New Advances in Baffle Box Design

Speakers' Bios:

Bill Waddill, AICP, PLA - Chief Implementation Officer, Bay Park Conservancy, Inc.

Bill is a certified planner and landscape architect with the Bay Park Conservancy and has over 35 years of experience managing the design, public engagement, and implementation process for both public and private projects, including the Bradenton Riverwalk, Siesta Beach Park, and Baker Park in Naples.

Trenton Strackbein, PE - Civil Engineer, Kimley-Horn

Trenton is a Civil Engineer at Kimley-Horn in Sarasota. He specializes in stormwater management design with wide ranging expertise including stormwater systems serving new development, parks, and stormwater treatment systems. In addition to his work on the Bay Park, Trenton is the Engineer of Record on the forthcoming Bobby Jones Environmental Park.
