## **Animal Shelter**

May 31, 2023

---

### **Project Description**

Partnering with the support of a grant from Cook County Animal and Rabies Control, the City of Evanston is embarking on a major project for a new animal shelter. Over the next nine months the City will demolish the existing building and construct a new animal shelter at 2310 Oakton Street. The project will replace the current dog pound with a new facility to support our community and pets. Some of the critical amenities for the new facility are:

- Twenty kennels to house dogs
- Cat colony rooms
- Medical Suite
- Five outdoor dog runs
- Food pantry
- Adoption rooms
- Cat and dog grooming equipment
- Community room
- LEED Silver certification
- All electric mechanical systems making the facility **zero on-site carbon emissions**

### **Project Schedule**

This project is anticipated to begin in **June 2023** and be completed in **March 2024**. Construction activities may create some inconveniences for adjacent businesses and travelers using Oakton Street but we will attempt to minimize these issues.

### **Contractor**

The project's general contractor is CCC Holdings Inc., 18660 Graphics Drive, Suite 200, Tinley Park, Illinois 60477.

### **Project Monitoring**

The project is monitored by the City's Capital Planning & Engineering Bureau. If you have questions or concerns during construction, please contact Shane Cary, Project Manager, at **3-1-1** or **847-448-4311**.
