ORDER APPROVING CONCEPTUAL CLOSURE PLAN

The Florida Department of Environmental Protection (Department) hereby issues this Order Approving Conceptual Closure Plan (Order) to Donica Receivership Services (Receiver) and finds:

1. The Department is the administrative agency of the State of Florida having the power and duty to protect Florida’s air and water resources and to administer and enforce the provisions of Chapter 403, Florida Statutes (Fla. Stat.), and the rules promulgated and authorized in Title 62, Florida Administrative Code (Fla. Admin. Code). The Department has jurisdiction over the matters addressed in this Order.

2. The Receiver was appointed pursuant to an August 25, 2021, Agreed Order on Motion to Appoint Receiver (Receiver’s Order) under Civil Action No. 2020-CA-004459-AX in the Manatee County circuit court, and ordered to: (a) “maintain, manage and close as efficiently and expeditiously as possible the Facility in accordance with all applicable State and Federal laws”; and (b) “develop a closure plan (consistent with all applicable laws and rules),” for submittal to the Department.

3. The Facility is situated on real property located at 13300 U.S. Highway 41 North, Palmetto, FL 34221-8661, in Manatee County, Florida, at approximately, Latitude: 27° 38’ 4.82” North and Longitude: 82° 32’ 2.95” West.

4. Under the Receiver’s Order, the Receiver is authorized and directed to preserve or obtain whatever licenses, permits or authorizations as are necessary in the preservation,
maintenance, management, or closure of the Facility, and is also authorized to take any action necessary to comply with any environmental or other law governing the Facility.

WHEREFORE IT IS ORDERED:

6. The Conceptual Plan is hereby approved for the closure of the portions of the Facility as therein specified, subject to the conditions and requirements of this Order and the closure performance requirements of Rule 62-673.610, Fla. Admin. Code.

7. The Receiver shall submit a detailed closure design analysis, construction drawings, and technical specifications (Detailed Closure Design Report) to the Department for review, including any sequence and timeframes for completion thereof, for each element or phase of closure, for review and approval by the Department, at least 30 days prior to initiation of construction activities. Such Detailed Closure Design Reports shall be consistent with the Conceptual Plan, and the closure performance requirements of Rule 62-673.610, Fla. Admin. Code and incorporate the following information as applicable to the phase or work areas included in each such Detailed Closure Design Report:

   a. improvements or modifications to the Facility as specified in Addendum 1 of the Conceptual Plan to contain the 100-year, 24-hour storm rainfall, or as necessary to provide erosion protection for any modeled controlled overflow locations for non-contact stormwater based on the 100-year, 24-hour storm event;

   b. verification of dike elevations in all downstream Facility stormwater conveyances from the corresponding proposed closure areas, and, where existing dikes are at or below elevations used for Conceptual Plan hydrologic and hydraulic analyses, confirmation that such dikes are being (or have been) restored or otherwise raised to provide for modeled stormwater conveyance conditions;

   c. a review and plans for modification of all stormwater drainage connections discharging to Basin 2 at the Facility to ensure that all such connections provide outlet erosion protection where needed and elevations accommodating
maintenance of a minimum of 2 ft. of soil cover above the liner at the point of discharge into Basin 2.

8. The Department may request additional information upon review of the Detailed Closure Design Report. Receiver shall only initiate closure construction activities associated with a design element or phase, after receipt of written approval from the Department.

9. Receiver shall revise any submittal, specification, or schedule in accordance with the Department's written comments or requests for additional information, within thirty (30) days of Receiver’s receipt of the Department's written comments or requests, unless such comments or requests specify an alternative due date, in which case Receiver shall submit to the Department any revised submittal, specification, or schedule in accordance with the due date specified by the Department. Revised submittals are also subject to approval, approval with conditions and/or modifications, or disapproval by the Department following the same approval procedures for the previous submittals detailed above.

10. Upon receipt of the Department’s written approval, or approval with conditions and/or modifications, Receiver shall implement any approved closure work plan in accordance with the specifications and provisions contained therein.

11. Receiver shall submit monthly progress reports to the Department including the status of planned closure activities, and a monthly updated water balance projection, including corresponding water removal rates for closure, and projected future closure schedule dates.

12. Receiver shall submit a certification of completion of construction following completion of construction of each Department approved element or phase of closure, within 30 days of completion. As built record drawings shall be submitted to the Department within 90 days of completion of construction.

13. The Receiver shall be responsible for oversight of its contractor’s performance of the closure actions required herein, including oversight of such actions and any decisions made in the field by the Receiver or its representatives, to ensure such performance of work herein is consistent with the plans, work plans, or submittals approved by the Department pursuant to this Order. In any case where there are substantial deviations from an approved
plan, or where circumstances arise that pose an immediate threat to health or the environment, the Receiver shall notify the Department within 24 hours of such discovery and provide a written summary of the deviations or circumstances to the Department within five business days. Applicable portions of technical documents submitted by the Receiver to the Department shall be signed and sealed by a professional engineer registered pursuant to Chapter 471, Fla. Stat., or a professional geologist registered pursuant to Chapter 492, Fla. Stat., certifying that the applicable portions of the technical document and associated work comply with standard professional practices, this chapter and other rules of the Department, and any other applicable laws and rules governing the profession.

14. Except as otherwise provided, all submittals and reports required by this Order shall be sent to:

Phosphate Management Program, attention Vishwas Sathe, Environmental Administrator or successor, Department of Environmental Protection
13051 N Telecom Parkway, Suite 101
Temple Terrace, Florida 33637-0926

15. Electronic mail, for submittals other than payments, may be provided in lieu of paper where appropriate, and sent to the Phosphate Management electronic mailbox: dwrmiw.pm@dep.state.fl.us.

16. The Department shall have access to the Facility and the Property at reasonable times for the purpose of determining compliance with the terms of this Order and the rules and statutes administered by the Department.

17. Receiver shall publish the following notice in a newspaper of daily circulation in Manatee County, Florida. The notice shall be published one time only within 15 days of the effective date of the Order. Receiver shall provide a certified copy of the published notice to the Department within 10 days of publication.
