

88th Street Reconstruction

Work is in full swing on the **88th Street Reconstruction** project. 88th Street is closed to through traffic from Shamrock Drive to Campus Drive in Louisville. **Paving should occur in early August with reopening of the road in mid-August.**

During this closure, the pedestrian flashing beacon on 88th Street north of Shamrock Drive, and the pedestrian traffic signal just south of US 36 will both be inoperable. Pedestrians may safely cross 88th Street at the Rock Creek Parkway roundabout. The sidewalk along the west side of 88th Street will remain open.
