Robert Crown Community Center and Library Demolition of old Robert Crown Center

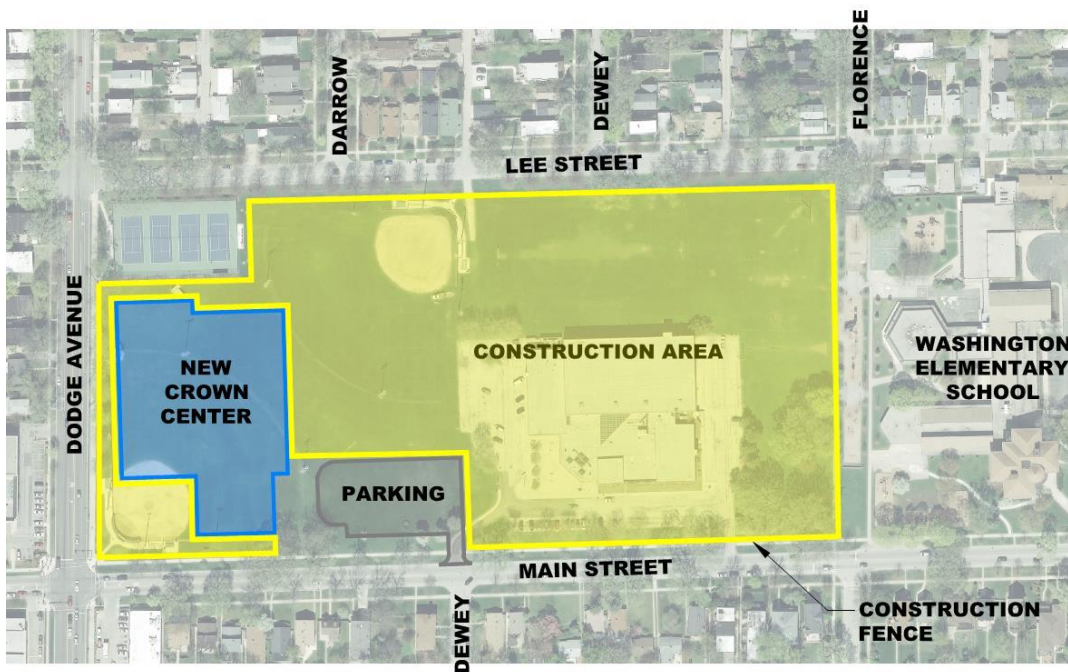

March 2, 2020

Beginning the week of March 9, 2020, the old Robert Crown Center is planned for demolition. The process is expected to require approximately seven weeks to complete as follows:

- Week 1: Mobilize equipment, and abate asbestos inside the building
- Weeks 2 to 4: Dismantle, separate and haul away above grade portions of the building
- Weeks 5 to 7: Excavate and remove building foundations

Demolition work will be conducted between 7:00 am and 3:00 pm Monday through Friday. Occasional work on Saturdays is possible depending on weather conditions and contractor progress.

A diagram highlighting the construction fence which is being erected around the old Crown Center and it's parking lot for this work is below.

During asbestos abatement work, the contractor will follow all OSHA, IEPA, Cook County, and IDPH regulations to ensure the safety of abatement workers, and the general public as well as for proper handling and disposal of asbestos containing materials. Additionally, an independent environmental engineering firm will perform ambient air monitoring to ensure air quality requirements are met.

During demolition work, the contractor will follow all OSHA requirements and the Cook County Environmental Control Ordinance to ensure the safety of both demolition workers and the general public. Water will be used extensively to control dust and dirt from becoming airborne. Ambient air monitoring will be performed by an independent environmental engineering firm to ensure air quality requirements are met. Vibration monitoring equipment will also be installed to alert the contractor in the event construction related vibrations approach levels which could potentially damage adjacent structures.

Contractor

The project's contractor manager is Bulley and Andrews, 1755 W. Armitage Avenue, Chicago, Illinois 60622.

Project Monitoring

The project is monitored by the City's Capital Planning & Engineering Bureau. If you have questions or concerns during construction, please contact Bulley and Andrews' Project Manager, Jacob Hodge at 312-257-5924. General questions should be directed to Stefanie Levine, Senior Project Manager, at 847-448-8043.

Please visit the project website for project information and updates:
