City of Evanston Public Works Agency

2022 Sewer Cleaning, 24-inches Diameter and Smaller (Project 22-50)

October 31, 2022

Project Description

The City of Evanston has an Annual Sewer Cleaning Program with the goal of cleaning all combined sewers within the City every four years. This is an important program necessary to maintain the reliability of our stormwater management system. The Contractor hired to supplement the City's cleaning crew this year is National Power Rodding Corp. The Contractor will be focusing their cleaning efforts in the southwestern portion of the City and includes approximately 37,690 feet of 8-inch to 24-inch diameter combined sewer main. A map showing the locations of sewer mains to be cleaned by the Contractor is attached to this newsletter.

Tentative Schedule

The work is scheduled to take place between November 7, 2022 and March 3, 2022, weather permitting.

City Monitoring

This project will be monitored by the City's Capital Planning & Engineering Bureau. If you have any questions or concerns, please do not hesitate to contact Ron Papa, Civil Engineer II at (847) 448-8280 or rpapa@cityofevanston.org.
