When: Wednesday, May 17 from 9:00 a.m. – 12:00 p.m.

Where: Fays Point Marina
1443 Broadway St.
Blue Island, IL 60406

Who: Dept. of Public Works staff, maintenance crews, community volunteers, students, trainees, planners, engineers, people interested in nature-based solutions

[Registration required. Click here!](#)

Description: Do you have green stormwater infrastructure (GSI) maintenance responsibilities? Are you interested in learning more about GSI, maintenance and tree care? Please join us for a morning learning about local examples from the experts!

- Basics of GSI
- Plant identification and invasive species
- Basic GSI maintenance tasks
- Tree care
- Staying safe on the job

This session is free of charge, but please register by Wednesday, May 10!
