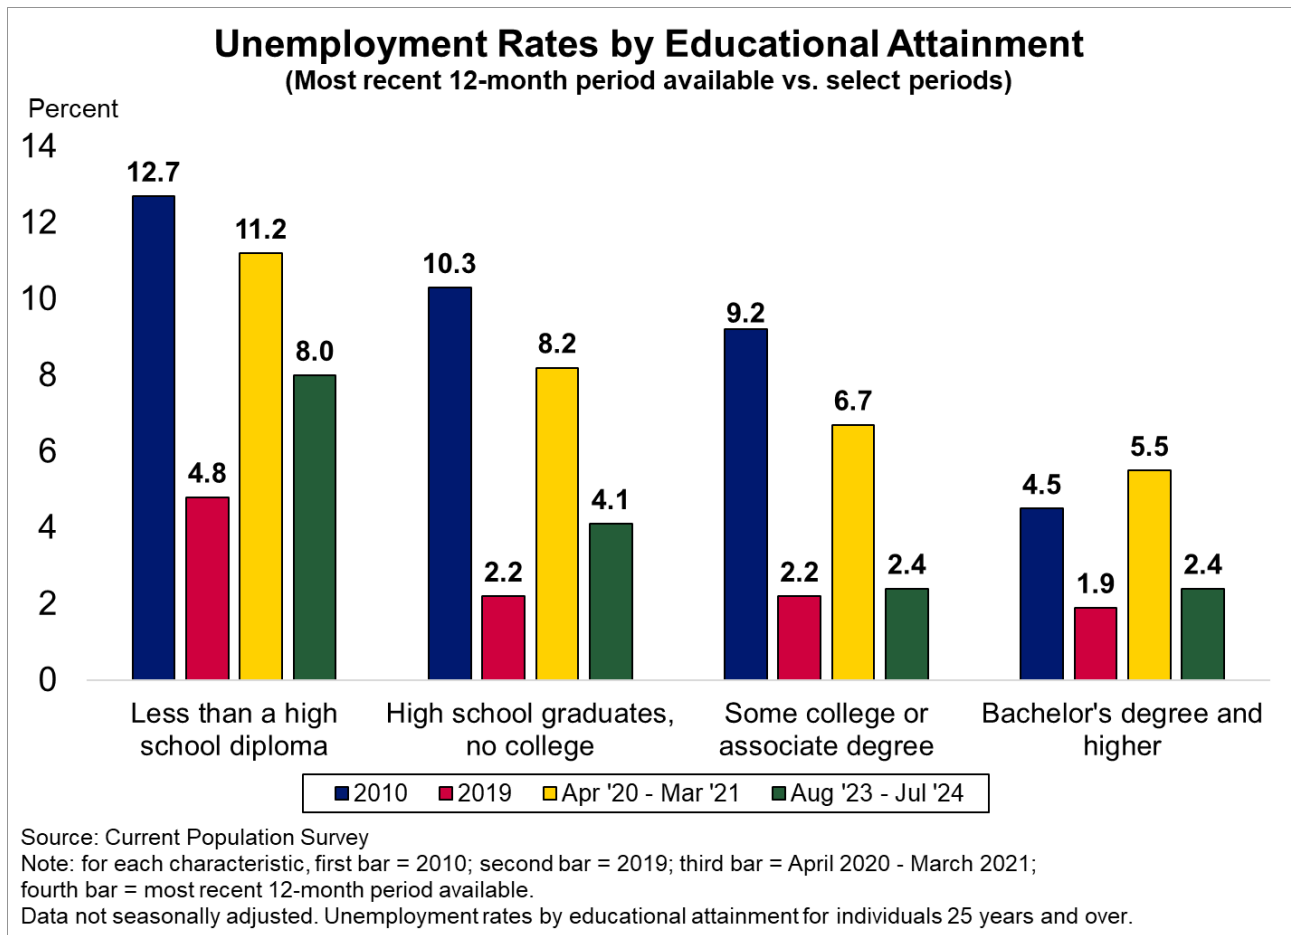

Chart information:

- This chart compares Colorado unemployment rates by levels of education over four select periods. The periods are: 2010 (the height of the Great Recession); 2019 (marking the last year of a long economic expansion); the 12-month period spanning April 2020 to March 2021 (the height of the pandemic); and the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, unemployment rates by education level are: less than a high school diploma (8.0 percent); high school graduates, no college (4.1 percent); some college or associate degree (2.4 percent); and bachelor's degree and higher (2.4 percent). Respectively, those rates in 2019 were: 4.8 percent; 2.2 percent; 2.2 percent; and 1.9 percent.
- All of the unemployment rates by levels of education are vastly improved from their pandemic peaks, which ranged between 5.5 percent and 11.2 percent.
- These data are produced by the Colorado Department of Labor and Employment and come from the Current Population Survey.

Colorado Unemployment Rates by Age Group, Most Recent 12-Month Period Available vs. Select Periods

Chart information:

- This chart compares Colorado unemployment rates between seven age cohorts over four select periods. The periods are: 2010 (the height of the Great Recession); 2019 (marking the last year of a long economic expansion); the 12-month period spanning April 2020 to March 2021 (the height of the pandemic); and the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, unemployment rates by cohort are: 16-19 (13.5%); 20-24 (6.9%); 25-34 (3.4%); 35-44 (3.0%); 45-54 (2.7%); 55-64 (2.5%); and 65+ (3.2%). Respectively, those rates in 2019 were: 7.7 percent; 3.4 percent; 2.4 percent; 2.3 percent; 2.1 percent; 2.5 percent; and 1.4 percent.
- All of the unemployment rates by age cohort are vastly improved from their pandemic peaks, which ranged between 5.5 percent and 16.3 percent.
- These data are produced by the Colorado Department of Labor and Employment and come from the Current Population Survey.

Colorado Ages 25 to 54 Labor Force Participation Rates and Employment-Population Ratios, Most Recent 12-Month Period Available vs. Select Periods

Chart information:

- This chart compares Colorado labor force participation rates (LFPR) and employment-population (EPOP) ratios for individuals between the ages of 25 and 54, over seven select periods. The periods were selected by years with growing state economies (2001, 2006, and 2019), years with economic downturns (2003, 2010, and 2020), and the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, the 25-54 LFPR is 86.9 percent, while the 25-54 EPOP is 84.2 percent. LFPR currently is historically high, surpassing the 2001, 2006, and 2019 periods, while EPOP exceeds 2001 and 2006 rates and is five-tenths of a percentage point lower than 2019.
- The current 25-54 LFPR and EPOP rates are vastly improved from their 2020 levels, which were at 85.5 percent and 79.9 percent, respectively.
- These data are produced by the Colorado Department of Labor and Employment and come from the Current Population Survey.

Labor Force Participation Rates, Ages 25 to 54, U.S. and Colorado

Chart information:

- This chart displays the labor force participation rate of the United States and Colorado for individuals between the ages of 25 and 54 (also known as prime age) from 2000 to the most recent 12-month period available (August 2023 to July 2024).
- For the most recent 12-month period available, the labor force participation rates for prime age workers in the United States and Colorado were 83.5 percent and 86.9 percent, respectively.
- Colorado's prime age labor force participation rate is consistently higher than that of the United States, ranging between 1.2 percentage points higher (2000) and 4.2 percentage points higher (2017, 2019, and 2021).
- These data are not seasonally adjusted and are produced by the Colorado Department of Labor and Employment and the Bureau of Labor Statistics.
