

88th Street Reconstruction

Work has begun on the **88th Street Reconstruction project**. 88th Street is now **closed** to through traffic from Shamrock Drive to Campus Drive in Louisville. **This closure will last until mid-August.**

During this closure, the pedestrian flashing beacon on 88th Street north of Shamrock Drive, and the pedestrian traffic signal just south of US 36 will both be inoperable. Pedestrians may safely cross 88th Street at the Rock Creek Parkway roundabout. The sidewalk along the west side of 88th Street will remain open.

This construction work is currently scheduled to be completed by this fall. The limits of the project are between Rock Creek Parkway and the US 36 bridge approach.
