NOTICE OF INTENT TO AWARD A SOLE/SINGLE SOURCE PROCUREMENT

Sole/Single Source No: SS NO. 26-55

Date Posted: January 27, 2026

Written Response Due Date: February 3, 2026

This is not a formal solicitation and there are no submissions required. The proposed contract action is for product or services for which the City intends to negotiate and award with only one contractor/vendor under the authority of and in accordance with Florida State Statute 287.057(5)(c). Any responses received as a result of this Notice of Intent shall be considered solely for the purpose of determining whether to conduct a competitive procurement. Responses will not be considered as proposals, bids, or quotes.

- **DESCRIPTION OF SERVICE/PRODUCT: Software subscription**
- **AMOUNT** (This is an acquisition with an estimated value of): **\$15999.00**
- **VENDOR: TRM LABS INC**

Interested firms or individuals may identify their interest and capability to respond to the requirement by submitting in writing their name, address, point of contact, telephone number, e-mail, and a statement regarding capability to provide the specified procurement per the attached specifications. Interested firms will be considered only if they respond with clear and convincing documentation that they are capable of meeting or exceeding the requirements stated herein. All responses received within seven (7) calendar days after the date of publication of this synopsis will be reviewed by the City. A determination by the Procurement Manager not to compete this proposed action based on the responses to this notice is solely within the discretion and approval of the Procurement Manager and City Manager.

All sole/single source purchases exceeding the formal threshold indicated in the policies and procedures manual will require Commission Approval.

All responses must be in writing and returned to **ATTENTION: PURCHASING**, City of North Port, 4970 City Hall Boulevard, Suite 337, North Port, Florida, 34286 or by: Fax 941-429-7173, or by e-mail purchasing@northportfl.gov. Note the number of the Sole Source Information inquiry on documentation.

Information regarding this Intent may be viewed and downloaded from DemandStar's website at www.demandstar.com. Links to DemandStar are also available from the City website at www.northportfl.gov. This Notice of Intent is posted on the City FTP site at <https://northportfl.gov/files>. If you have any questions, concerns, or problems accessing this request using the link, please contact Michael White, Contract Administrator I, at 941.429.7174. Request for additional information or clarification regarding the specifications must be sent via facsimile to 941.429.7173 or via email to purchasing@northportfl.gov. No verbal requests will be honored.

 Amendment**Description ***

TRM Labs' Forensics Pro software is a tool designed for blockchain investigation and forensic analysis. It is used to track, investigate, and analyze cryptocurrency transactions across various blockchains. This tool is particularly helpful for organizations like financial institutions, law enforcement, and regulatory bodies, as it helps them identify and mitigate risks associated with illicit activities in the crypto space, such as money laundering, fraud, and theft. This is an annual subscription.

Section 2-407 of the City of North Port Procurement Code provides guidelines for determining if good(s) or service(s) is/are a sole/single source. **All Sole/Single source requests will be posted on DemandStar & the City's Purchasing site for seven (7) business days.**

Exemption Explanation (?) *

This is an annual subscription for crypto-currency investigations software that is not available from any reseller or in a similar product from any other blockchain analytics provider.

Steps taken to verify these goods and/or services are not available elsewhere (?) *

N/A; This is a sole source purchase.

Other vendors that were contacted (?) *

N/A; This is a sole source purchase.

Grant? * Yes No**Technology Related? (?) *** Yes Renewal No**Technology type ***

Software, Subscription

Exemption**Reason ***

Attach documentation from the manufacturer certifying the vendor selected is the only distributor/dealer/contractor for the products or services in question and/or holds the production, unique capability, copyrights, trademark, and/or patent to the item, and check the following applicable statement(s):

Patent, copyright or unique design restrictions. (Sole Source)

Proprietary rights in technical data and/or product formulations (e.g. cleaning compounds, lubricating oils, paint, etc.), which can only be determined through extensive laboratory analysis and examination. (Sole Source)

- Only producer, such as utility supplier or construction material supplier, that will meet the specialized needs of the department or perform the intended function. (Sole Source)

Direct replacement parts, equipment or supplies that must be compatible with original equipment already installed but available only from the original equipment manufacturer. Most manufacturers have more than one dealer or distributor for their products. When this is the case, competition between dealers and/or distributors may be possible, eliminating the "sole or single source" restriction. (Single Source)

When tests and/or demonstrations of equipment, supplies, part, etc. under actual operating conditions reveal superior quality, performance, design or other characteristics in a brand product(s), which is available from only one source. Testing must be performed as often as practical. (Single Source)

Purchases for a brand product are to be made from one selected supplier, even though there are other suppliers that provide similar products. Options, such as pricing, availability, servicing, have been vetted and a supplier has been chosen that best meets the City's needs. (Single Source)

Maintenance, repair services or warranty which require specialized test equipment, procedures, and technical expertise available only from the original equipment manufacturer or authorized/licensed dealer/field service representative. (Single Source)

The part(s)/equipment are required to permit standardization and operating efficiencies within the organization and the parts and equipment are only available through a sole or single source. If competition is available, the parts and equipment must be competed. For brand-specific items, quotes should still be obtained. (Standardization)

Other: None or some of the above apply. Provide detailed justification below.

TRM Labs, Inc.
450 Townsend Street
San Francisco, CA 94107

Proprietary and Confidential

12/02/2025

TRM Labs ("TRM") provides the next-generation blockchain intelligence software for cryptocurrency investigations. TRM's mission is to prevent cryptocurrency fraud and build a safer financial system for billions of people. TRM's blockchain intelligence platform runs on proprietary source code and data, and it is not available from any reseller or in a similar product from any other blockchain analytics provider.

Below is a summary of the unique features of TRM's proprietary technology solution that distinguish the tool from other blockchain analysis companies:

- TRM Labs is committed to delivering real-world impact through a series of strategic initiatives, including:
 - T3 Financial Crime Unit (T3 FCU): A first-of-its-kind public-private partnership to freeze illicit funds on the TRON blockchain.
 - Beacon Network: The first end-to-end financial crime kill chain for illicit cryptoassets.
 - Interested Investigator Program: Connecting global investigators for case collaboration.
 - Chainabuse: The largest public platform for reporting and alerting on crypto crime.
 - Snap Leads Program: Delivering near-real-time actionable intelligence to drive operational success.
- TRM's visualization of behavioral Signatures™ is the next-generation solution for proactively identifying suspicious patterns. It enables law enforcement officers to generate leads, accelerate investigations, and ensure no investigative angle is left unconsidered. This includes identifying and auto-tracing patterns such as Web Flow, Graphon, Peeling Chain, Chain-Hopping, and other typologies.
- TRM enables multi-chain tracing, allowing operators to trace all assets and all blockchains in a single graph, including cross-chain indirect exposure.
- TRM is the only solution that enables automated tracing across over 70 million unique digital

assets. This includes support for the most bridges, such as Avalanche Bridge, THORSwap, Ren Bridge, Binance Bridge, and others. TRM has built automated infrastructure to add support for new bridges quickly.

- TRM Labs supports 50 blockchains with enhanced investigative capabilities, providing advanced risk analysis for cross-chain tracing. For sanctions screening, TRM Labs offers coverage across over 105 blockchains, with new chains regularly added to ensure comprehensive monitoring and compliance. TRM is the only product to expose attribution sources and confidence scores for each piece of attribution in the product (“Glass Box Attribution”).
- TRM is the only product that enables investigators to trace at both the address and cluster/entity level in their Forensics product. This includes tracing with requisite transactional details (e.g., block number, size, transaction fee, weight, lock time, etc.) and allows universal tracing between clusters and addresses in the same graph.
- TRM is the only provider of Ethereum IP intelligence and offers extensive IP observations across Bitcoin, Bitcoin Cash, Litecoin, Ethereum, TRON, and Dash.
- TRM has comprehensive demixing capabilities, including in-tool auto-demixing and asynchronous script-based demixing on-demand.

TRM continues to evolve its technology in close partnership with mission-driven users to provide unmatched capabilities in crypto crime prevention and investigation.

If you have any questions, do not hesitate to contact me.

Sincerely,

Patrick South

What Makes TRM Different

Largest and most trusted dataset

Connect on-chain activity with the real-world with \$34.9B of illicit activity attributed, sanctions coverage, and 40+ threat categories

Automated cross-chain tracing

One-click tracing through 50 blockchain pairs and over 15 million cross-chain swaps—all in a single graph

“Glass box” or transparent attribution

View the source and confidence level for each attribution, enabling parallel reconstruction and conviction on quality of insights

Multi-level tracing in one graph

Trace both at the entity/cluster level and uniquely with TRM at the address level, isolating the movement of specific funds

Suspicious pattern detection

Signatures™ automatically uncover suspicious patterns across multiple transactions that might otherwise go unnoticed

Tool agnostic training & certifications

Expand your team’s ability to detect and investigate crypto crime and money laundering from renowned experts

Please be advised that the City of North Port is currently self-insured and all requests for insurance will be assessed accordingly, therefore, you may see some changes from previous requirements.

Based on the description provided to RISK, the attached insurance requirements apply. Please be advised that if the scope has been altered, changed, or increased, the insurance form should be updated and resubmitted to ensure that the City of North Port has adequate protection.

Risk has not copied Purchasing on this form. Once you have received the Certificate of Insurance, please send to RISK with this Insurance Requirements Request Form for Risk approval.

WHEN the City requests to be named additional insured on a policy, the Certificate of Insurance MUST be accompanied by a copy of the additional insured endorsement.

Subject: North Port Police Department - Renewal
Importance: High

Good afternoon,

We received the North Port Police Department's yearly renewal (Quote 2189) and there are a few things I have completed prior to our purchase order issuance.

To update your status as a vendor with the City of North Port Police Department, we require the following forms to be completed and returned. Please review the attached and utilize the list below and ensure all items are checked off before returning your forms to me:

Required Forms:

	Conflict of Interest Form
	Foreign Entity of Concern Affidavit
	Human Trafficking Certification
	Scrutinized Company Certificate
	Vendor Information Form
	Certificate for E-Verify
	IRS Form W-9

Please complete, sign, and return the forms at your earliest convenience. These documents are necessary to keep your vendor status current.

If you have any questions or need assistance completing the forms, feel free to contact me at 941-429-7381 or crodgers@northportpdf.gov.

Thank you for your prompt attention to this matter, and we look forward to continuing our partnership.
