Main Street Water Main Improvements

June 1, 2021

Project Description

Over the next four months, water main improvements will be taking place along Main Street from Maple Avenue to Hinman Avenue. This work involves replacement of deteriorated water mains, water service line replacement from the new main to the parkway, minor sewer improvements, and street patching. These water and sewer improvements are the first phase of work on the Main Street Improvements Project. The second phase of work is currently planned for construction in 2022 and will include complete streetscape improvements, lighting upgrades, sidewalk and ADA ramp reconstruction, roadway rehabilitation, traffic signal upgrades, and landscaping.

Project Schedule

The project is anticipated to begin in the next two weeks and be completed in September. The exact date construction activities are scheduled to begin will be noted on message boards posted along the corridor and on the temporary construction zone no parking signs posted a minimum of 48 hours to one week in advance of the work. Every effort will be made to complete the work in a timely manner to minimize any inconveniences caused by the construction.

Parking and Traffic Control

Parking will be prohibited during daytime work hours (7:00 AM to 4:00 PM) while construction takes place. Parking restrictions will be kept to the active work zone as much as possible and the City will make every effort to minimize parking loss throughout the corridor during construction. Parking Lot #24 at 727 Main Street will remain open and accessible for the duration of the project.

During daytime working hours (7:00 AM to 4:00 PM), portions of Main Street between Maple Ave. and Chicago Ave. will be one-way in the east bound direction only. Westbound thru traffic will follow the posted detour which can be found on the reverse of this newsletter.

Contractor

The contractor for this project is Pan-Oceanic Engineering Co, Inc., 6436 W. Higgins Avenue, Chicago, IL 60656.

City Monitoring

The City has retained Patrick Engineering Inc. to monitor the project. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer **Karl Wilson at (847) 636-4456**. Questions about the project in general should be directed to **Chris Venatta, Senior Project Manager at (847) 448-8129** or cvenatta@cityofevanston.org.
