

GOOD NEIGHBOR AUTHORITY

IDAHO PROGRESS REPORT

Update December 2024

Idaho's GNA

The goal of GNA in Idaho is to utilize state processes and personnel to assist the USDA Forest Service and Bureau of Land Management to increase the pace and scale of federal forest management projects. These cooperative efforts help improve forest health, reduce threats to communities and watersheds from catastrophic wildfires, create more jobs, and provide a consistent fiber supply to Idaho forest products markets.

Timeline

2015: Idaho Legislature passed Senate Concurrent Resolution 126 requesting the Idaho Department of Lands to develop GNA agreements with federal agencies.

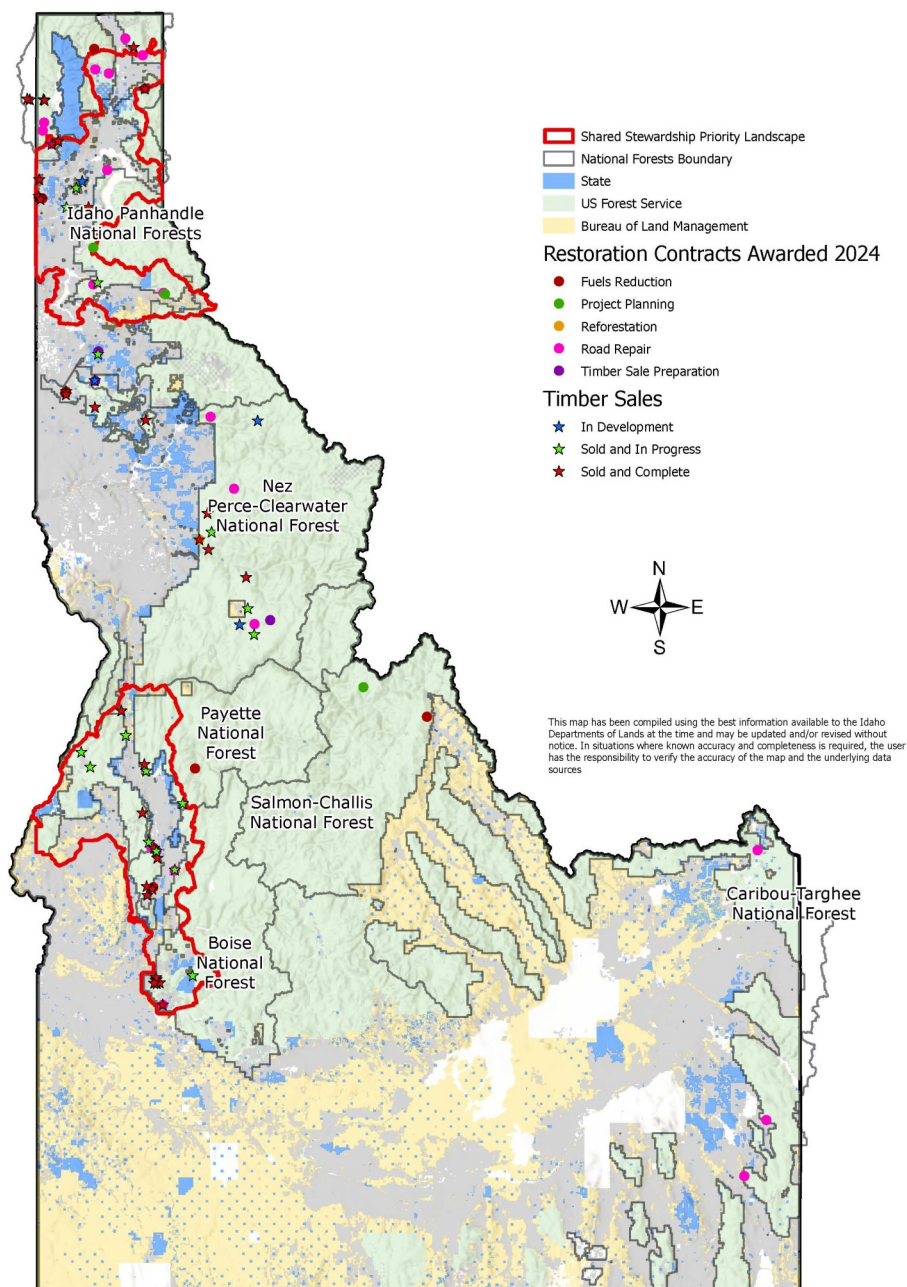

2018: Agreement for Shared Stewardship between the State of Idaho and Regions 1 and 4 of the USFS formalized interagency efforts.

2024: IDL entered into 14 GNA agreements with 6 national forests and the Bureau of Land Management. A total of 59 timber sale contracts were awarded, including over 15,000 acres of treatment. IDL awarded 259 contracts totaling \$16.4 million to support a wide range of restoration services including hazardous fuels reduction, reforestation, noxious weed treatments, road repairs, and planning.

GNA expands benefits for Idaho

- Improved forest health
- Reduced wildfire risks on federal land in Idaho
- Private property protection
- Recreation access
- Jobs in rural areas
- Consistent fiber supply
- Efficient use of federal funds in Idaho
